DESIRES LIGHT ON NEW MATTERS SET OUT Special Request for Argument on the Point that Broatch Has No

Standing Even if Moores

is Incligible.

LINCOLN, Dec. 8 .- (Special Telegram.)-The supreme court, at its session today, granted the petition for a rehearing in the Broatch-Moores mayoralty case from Omaha. In granting the petition the court resuested argument on the matters set out in the amended petition to the effect that in case Moores was declared ineligible Broatch was not entitled to the office, be-cause his successor had been elected and

The point urged in the supplemental brief which the court asks for further argument is that the section of the charter on which Broatch pretends to hold office until his successor had been elected has been completely exhausted by the election of the ing no claim or title to the office of mayor under the new charter, has no right to question the title of Mayor Moores. This point is worked out in detail by a citation of the charter and reference to the effects which a different interpretation would have upon the city government. The point was not urged in the original briefs for Mayor Moores and court in thep resent controversy.

Bartley Bond Case Reversed. The supreme court today reversed and remanded the judgment in the Bartley bond case. The opinion is by Judge Harrison and the syllabus is as follows:

Reverses the Oerter Case. The court also handed down an important decision in reversing the judgment of the case of Oerter against State, involving an interpretation of the gambling laws. The

syllabus reads: 1. The effect of section 1 of the criminal code is to make the aiding, abetting or procuring of another to commit a felony a sub-stantive and independent crime.

of T. P. Kennard against the State, involving the payment of a large claim for the collection of money from the general government. Kennard was employed by the governor as the agent of the state to collect the money, but the court held that under the act of the legislature the governor was prohibited from entering into such a contract. The claim has been before the legislatures and the courts for the last twenty

Young Men's Republican Club.

The Young Men's Republican club held a meeting at the Lindell hotel last night for the annual election of officers, which resulted as follows: President, E. E. Spencer; vice president, Homer Honeywell; second vice president, Ralph Johnson; third vice president, Victor Seymour; secretary, D. H. Flaherty; treasurer, John Fawell; sergeantat-arms, George Bush; board of directors, First ward, H. G. Abbott; Second ward, J. G. Stevenson; Third ward, J. S. Bishop; Fourth ward, Roscoe Pound; Fifth ward, B. C. Cox: Sixth ward, W. G. Roberts; Seventh ward, George H. Harper. It was decided to hold the usual annual banquet on Lincoln's birthday. During the evening several

very enthusiastic speeches were made. The Young Men's Christian association of the university held the annual dinner last night in the conservatory of Music building, covers being laid for sixty men. These were officers, committeemen and a few invited guests. John Boose, the president of the association, acted as toastmaster. A short history of the association was given by Lucian Marsh, who stated that it was first organized and placed on a working basis in 1882. Chancellor MacLean responded to "Our Young Men" in his usual happy style nd won the warm applause of those around the board. C. S. Ward of Minreapolis was present and spoke on "The International Association," and afterward mentioned briefly the work being done in the army and in railroad circles. G. A. Adams, Mr. Melchtoasts. This is the first social affair undertaken by the association, but its success warrants that it will not be the last.

Supreme Court Rules on the Liquor License Advertisements.

Contention of the World-Herald is Knocked Out by the Highest Court of the State-Syllabus of the Opinion.

LINCOLN, Dec. 8 .- (Special Telegram.)-The supreme court affirmed the decision o the district court of Douglas county in the newspaper circulation case, holding that The Evening Bee is the paper having the largest circulation in Douglas county and that the Morning World-Herald and Evening World-Herald do not constitute one single paper. The opinion is by Judge Norval. The syllabus of the decision is as follows:

1. One is a competent remonstrator against the granting of a liquor license on the ground that notice of the application for such li-cense was not published in the newspaper having the largest circulation in the county, notwithstanding he is personally interested in the determination of the question.

2. Notice of an application for liquor license is required to be given for two weeks

prior to the hearing in a newspaper pub lished in the county, having the largest cir-culation therein, unless no newspaper is published in such county. Where a notice is inserted in a daily paper it must be published daily for the period stated.

3. Whether several editions of a daily paper are separate and distinct publications

is a question of fact, to be determined in the first instance by the License board.

4. Where the matter published in each of two editions is not substantially the same and each edition has a different heading or name and is sent to a different list of sub-scribers, notice of an application for liquor license is required to be inserted in but one edition thereof daily for the requisite length of time and its circulation alone is to be considered in determining whether the proper newspaper was selected. DEADWOOD, S. D., Dec. 8 .- (Special.)forty-five men were set to work on the different properties of the Portland company at ore are being shipped daily to the smelter at Deadwood. This is the oldest mining property in this district. It has been idle for several years, owing to mismanagement and disagreement among the stockholders. Matters have been settled now and the work of developing the mine claims will be pushed. There are three separate mines, the Old Portland being the farthest west. Two shoots of ore are being worked here, one nine feet wide and the other about twenty-five feet wide and from five to seven feet high. The Empire lies east several hundred feet. The main tunnel is 300 feet and three shoots of ore have been cross-cut which have an average width of twenty feet and three feet in thickness. The ore is high grade. This prop erty has been in litigation a long time and is now settled. Mr. Hanson has commenced running a new tunnel between the two groups, which is now seventy feet. Some ore is being taken out which contains as high as 25 per cent lead, some silver and manganese of iron. Two carloads of ore were shipped this week to Kansas City for treatment. The lead in the ore will valuable enough to pay the expense of shipping and treating, which will leave the gold values clear profit. The ground is to be thoroughly prospected. About 700 tons of ore were shipped last year by the owners

of the ground. The Two Jones mine lies adjoining the Gushurst group. About an acre of land was recently purchased from this group of claims and a tunnel is now being run to strike a porphyry dike behind which there is thought to be a body of ore. Three thousand feet of drifts and crosscuts have been run in this mine since it was purchased by the present Chicago company less than a known as the Rua mine and the second year that it was operated Mr. Rua cleaned up \$50,000 cash from the rich ore. A number of new shoots of ore have been opened up in the last few weeks. There is a large quantity of low grade ores in this district. Prospecting and development work are being done on each side of the creek and several reports of new strikes have been made.

LIFE SENTENCE FOR MURDERER.

Strong Chain of Circumstantial Evidence Convicts Thomas Hall.

CASTLEWOOD, S. D., Dec. 8.—(Special.) The jury in the case of South Dakota against Thomas Hall arrived at a verdict Sunday morning and this morning the prisoner. Thomas Hall, was sentenced by Judge Julian Bennett to imprisonment for The following is a brief summary of the

case: On September 27, 1897, some boys herding cattle found the body of a dead man lying in a clump of bushes on the north bank of Lake Poinsett. A bullet hole in the head showed that the man had been murdered, but there was no clew to the perpetrator of the crime. A few days afterward a letter dated September 4, 1897, with neither town nor state given, signed by Lottie LeMay was found near the spot stating that Ringling Brothers' circus had been there the week before, and that was the only clew on which to work up the case. By writing to Ringling Brothers it was found where the circus had been during the week stated. Then began the search for the person who wrote the letter. She was found six miles from Lincoln, Neb., and proved to be Mrs. Charles LeMay, wife of the murdered man. She said her husband had gone to Mellette, S. D., to work in the harvest fields. After finding LeMay's name, the prosecution proceeded to Mellette and found that LeMay left there on September 15 with a span of mules and a covered wagon for home, accompanied by Thomas Hall of Tarkio, Mo., who had also been working near Mellette. Traces of them were found at Watertown and in this county near the lake. Hall stopped at Arlington, where he disposed of some of the murdered man's property. He was located there in March,
