ISLAND TO BE COMPLETELY QUARANTINED

Authorities Will Undertake Sanitation on Large Scale to Insure Protection to United States.

WASHINGTON, Nov. 17 .- The yellow ever problem has been receiving earnest at tention of late from the officials here, particularly from the Marine hospital service and the War department, owing to the important new relations established with Cuba and other fever localities to the south of us and also because of the recurrence of the disease within this country during the last

The purpose is to prepare during the coming winter months for such an efficlent cordon of protection around the country that the chances of a re-introduction of while at the same time the points of infection in Cuba and elsewhere will be so improved by sanitation and guarded by quarantine that the main sources of danger will be removed. Already the Marine bospital service has begun its work of establishing a cordon of quarantine around Cuba. A large floating disinfecting plant is in We have some operation in Havana harbor and a similar very pretty styles floating disinfecting plant is at Santiago, alth ugh not yet in operation. These are to in Misses' Coats at take charge of the shipping coming to American ports and put it through such thorough disinfection that all fever germs will be removed. Similar floating plants will be established at all other large commercial points and such rigid rules put in force that the shipping will be free from danger before it is out of Cuban waters, although the same rigid quarantine a American ports will be continued.

Besides the quarantine, to provide against the escape of diseases from the island, the authorities are now considering plans for the internal sanitation of the island on an extensive scale. What branch of the service will have that in charge is not yet settled. Surgeon General Wyman says the Marine hospital service will undertake the work if it is desired, but as Cuba will be under military for many months to come, the War department may determine to carry on the local sanitation in connection with its other branches of military occupation and

To Have Fever Experts. America, situated as it is near the mouth Another means of coping with the disease probably will be the stationing of a force of the great river Amazon and commanding of fever experts throughout the island to reits trade. The two lines of steamers which port on the conditi n of contagion and the run between that city and New York are appearance of any new outbreak. The surincreasing the number of their ships and geon general now has two of these experts are still entirely unable to carry the heavy at Havana and one at Santiago, and this w.l. freight, although the service has been inbe the nucleus of a much larger force. Two other experts, Surgeons Wasdin and Gedcreased from one trip per month to three trips, and it is to be further increased dings, left here yesterday for Havana, rais-January 1 to one every week. In the other ing the force there to four officers, besides the subordinates and assistants. The work of Messrs. Wasdin and Geddings is considered particularly important, as they are pecially appointed by the American commission to ascertain the causes of yellow fever. This appointment was made about a year ago and the experts have opened laboratories and conducted their inquiries at New Orleans and Havana. The work at Havana was interrupted by the war, but the laboratory outfit did not suffer during hestilities and they now return to resume the investigation. Their preliminary refew days ago, is said to be one of the most important contributions to medical science made in recent years, as it practically sustains the Sanaralli theory that yellow fever is the outgrowth of a certain organism Postmaster General in Part Speaks for This is not yet the positive conclusion o the United States commissioners, but Surgeon Geddings reports that in his experiments he has found that 76 per cent of the yellow fever cultures had the organisms described by Sanarelli. Dr. Geddings supplements his report by recommending that as the bacillus interoids of Sanarelli is in-

Chief Endicott Makes Some Recom mendations in His Annual Report.

WASHINGTON, Nov. 17 .- In his annual report to the secretary of the navy Chief pects. The Spanish reply was not a sur- assume that, added to its insistence on the and the country has come to realize that we | Endicott of the Bureau of Yards and Docks makes a strong point of the necessity for tion for war. But when war came for hu- ample docking facilities, not only for small manity and justice he directed it with a wis- vessels, but for the battleships upon waters near Key West. He said this place we commanded the applause of the whole world. during the war, and may be in the future an important base of naval operations, able strategists having pronounced Key West and Dry Tortugas the keys of the Gulf of Mexico. The estimates submitted for the next year provide for only one new dock. ministration lustrous as adding new jewels which is to be of the fargest type, constructed of granite and concrete and located

at the Norfolk navy yard. Under the head of coaling stations the re port tells what has been done toward establishing such a station at Pago Page, on the island of Tutua, Samon, showing that the United States has acquired fifteen acres of land at Swimming Point and Observatory Point, and has contracted for a steel pter, coal shed and other improvements necessary to store 5,000 tons of coal and other supplies

The report states that the United States insight, with unfailing sagacity, with calm has come into possession of the port of San courage and with firm and confident reliance. Juan of a naval arsenal, founded in the year of 1800, containing a number of substantial concrete buildings and three good plers. Th but by a profound conviction of public duty. total value of the buildings and arsenals and grounds is about \$100,000, and it has been erec;ed into a United States paval station. The estimates of the various navy yards for the next fiscal year are as follows:

Portsmouth, N. H., \$306.000; Boston, Mass. \$367,000; New London, Conn., \$25,000; New York, \$612,060; League Island, Pa., \$755,976; Washington, D. C., \$205,000; Norfolk, Va. \$2,000,000 (\$1,500,000 being for a new dock) Port Royal, S. C., \$145,000; Key West, \$112, 520; Mare Island, \$851,750; Puget Sound \$53.500. Treating of this last station, Puget Sound

Chief Endicott says that if it be important to equip a first-class nevel station in that vicinity a new site should be selected, for good naval station. There is no nearby popavailable market and no direct railroad connection with a trunk line. Under these conditions it is said to be doubtful if it be wise to build up a large station at this point.

The report also comments upon the fact that no battleships or heavy draught cruiser have yet appreached the wharves at Mare Island, and says it remains to be demonstrated that this precise location as a navy yard was a fortunate one. Attention is called to the fact that the Oregon was com pelled to go 800 miles north of Puget Sound

While the government could construct the

A terrible disaster occurred in an inland sea on October 25, when the steamer Kinshiu Maru came in collision with the steamer Myagawa Maru, off Taka, sinking the latter in three minutes. It is reported that 130 persons were saved, but that seventy were drowned. So strong was the impact that the captain who was on the bridge was thrown into the sea. The captain and all the crew were saved.

It is stated that Great Britain has suggested that the rallway between Shanghai Kwan and Tien Tsin, already working, and the mines in the vicinity of the railroad, should stand as security for the loan under the negotiations for the construction of the railway between New Chwaing and Shanghai Kwan. Russia has assented to this and discussion on the details of the agreement is progressing.

Fact that Tolbert Was Only an As sistant Postmaster Weakens the Cane.

WASHINGTON, Nov. 17 .- Up to this time no definite plans with respect to the prosecution in the riotous proceedings against J. W. Tolbert in South Carolina have been decided upon. The fact that Tolbert is the assistant postmaster at McCormick and not the postmaster may have an important bearing on the case. Assistants to fourth class postmasters are not recognized by the law as officers of the government, they being appointed and paid by the postmaster. In the postoffice department they are recognized as miscellaneous employes. Assistant United States Attorney Cochran, from the Tolbert district, has been ordered to Washington for conference with the officials of the Department of Justice, and upon his arrival here tomorrow the whole South Carolina situation will be gone over and a line of action decided upon.

Bank Falls Heavily, but Depositors Will Not Suffer.

WRECKED BY BAD MANAGEMENT.

WASHINGTON, Nov. 17 .- A telegram has been received by Mr. Dawes, comptroller of the currency, from the receiver in charge Tuesday for the purpose of investigating the of the First National bank at Emporia, circumstances attending the abandonment of Kan., saying that so far his investigation has developed irregularities in the reserve agent's accounts amounting to \$150,000 and to \$15,000 in the cash accounts, and that the bank had invested in doubtful enterprises controlled by President Cross approximately \$150,000. It is thought by the officials in the comptroller's office that, although the capital and surplus of the bank are entirely wiped out, the bank depositors will suffer little, if any, loss.

Murkland, New Hampshire; college section, C. B. Dabney, jr., Tennessee; entomology

C. W. Woodworth; botany, H. L. Pammel lowa. HOW CAMPS WERE SELECTED.

Investigating Commission in Furnished Information. WASHINGTON, N. v. 17 .- The adjutant general of the army has furnished the War Investigating commission a statement showing the authority upon which the camps occupied during the war with Spain are se lected. It shows that General Miles located the camps at Chickamauga, Ga., Fernandina and Miami, Fla., and Camp Alger, Va.; that General Lee selected that at Jacksonville, General Merriam that at Camp Merritt and that the other camps, except that at Tampa, were located by boards o officers. The report says a permanent camp was never contemplated at Tampa, but that troops were sent there preparatory to em-

barkation on recommendation of General Miles. INQUIRY REGARDING THE TERESA Explanations in Order as to Its Abandonment. WASHINGTON, Nov. 17 .- The secretary of the navy has ordered a court of inquiry to meet at the navy yard at Norfolk next

the Spanish cruiser, Maria Teresa, with a vicw to determining the necessity and responsibility therefor. The detail for the court of inquiry was announced this afternoon as follows: Captain Day, Commander Scouler and Commander Tilley, with Captain Walker, Marine corps, as judge advocate.

Indiana Win Their Suit. WASHINGTON, Nov. 17 .- The court of claims today rendered a judgment of \$1 .-869,400 in favor of the New York Indians who entered suit against the United States to recover the value of certain lands dothe present has none of the desiderata of a nated to them in Kansas, and subsequently disp sed of by the United States. The award ulation to draw upon for skilled labor, no is in pursuance of a mandate from the United States supreme court.

> Falled Pank Reopens. WASHINGTON, Nov. 17 .- The Tioga National bank of Oswego, N. Y., which suspended payment August 14, having complied with the conditions imposed by the comptroller of the currency precedent to resumption, is now in a solvent condition and has been permitted to reopen its doors for busi-Oregon Soldier Promoted.

> WASHINGTON, Nov. 17 .- Herbert W. Caldwell of the Second Oregon has been promoted from captain and regimental surgeon to major and chief surgeon of volunteers. Captain Joseph B. Foraker, assistant adjutant general, has been honorably discharged, his services being no longer required. He was appointed from Ohio.
