LOCAL BREVITIES.

Oscar Adams Turner of this city has been the publication of a newspaper under the name of the American Book Reporter. Dr. Swetland has been requested to repeat his lecture on the nervous system, which he will do in the course of her lectures at a later date. Mayor Moores has been called to Cincinnati for several days. In the meanwhile President Bingham of the city council is acting for the mayor's duties. John H. Moore has received word of the death of Guthrie, Okla., of Peter Muller, an old friend, who is remembered in Omaha as the drum major of the Oklahoma band which was at the exposition last summer.

WIND-JAMMING TRYOUT ENDS

Utterly Routed.

ADHERE TO DUTY OF TRADE UNIONISTS

Debs' Attorney, Clarence Darrow, Declares the Law Favor Only Rich—Resolutions Endorsed.

KANSAS CITY, Dec. 17.—

Though the convention of the American Federation of Labor has extended over six days, fully two-thirds of the business called for, for the delegates returned here, it has been six days of talk. As a labor delegate expressed it tonight: "The time of the convention has been largely wasted in wind jamming." Much of the argument and debate has centered around the question of socialism, and the efforts of the social democrats to secure an endorsement of their propaganda. This issue was disposed of this afternoon, when the socialists were buried under an overwhelming vote, and it is now thought that the convention will come to an end by Wednesday next. The labor men were never bolstered up by a more eloquent plea than the socialists among the delegates to the American Federation of Labor convention advanced in behalf of the principles which they believe offer the true relief from grinding industrial conditions of our country. The Federation is opposed to committing itself to the indorsement of any political party and has voted in each annual convention to this effect. Democrats and republicans have given up their efforts for their theories of government, but the socialists have not. They realize that their work will be vain as far as practical, definite results are concerned, but they glory in the agitation they cause and in the fact that they make converts in secret. The entire morning session today was spent along these lines.

Debs Improves Socialists.

While the speaking was at its height this morning Mr. Gompers took a hand and denounced the efforts of the socialists to infuse their doctrines into that of trades unionism. He said: "This question involves the integrity of the industrial condition of our country. Either the trade union movement is right or it is wrong. We must either declare for the union movement without frills or follies, or renounce its admission. It is wrong to have men who advocate and ask you to commit yourselves to this movement have in the past done all that man can do to disrupt trade unionism. One of the parties referred to called a convention to form a rival to this federation. At that convention they issued a broad platform of resolutions in the form of letters of red: 'Wreck the old trades union and pull for socialism.' They have besmirched the name of labor. They have attacked the integrity of the men who have tried to better the conditions of labor. They have attacked conservatism and everything that is good for our cause. It is our duty to the line that will advance the interests of labor I would give it my adherence at once, but knowing as I do that every attempt at diverting our efforts has been followed by an era of inertia and indifference. I cannot subscribe for it. Rather than turn our unions into ward clubs we are working to the line that will better our interests before the whole country. I know that progress is necessarily slow and that every attempt at diverting our efforts from the path of progress and that the success of labor is at the end of that line. We should be broad in our sympathies in all that we do and the day of labor's emancipation will soon come. Socialists are Hated.

No Longer a Boycott.

The boycott against the Great Western has been officially called off. The Union Pacific railroad has announced that it will not carry into effect its order boycotting the Great Western.

Laws Favor the Rich.

For centuries the law has consistently been growing to favor the rich and to destroy the poor. Our law is made in two ways, first, by legislatures, and next, by the courts. Everyone knows that most of the legislatures have been corrupt for the last twenty-five years; that they have been in the employ of the corporations, and that legislation is made in their interests, rather than in the interests of the people. No matter how ignorant a man may be his decisions go down as the law. The young lawyer who shows ability in picking up the scraps of corporations and it is not long before he is elected to the bench. In all sections the railroads and corporations have the ablest lawyers in their employ. So long as the courts persist in the present system any body of men may be sent to jail any time they see fit to strike. These men are safe on any grounds of law, and it is the duty of organized labor to create such a public sentiment as will force the courts to the privilege which the courts have wrested from them—that of trial by jury. The convention adopted the following resolutions: By Owen Miller: Endorsing the bill before congress which prohibits the employment of enlisted soldiers of the army in competition with civilians in any capacity. By John Mitchell: Denouncing the shooting down of the striking miners at Virdeen, and the armed guards of monopoly, and endorsing the efforts of the United Mine Workers of America to raise a fund for the relief of the families of the killed and wounded in the conflict. By George E. McNeil: Urging trade unionists everywhere to work and agitate against "the inhuman practice of compelling men to labor seven days a week." A pleasant feature of the day's proceedings was the presentation, just before adjournment, of tokens of esteem to the fraternal delegates sent to the convention by the British trades congress. To William Inskip, the convention presented a gold-headed cane and a watch to William Thorne, a gold watch and chain.

Rush to New Mining Camp.

CANON CITY, Colo., Dec. 17.—The discovery of gold five miles northwest of this city has caused a rush to spring up in a night, as it were. Half of the able-bodied men of this town have gone to the scene of the discovery, and over a thousand claims have been staked. The new camp has been named Dawson City, after B. H. Dawson, who located a mineral vein from which he dug ore assaying over \$16,000 gold to the ton.

Chicago Great Western railroad.

The circular cancelling all the through tariffs of the Great Western with the Union Pacific, which was to go into effect on December 24, has been canceled. Another set of circulars cancelling those that canceled the through tariffs was sent out late yesterday afternoon. General Freight Agent Wood of the Union Pacific announced that the boycott was off so far as the "Overland Route" was concerned, and the Rock Island office said, "Me, too!"

NOT SETTLED BY CONFERENCE

Both City and Railroads Are Still Waiting on Auditors and Attorneys.

There was nothing accomplished at yesterday afternoon's conference between the city council committee and the representatives of the Union Pacific and the Burlington railroads on the payment of \$44,375.89 due the city by these two railroad companies for the maintenance and repairs of the city viaducts across their tracks. General Solicitor Kelly appeared for the Union Pacific and the Burlington was not represented. The former committee said that the railroads had not received the itemized bills aggregating the above amount until December 16 and that there had been no time to check over the accounts since then. He said General Solicitor Manderson of the Union Pacific was in Washington and his assistant, James E. Korky, was confined to his house on account of illness. Under these circumstances he asked for a postponement of the matter. This was agreed to on the part of the city and the committee adjourned to meet at the call of Chairman Bingham. It is understood that a meeting will be held within ten days, as the railroad companies expect to have the account checked over by that time.

Hurd Goes to Kansas City.

Dr. Fred Hurd, for the last three years the popular representative of the Red line in the city, has received an important promotion. He will take him to Kansas City after January 1. He will be succeeded in Omaha by S. D. Barlow, now agent for the West Shore freight line at Memphis, Tenn. In Kansas City Mr. Hurd will have charge of the traffic of the Red line, the West Shore line, and the Omaha Midland line. The latter is the only one of the Vanderbilt fast freight lines that he did not represent in Omaha. He will also have the southwestern agency of the Lake Shore & Michigan Southern railroad in Kansas City, which is a most important position. He will succeed L. A. Ritter at Kansas City, who has resigned on account of continued ill-health.

Not Too Much to Say that no eastern freight man ever left Omaha with the esteem and goodwill that Mr. Hurd will carry away with him.

During the three years he has been in Omaha he has been prominently identified with the Omaha club, the Commercial club and the Knights of Ak-Sar-Ben. He has been in every good movement for the city's welfare and has proved himself a loyal Omahan, as well as a most energetic solicitor of freight traffic. C. Barton, president of the Omaha & Great Western, said yesterday: "It is a shame Omaha has to lose Hurd," and that is the general opinion.

No Longer a Boycott.

The boycott against the Great Western has been officially called off. The Union Pacific railroad has announced that it will not carry into effect its order boycotting the Great Western.

STATE ELECTRO-MEDICAL INSTITUTE COMBINED TREATMENT OF THE GREAT CURATIVE POWERS

1308 Farnam St., Omaha, Neb. WHEN ALL OTHERS FAIL

Remember the wonderfully successful treatment of this institute combine the two greatest powers known to the medical profession, ELECTRICITY and MEDICINE. It is the largest, most thoroughly and completely equipped medical and electrical institute ever established in the West for the treatment and absolute cure of all nervous, mental and private diseases of MEN and WOMEN. Honorable and fair dealing according to all.

THESE DOCTORS CAN CURE YOU.

SPECIALISTS for DISEASES of MEN SPECIALISTS for DISEASES of WOMEN

The great electrical and medical specialists of this institute are for the best, most successful and scientific the world has ever known. All of whom are graduates of the best medical colleges in the world, each having had the most successful practice in his specialty, and are achieving results in curing the sick and suffering by their combined Electro-Medical treatment which would be impossible to secure by either electrical or medical treatment alone. The State Electro-Medical Institute is the ONLY PLACE where you can obtain the benefits of this successful treatment under the most skillful and experienced hands. It is a life-saving institution. If any power on earth can cure you these doctors can. They have effected cures in cases where all other means had failed. Remember, the cure is because of treating the cause, not the symptoms. A cordial invitation is extended to all physicians or specialists having difficult or stubborn cases to bring their patients to the Institute for treatment under this improved system.

NO MISTAKES HERE AND NO FAILURES
