DES MOINES, Ia., Nov. 16 .- (Special Telegram.)-Fred E. St. Clair, a carpenter, was frightfully and probably fatally gored by a big buck deer at Greenwood park this afternoon. St. Clair had gone to the park to build some winter pens for the animals and just climbed over the enclosure of the deer park when a big buck attacked him. He managed to grasp the brute's antiers and the wrestle for life began, St. Clair yelling for help all the time. A half dozen men came and finally had to beat the deer to death with clubs before they could get St. Clair out of its way. St. Clair was gored in twenty places severely and has little

The action of the board of supervisors this morning virtually puts an end to the cigarette mulct tax in Des Moines. Upon the application of fourteen dealers made this morning the board remitted the tax against them. The action of the board was based on the contention that the tax was void because the only sales had been of eigarettes in the original packages, bought from the American Tobacco company and gotten from outside the state. Some weeks ago the matter was brought to a test before Judge Bishop, in the case of C. C. Tam against Polk county, This was a suit by Aylesworth, Richmond and Baldwin, brought to enjoin the assessment on the same ground taken before the board or supervisors and it resulted in the issuance Omaha did not have the ball for ten minutes. of a temporary injunction. In view of the action of the board of supervisors today further suit will be unnecessary. All those who sell cigarettes bought from outside the state and without breaking the packages in which they are originally received, may sell free from any mulct tax.

Alfred Anderson, who escaped from Anamosa penitentiary April 11, 1894, is supposed to be under arrest at Cairo, Ill., and this morning Governor Shaw granted the authorities a requisition for the return of the escaped convict. Anderson was convicted at Fort Madison of the crime of murder in the first degree and was given a life sentence on the second day of December 1893. He is a German, who speaks several languages and especially good English, was a baker by trade when he lived at Fort Madison and was about 24 years old at the time he escaped. He was subject to fits and consequently kept in the insane ward from which he escaped.

Disapprove of Low Valuations. Governor Shaw and Adjutant General Byers held a conference this morning and secided that the low valuation which company captains of the Fiftieth Iowa insis. upon placing upon the state property which went into the government service las spring shall not be approved. Twice the Board of Survey has tried to come to an understanding with the captains as to the valuation of this property, but each time the sum has been fixed at but a little over \$400. The regiment took into service something like \$15,000 worth of state property and the adjutant general contends that there has not been enough depreciation in the property to allow such a discrimination in valuation. The second report of the Board of Survey has not been submitted to the adjutant general for his approval, but if the low prices are insisted upon he will refuse to approve the appraisement, and with the governor's approval he will make a claim to the government for what he considers a fair estimate. He has not fixed the figure, but it will be in the thousands perhaps \$1,000 or \$1,200-the same as the other regiments will be called upon to make an accounting for. Under the valuations made by the company captains a campaign hat, which originally cost 26 cents s put in at 5 cents; a blouse which cos \$2.32 and a pair of trousers which cost th same are put in for 15 cents each.

Iowa Press Comment. Keokuk Gate City: Democratic editors are now assiduously engaged in explaining how it happened All that is really necessary for them to do here in Iowa is to point to he Marshalltown platform.

Davenport Democrat: Even the editor of the Omaha World-Herald, who ran fer con-gress on the basis of close acquaintance with and warm support of William J. Bryan, fell short a few thousand votes. After this temonstration of the wrath of the gods what more could you want?

Creston Gazette: "Fickle Finn is beat agin" is the way the Waterloo Courier outs it, but this statement of the case, while pleasant, is hardly true. Mr. Finn, previous to the incident of last Tuesday, has and a most uncomfortable way of being elected when he was a candidate for office. This glamour of success is now, however. considerably frayed around the edges. He will have to find some way to change his uck before he will ever again cut any figire in the politics of this section.

Creston Advertiser: Many lessons should be learned from the result by the silver forces. One in this district is that it does not pay to pick up recent converts from he republican party to run for office. Concerning Underwear

Whenever a firm stops handling a certain line of Underwear it is bound to have the remnants of that line left on its hands. There will either be a full line of shirts, in all sizes, without the drawers to match, or just the opposite—the drawers without the shirts. Now we are just in that fix. We have on our shelves a quantity of shirts without drawers to match.

When the line was full these shirts sold at \$1.50, \$2.00 and \$2.50 per garment. We will close these out at \$1.00 apiece,

This is an opportunity for those who want good Underwear.
