

NEWS OF INTEREST FROM IOWA AND COUNCIL BLUFFS.

MINOR MENTION.

Hamilton's shoe store, 412 Broadway. Stocker Carpet Co., 205-207 Bwy. Moore's food kills worms and fatens. Window glass, Davis, 200 Broadway. Dell G. Morgan, druggist, 142 Broadway. Miss Anna Dodge left last evening for a visit in Chicago. Mr. and Mrs. S. S. Paes spent Thanksgiving at Madison, Ia. C. B. Jacquemin & Co., jewelers and opticians, 27 South Main street. Mr. and Mrs. David L. Van and daughter, Nina, leave this week for a visit in St. Louis. County Attorney Saunders and family ate Thanksgiving turkey with relatives in Madison, Ia. Mr. and Mrs. H. C. Raymond leave this week for California, where they will spend the winter. Miss Gertrude Davenport is spending the Thanksgiving vacation with friends in Fort Madison, Ia. Mr. and Mrs. Will Wallace, who have been visiting in the city for several weeks, will return to Des Moines today. The Young People's Society of Christian Endeavor of the Second Presbyterian church will give a social this evening. Mrs. E. M. H. is suffering from a cancer on her face, is reported to be quite low, with but a slight chance of recovery. J. C. Bixby, heating and sanitary engineer, plans and specifications for heating, plumbing and lighting, 202 Main, Council Bluffs. Some never speak as they pass by, yet they cannot help looking at the color and finish of the work done by the Bluff City Laundry. Don't you think it must be a pretty good laundry that can please so many hundreds of customers? Well—that's the "Eagle," 724 Broadway. Will Kane, an old-time employe at the Dohany theater, has secured a position with Robert Downing's company as stage carpenter and property man. The young people of the First Christian church gave a literary and musical entertainment at the Tabernacle last evening that largely attracted the public. J. B. Simmons and bride of Clinton, Ia., who are on their wedding trip, spent yesterday in the Bluffs, the guests of Mr. Simmons' brother, F. B. Simmons. I. E. Rohrer arrived from Liberty, Mo., yesterday, where he is attending William Jewell college, to spend the Thanksgiving holidays with his parents, Mr. and Mrs. M. F. Rohrer. The entertainment for the benefit of the poor of Council Bluffs, to be given this evening at the O'Connell hall, promises to be a successful affair. An excellent program has been arranged. Max Meyer of Iowa City was, as usual, right on deck at the foot ball game yesterday afternoon. He has yet to miss being present at a Thanksgiving game between the Nebraska and Iowa eleven. J. F. Thompson, editor of the Daily Standard at Eureka, Cal., is visiting the Council Bluffs. Mr. Thompson was at one time a member of the Iowa legislature. He is also land receiver at Eureka. The little daughter of Chief of Police Bixby, who was severely injured by a fall received at the Driving park about six weeks ago, is still confined to her bed, but symptoms which give her parents serious cause for alarm. Charles Edward, the infant son of Mr. and Mrs. C. L. Harlan, 27 South Eighth street, died yesterday night from pneumonia, aged 1 year. The funeral was held yesterday afternoon from the residence, interment being in Fairview cemetery. Mrs. Ellen K. Deany, who is enroute from the national convention of the Woman's Christian Temperance union in St. Paul to her home in Vincennes, Ind., is the guest of Mrs. Rev. J. G. Lemen of the Christian Home. Ireland and the green regained at the Dohany last night, and for once the pretty Dorothy was not in it, being out entirely in the shade by the two "biddies from Ireland." These two were the main feature at "Mannagans Flats," that amused a large audience. The girls of Rev. Henry DeLong's Industrial school will be given a treat in the shape of a good substantial dinner tomorrow afternoon at the O'Connell hall, in the building. All persons wishing to contribute can bring their donations to the school or telephone No. 552 and they will be called for. Ed Williams, the employe at Frey & Kastner's green houses who was scalded in the face by the accident with the boiler which cost Milton H. Frey his eye, may lose the sight of one eye. The escaping steam struck the left eye, and it is swollen almost shut. The oculist, who is attending the case, physician fears that the vision is permanently impaired. C. H. Judson, secretary of the Merchants and Manufacturers' association, has received a letter from the statistician of the Department of Agriculture at Washington asking for a list of the mills and elevators in operation in this vicinity. The letter contains the information that the department is preparing to issue a weekly bulletin showing the visible supply of grain in the country. Henry Davis, who was arrested early yesterday morning for creating a disturbance at a cake walk and possum banquet held by the colored people of the city at the old Dohany hall on Bryan street Wednesday night, Davis attempted to run the affair and some of the negroes objected. As several of those present were carrying knives, reaching for their razors, Officer Pinnell decided to take a hand, and after a short but decisive tussle landed Davis in the cooler. The Viatic home treatment removes necessity for surgical interference. For information call or address 326 Merriam block. N. Y. Plumbing company. Tel. 550. Walter Johnson, lawyer, astory, 5pp blk. Collections made everywhere in U. S. Those desiring copies of the Jubilee edition of The Daily Bee can secure them at the Council Bluffs office of The Bee. Five cents a copy. DeLong, the printer, 520 East Broadway. Snap Shots all go at 10 cents each at the Council Bluffs office of The Bee. Remember the exposition by getting some copies of Snap Shots at the Council Bluffs office of The Bee. Ten cents each. Ladies wanting fine medicinal wines and liquors call Jarvis Wine Co., 223 Main street, upstairs. Lady in attendance. Those desiring copies of the Jubilee edition of The Daily Bee or secure them at the Council Bluffs office of The Bee. Five cents a copy. Railway Trainmen Dance. CRESTON, Ia., Nov. 24.—(Special.)—The annual ball given by the Brotherhood of Railway Trainmen was held last evening at Academy hall, corner of Montgomery and Walnut streets, and it proved to be the most enjoyable social affair of the season.

ALL UNITE TO GIVE THANKS

Congregations of Protestant Churches Observe Thanksgiving Day.

REV. G. W. SNYDER PREACHES THE SERMON

Traces Analogy Between God's Dealings with the Ancient Israelites and the People of This Country.

The congregations of the Protestant churches of Council Bluffs observed Thanksgiving day, as has been the general custom for years past in this city, with union services yesterday morning at the Broadway Methodist church—this church being selected as having the largest auditorium of any sacred edifice in the city. Owing to the large window over the main entrance having been blown out during the blizzard Monday night, it was found impossible to properly heat the auditorium and the service had to be held in the rooms in the basement which, owing to the large congregation present, were somewhat inconveniently crowded. By a strange coincidence to which the Rev. G. W. Snyder, pastor of St. John's English Lutheran church, referred in the opening of his sermon, six years ago when he was called upon to preach the Thanksgiving sermon at the union services at the same church, owing to the blizzard raging that day, they had to be held in the basement. Rev. Snyder took as his text Exodus 24:24: "For I will cast out the nations before thee and enlarge thy borders; neither shall any man desire thy land when thou shalt go up to appear before the Lord thy God thrice in the year." He said in part: "What a spectacle is this day presented to God, to angels and to men. A nation of 70,000,000 souls saying: 'Praise the Lord, Jerusalem, praise thy God, O Zion—a nation offering thanksgiving unto God. That must indeed be no trifling or common cause that can close the marts of business, stifle the hum of industry, suspend the work of buying and selling and getting gain, spread a solitary stillness over a people allotted to secular work, and crowd the houses of God in the land with multitudes to offer praises and thanksgiving to the father of all mercies and blessings. "And this spectacle has not been produced by any extraordinary religious awakening, or by any ecclesiastical authority nor by any concerted action by the several Christian bodies in the country, but is recommended by a proclamation of the nation's chief magistrate and again recommended by the executives of the states. Thus the appointment of the solemn day is supported by a combination of civil sanction, influence and power. "There is a peculiar analogy between God's dealings with the ancient Israelites and the people of this country. In noting the blessings cited in the president's proclamation as well as others in which we are greatly rejoice, we will draw attention to this similarity in dealing with the two people. "First, we rejoice in national security. The Israelites were yet around Mount Sinai, and just starting on their long, tedious journey for the promised land, when God said unto Moses 'I will cast out the nations before thee and enlarge thy borders, neither shall any man desire thy land when thou shalt go up to appear before the Lord thy God thrice in the year.' Extensive dominion and national security were here promised. The psalmist, referring to this in after years, said 'He hath strengthened the bars of thy gates.' As God gave the people of Israel a peculiar country, so has he our own nation. Judah's fertility enabled it to sustain an immense population and its physical geography was a defense in itself to its inhabitants. So the fertility and the immense resources of wealth of all kinds of this country are able to support and are supporting growing millions. "And if Judah was strong from its physical geography this country is much stronger. Our land extends from ocean to ocean, thousands of miles of vast waters intervene between us and any other powerful nations east or west. We extend as far north and south as cold and heat make it desirable to reside. No powerful nation lies on our borders to watch us with envy and jealousy and cause us to be ever in readiness to repel a formidable invasion. A few days' notice of fire and drum summons enough men together to settle all warlike contrivances with any of our immediate neighbors and with some remote ones, too, as evidenced in the late Hispano-American imbroglio. "Hitherto we have been placed under no necessity of keeping a large standing army. Our newly acquired possessions will make an additional demand on our young men for the army and navy, but nothing to compare with the hundreds of thousands of men in the prodigious military organizations of European nations. When we are brought into contact with any nation without saying anything to anybody about it, and return to the farm, the shop, the store and the office. In Europe they make proposals to each other for disarmament, even in times of peace, and fail in their proposals. Since our declaration of independence as a nation we have acquired territory from England, Spain, France, Mexico, Russia and Spain the second time; we have had four foreign wars and one civil war, always coming out victorious, and have become stronger after every clash of arms and mightier and wealthier after every added new possession. To the God of Israel is the praise. We rejoice in the restoration of peace and in plenty throughout the land, in the courage of our chief executive. If ever an army and especially a navy were divinely protected from great disaster while in furious combat it was our army and navy in the war just closed. Two great naval victories and only three men killed, a large army captured, proud nation defeated and compelled to sue for peace, with a loss of only something over 200 killed among the victors. Peace procured so readily and with such wonderful results demands our heartiest praise and thanksgiving." Mr. Snyder told of the bounteous harvest the country over and reminded his congregation of the debt of gratitude due the

SMASHUP NEAR BURLINGTON

Passenger Train Strikes a Curve and is Thrown from the Track.

DAY COACH ROLLS OVER INTO THE DITCH

Of the Twenty Passengers on Board Two Are Fatally Injured and Mrs. Catharine Davis is Dead—Many Severely Hurt.

BURLINGTON, Nov. 24.—(Special Telegram.)—Burlington, Cedar Rapids & Northern passenger train No. 6, due in Burlington at 6:30 a. m., but running four hours late, was going very rapidly six miles north of Burlington when the train struck a curve and two cars left the track. The day coach, containing about twenty passengers, rolled over twice and landed right side up in a ditch fifty feet away. The Pullman left the rails but was not dented. The following people were fatally injured: MRS. CATHARINE DAVIS, widow, Columbus Junction, skull fractured. AMANDA HARMES, 2-year-old child of Mr. and Mrs. August Harme, Maxfield, Minn., back broken; dying. The severely injured were: Miss Estella Bowen, Buckhorn, Brown county, Illinois, hip fractured. Mrs. A. E. Gates, Welcome, Minn., back injured. Maria Pultenacher, Hamburg, Carver county, Minn., scalp wound. Myrtle Haywood, Iowa Falls, Ia. Lizzie Mulhaly, Kingston, Ia. S. H. Wilson, Pleasant Grove, Ia. Lurilla Ranschler, Pueblo, Colo. Glen Gates, boy, Welcome, Minn. A. R. Ricketts, Ploversville, Ill. John Minister, Galland, Ia. Mr. and Mrs. August Harme, Maxfield, Minn. Mr. and Mrs. J. C. Ollrogge, Maxfield, Minn. Mrs. Ives, brakeman. Andrew West, Palsburg, Kan. G. J. Kleiburg, Assumption, Ill. Charles Johnson, Montrose, Ia. W. Robinson, Ford River, Mich. T. A. Bredek, Minneapolis. Word came here at 10:30 a. m. that at once a relay train with surgeons, stretchers, dressings and supplies started for the scene. After the wounded were cared for they were brought to the St. Francis hospital. When the day coach rolled over the seats on the right side of the car were loose and fell into the ditch. The coach curved over twice, the loose seats acting as a battering ram, mauling the passengers unmercifully. It was these which caused most of the serious injuries. Mrs. Davis, who had her skull fractured, died in the evening. An injured child will not live over night. The other injured are resting comfortably.

ACROSS THE PANAMA Isthmus

Congressman Hepburn Tells About the Canal and the Difficulty and Necessity of Its Construction.

CLARINDA, Ia., Nov. 24.—(Special.)—Hon. W. P. Hepburn, chairman of the house committee on interstate commerce, in whose hands the Nicaragua canal project is placed, was here yesterday in connection with an engagement control and ownership of the works. In a lengthy interview on the subject, he says: "I have no reason to believe the Pacific railroads are or have any disposition to be opposed to the canal. The business it would do is largely in the construction of the railroads cannot get. On the other hand, it would soon double the population of the Pacific states, which would give the railroads an immense gain in tonnage. I have never, in all the consideration this question has received, had it suggested to me that the Pacific roads are opposed to the canal. "The temper of the American people at this time demands that steps be taken toward the construction of the canal. It will be one of the big issues in the national legislature in the next few years. The question involved in the construction of this canal are such as have been presented in no previous work of the kind. For instance, the one question of seismic disturbances is a grave one. We know that they have such disturbances in Central America, yet nothing definite is known as to their character, violence or frequency of recurrence. There are volcanoes pouring forth their volumes of smoke within sight of the route of the proposed canal. It is not difficult to imagine the havoc which might be wrought to such a structure by an earthquake of three or four feet. Another thing to be thought of is the frequency of recurrence. There are volcanoes pouring forth their volumes of smoke within sight of the route of the proposed canal.
