American Forces Will Enter that Noted Fortress on Friday—Numerous Persons Under Arrest for the Riot of Tuesday Night.

(Copyright, 1898, by Press Publishing Co.) HAVANA, Dec. 28.—(New York World Cablegram—Special Telegram.)—Four 6-inch and two 12-inch Krupp guns, four twenty-one centimeter 8-inch Odonts guns and four rapid firing Maxim-Nordenfelta comprise the extent of Spain's offensive armament in the batteries across the harbor opposite Havana. These were delivered over to an American officer today with absolute arms of various patterns and all the ammunition remaining. The delivery was made under formal protest, Spain reserving its right to whatever may be in its possession. Morro castle and Cabanas fortress will be retained until January 1, but their subsidiary batteries along the coast will be handed over on Friday probably.

CUBANS ARE IN THE DUMPS

Do Not Like it Because Their Army Cannot Parade on Evacuation Day.

CHICAGO, Dec. 28.—A special to the Tribune from Havana says: "Cuban residents of Havana declare tonight that if General Brooke does not rescind his order depriving representatives of the Cuban army from being present at the evacuation day ceremony on New Year's day, they will close their houses on that occasion, tear down their flags and decorations and remain indoors. The Cuban peace commission, after a stormy session, has decided to accept the offer of General Brooke, and the evacuation of Havana is intended, as no courtesy could be shown him.

CITY OF ILOILO HAS FALLEN

Philippine Insurgents Capture the Place After a Long Siege.

AGUINALDO'S FLAG NOW FLOATS THERE

May Be Trouble in Arranging Things with Insurgent Leaders—General Otis Given Full Power to Act.

WASHINGTON, Dec. 28.—Admiral Cervera has taken Iloilo, which they have been besieging for months, and have raised Aguinaldo's flag over the town. This news complicates the situation considerably, as there may be some resistance on the part of the insurgents if a demand is made by General Otis for the surrender of the place. The first dispatch received today was from Manila, dated December 27, in which the American flag was hoisted over the town. The insurgent leaders, who called the State department as follows: "Iloilo taken 24th. Spanish fled to Boracay."

MANILA, Dec. 27.—Adjutant General

MANILA, Dec. 27.—Adjutant General Washington. Sent Colonel Potter on fast vessel to Iloilo on December 24 to communicate with Spanish general, later evacuated evening of that day and Potter arrived thirty-nine hours later. Insurgent took possession of the town on December 26 and Potter found Aguinaldo's flag flying. Cannot now report probable results; will not get from there for four days, as there is no cable communication. Spanish forces have evacuated all stations in southern islands except Zamboanga, Mindanao, by order, they say, of General OTIS.

SPANIARDS SEEK SAFETY

The evacuation by the Spaniards of all the Philippine ports, as reported by General Otis, although doubtless inspired by a desire to secure their safety by concentration, undoubtedly has done much to complicate the problem already presented to the War department of extending the military jurisdiction of the United States over the islands. It will now be necessary to expedite the execution of the original plans and it may be fully expected that within a week important events will have happened in the Philippines. It is presumed that General Otis will have to demand that the Spaniards into his hands and this demand may at once raise the issue between the insurgents and our own government of possession of the islands. The province of Iloilo is set down in the official directories as having a population of 472,000, and the province of Zamboanga is set down as having a population of 1,000,000. It is located on a river navigable for vessels of fifteen feet draught, so that very few of our gunboats would be available to assist the troops in case it should be necessary to take forcible possession of the city.

OTIS FREE TO ACT

OTIS FREE TO ACT. There is no doubt that General Otis is meeting with great difficulty in his effort to secure the surrender of Iloilo and prisoners held by the Filipinos. It begins to appear clearly that a considerable element among the Filipino leaders—probably a majority—are disposed to use these unfortunate prisoners as a basis for negotiations with the United States government, making their release conditional upon certain more or less important concessions demanded by them.

GUAM UNDER NAVAL CONTROL

Command of Station and 8,000 People is an Important One. WASHINGTON, Dec. 28.—The island of Guam was placed under naval control by the United States in having a naval instead of a military governor. The reason for the selection and acquisition of the island was to obtain a conveniently located naval station for our ships, and in the case, the navy should have exclusive control. The command will be of importance, for the island has a population of more than 8,000 people and so far from their being barbarians, about 1,400 of them are of European extraction.

LEGAL ISSUES ARE RAISED

Military Governor Henry Strikes a Snag in Attempting to Revoke Concessions Made to Spaniards. SAN JUAN, Porto Rico, Dec. 28.—General Guy V. Henry, governor of the military department of Porto Rico, has withdrawn the order recently issued by him revoking all the concessions and franchises granted by the Spanish authorities before the surrender of the island to the United States. The intention of the original order of revocation was to deprive Spanish franchise holders of the advantage given them over Americans. The order supplemented recent orders from the War department. Its cancellation by Henry is on account of the legal issues raised.

SAGASTA CONSIDERED CONVALESCENT

To the earl of Rosebery are bequeathed several valuable pictures and his sons several legacies. A third brother, Mr. Nathaniel de Rothschild, at Vienna, benefits under the will, which also makes several small legacies to personal friends.

ADMIRAL WANTS THEM SOON AS POSSIBLE

Proposes to Put Them in Charge of Three of the Vessels Which He Sank in Manila Bay May 1.

KINGSTON, Jamaica, Dec. 28.—The United States hospital ship Bay State arrived here today from Santiago, having on board Lieutenant Colonel R. M. O'Reilly, who is to be chief surgeon at Havana during the American occupation, and Lieutenant Weston, the two officers commanding a special commission, issued by Surgeon General Sternberg, to study the methods now in vogue in the island of Jamaica for protecting soldiers of the British army stationed here from fatal infectious disease and from the deleterious effects of climate. Dr. O'Reilly and Lieutenant Weston landed, after a short stay in Kingston, and visited the United States consul, through whom an appointment has been made for an interview between them and the captain general and governor-in-chief of Jamaica, Sir Augustus William Lawson Hemming. The doctor and the lieutenant, but seemed somewhat annoyed at not receiving any official recognition of their presence as a commission. At the colonial secretary's office it was asserted in answer to inquiries made there an hour after the arrival of the two officers, that the colonial authorities had not been notified that the commission was coming and regarded the report of its arrival as a hoax. On being informed, however, that the commission was in Kingston to study British colonial military medicine, the lieutenant said that Dr. O'Reilly and Lieutenant Weston would be granted all the facilities they might desire.
