scrutiny of the courts: Attorney General Churchill two years ago gave an opinion against its legality, but Attorney General Smyth this year says it is good. Bills will no doubt again be introduced

to make guaranty bonds legal. There is Douglas offered a substitute providing for some difference of opinion as to whether the state or counties should pay the premiums on these bonds. The main argument against it is that if the state or county pays the premium they are simply paying for their own insurance, and might as well carry the risk themselves without paying out large sums for premiums. Quite a number would do away with bonds altogether, if the constitution could be amended and make strict penal laws for the punishment of embezzlement.

Views on Guaranty Bonds. Following are the views of some of the

members, who were interviewed vesterday: Senator Currie of Custer-I believe it would be a good thing to pass a law to furnish the treasurer a guaranty bond, and the state pay the premium. That places the treasurer under no obligation to individuals and a guaranty company will watch a treasurer much more closely than individual sureties would Representative Easterling of Buffalo-If

the treasurer is required to give bond at all I would favor a guaranty bond with the premium paid by the state. The state treasurer cannot be expected to pay such a large sum of his salary unless it is increased in amount. I wouldn't accept the responsibility of the office of state treasurer at the present salary. I would be in favor of doing away with bonds altogether, however, and enacting strict penal laws for embezzlement of public funds. Representative Carton of Holt-I haven't given the matter any thought and would want to hear it discussed before deciding My first impression, however, is that the state might at least pay part of the prem-

I think the latter provision was what killed the bill. would again favor a bill making guaranty company bonds legal for public officers, bu would omit the provision for the payment of the premium by the state or county. Each legislature could make an appropriation of the amount paid by the state treasurer for premium, if it so desired.

Representative Grosvenor of Hamilton-I am opposed to bonds at all. I oppose them because in the first place a personal bond is worthless if a loss occurs and recovery is attempted. The history of the attempts to recover on such bonds proves that. Secondly, if the state pays the premium it is simply paying for its own insurance, and it would be caused by the colonial policy of might as well be its own insurer without bonds. Besides in a few years an enor-mous amount of money would have been expended in paying the expensive premiums of guaranty company bonds. Why not obviate all this by abolishing bonds altogether and enacting the strictest kind of penalties for Willie Matthews, Harry Anderson, Bernie defalcations and crookedness in official posi-

HOUSE IS READY FOR BUSINESS. Adopts Rules and Speaker Announces the Committees.

LINCOLN, Jan. 9 .- (Special.) - The first business of the afternoon in the house was the presentation of the report of the committee on rules. Two reports were presented. Wheeler of Furnas and Weaver of Richardson joining in a report differing in some important particulars from that signed by the republican members. The points in the majority report objected to by the fusion members were those requiring five members to demand a roll call or call of the house; the provision that a majority of those present could suspend proceedings under call of the house; the

provision allowing the committee on rules to report new fules during the session; and the creation of a new committee on deficiency claims. The minority report provided that two members could demand a roll call or call of the house, and that it would take a majority of all members elected to raise a call. It also objected to A dress driving glove the presentation of new rules during the session, and in the list of standing comin double kid and rein- mittees the new committee on deficiencies was left out.

He said the republican members did not seem to know what they wanted, and were not Men's lined reindeer willing to adopt rules to govern the house during the session. He thought it was unfair to allow a majority of those present to suspend proceedings under a call of the regular \$1.50 grades, house, when it required a majority of all degrift. members elected to pass any bill. He also objected to the new deficiency committee.

> Pollard of Cass spoke for the majority eport. He said it was the purpose of the committee to so fix the rules that two members could not block business, as had been explained that the committee on rules was in reality a sifting committee, and could at any time during the session expediate business or advance bills on the files.

ion of rules at this time that would form a sifting committee, because such a committee always abused its privilege by pushing forward bills in which the members of the committee were specially interested. He believed the members could afford to be fair, without regard to politics. As for himself, he was here in the house to represent ule or to appoint the special committee

Burns of Lancaster said it was right that he majority should rule, and Weaver of Richardson, speaking later for the minority report, said he also was in favor of majority rule, but he believed that the rules should also be changed by a majority vote.

SENATE RULES ARE NOT READY.

LINCOLN, Jan. 9 .- (Special.) -The proceedings in the senate this afternoon were not very lively. A report of the committee on rules was anticipated, but it asked for further time and was given until tomorrow. The committee had a meeting this morning, but did not complete the work of compiling the necessary rules for this session. The rules will be based upon those

adopted by the senate in 1895. At Saturday's session of the committee on committees it was thought that work was finished, but by noon today the matter was in a mixed up condition again. The committee on public lands and buildings seems to be the most popular one, and almost every republican senator asked to be placed upon it. Other committees are being pursued with equal zeal. The caucus to night will probably settle the matter and

New Bills Introduced. The following new bills were introduced in addition to Senator Canaday's joint resolution, which will be known as Senate File

Senate File No. 5, by Mr. Canaday-A bill for an act to locate and establish a state normal school at Minden, Kearney county Nebraska, to be known and designated as the State Normal School of Minden, and to provide for receiving the detation of a tract of hand. Senate File No. 6, by Mr. Talbot-A bill

for an act to amend section ten, (10), chapter forty-four (44), of the Compiled Statutes of Nebraska for 1897, and to repeal said original section. Schate File No. 7, by Mr. Knepper—A bill or an act to repeal sections twelve (12) thirteen (13), fourteen (14), fifteen (15)

Statutes of Nebraska for 1897.
Senate File No. 8, by Mr. Farrell—A bill or an act to require school district boards o provide and keep in repair suitable rater closets or privies in connection with

all public buildings. Senate File No. 9, by Mr. Canaday-A bill for an act to amend section eight (8), sublivision fourteen (14), chapter seventy-nine (79), Compiled Statutes of Nebraska, 1897, and to repeal the section amended.

Senator Canaday's bill, known as Senate File No. 5, provides for the location of a normal school at Minden. The state is to be leeded forty acres of land, now owned by Senator Canaday and valued at \$5,000, in return for locating the school there. I contains the usual provisions for the control of the school by a Board of Education.

Senator Talbot's bill provides for a reduction of the interest on all warrants of county, city, town, school district or other municipal subdivision less than a county from 7 to 4 per cent per annum. The maxi mum interest on county, city, township precinct or school bonds is also reduced from 7 to 5 per cent per annum.

Senator Knepper's bill is for the purpose of repealing the law governing the organization of county fair associations or agricultural societies and the granting of county aid to such societies.

Senate File No. 9, by Senator Canaday, changes the time that members of school poards in cities take their seats from the first Monday in July succeeding their elecion to the first Monday in May. Licutenant Governor Gilbert inquired as

o the method of procedure in the reading of bills, Senator Talbot of Lancaster said the custom had been to read the titles only upon the first and second readings and the oill in full upon final reading. Senator Prout of Gage said this was very dangerous precedent, as the supreme

court of the United States had held that a oill must be read in full on three separate lays to meet the constitutional requirements as the secretary's minutes were only ma facie evidence and could be contralicted by other testimony. Senator Fowler of Fillmore said this was very important matter and moved that a committee of three lawyers be appointed to

horoughly investigate the law and report. His motion was adopted and a committee composed of Senators Prout of Gage, Fowler of Fillmore and O'Neill of Holt named The senate then adjourned until 10 o'clock

Officers. PITTSBURG, Jan. 9.-The delegates to the tenth annual convention of the United Mine Workers of America were slow in arriving at Old City hall today, and it was nearly 11 o'clock before National President Ratchford rapped for order and deliver his annual address. About 500 delegates, from thirteen states, were then in their reats, and about 100 more were expected. It was the largest and most representative gathering of miners ever held, and the convention, which will continue throughout the week, promises to be the

most important in the history of the mine workers' organization. After the roll of delegates had been completed and the convention fully organized President Ratchford announced that the

election of officers for the ensuing year would be held. Immediately a dispute arose between President Blatchford and District President Dolan over the appointment of the credentials committee and the entire session was taken up with an acrimonious discussion as to the right of the chairman to name the committee. At 1:40 the convention adjourned until tomorrow without having taken a ballot for the new officers.

NEW YORK, Jan. 9.- The fight between Oscar Gardner, the "Omaha Kid," and Dave Sullivan of Ireland ended disastrously for the latter in the seventeenth round at the Lenox Athletic club tonight. They were full of fight when the fifteenth round opened and the Kid went right to his man. They became entangled and Sullivan fell to the floor. The moment they broke Oscar planted two heavy swings on the Irahman's head and put him out with a wild swing which landed on Sullivan's mouth. All three of the blows were delivered within ten seconds and put Sullivan into the land of Nod for the first time in his career. Gardner's legs were in anything but good shape, but despite Sullivan's efforts to make

him use them the Kid refused to be put into the sprinting and saved himself by a supreme effort when the time came. Gardner waited frequently for Sullivan to go to him, and would either lead or get inside Sullivan's leads and counter hard. These tactics puzzled Sullivan and at

imes rattled him so that he showed unmistakable signs of having lost his temper Sullivan was beaten fairly and squarely and there were no excuses when the bout was over.

The men were billed for a twenty-fiveround bout at catch weights. Gardner said he weighed 1201/2 pounds, and Sullivan's seconds said that Dave was five pounds heavier. After the men had donned the gloves the betting took a turn in Gardner's favor, \$2,000 being laid on him at 100 to 80. They shook hands at 9:50 o'clock.

A little over two years ago I was afflicted with a very bad cough and my home physician prescribed Cod Liver Oil and other kinds of medicine. He said I might go into quick consumption and might die in two or three months. His medicine did not do me any good. I heard of Dr. Pierce's Golden Medical Discovery and began taking it, when I had taken it about two months, according to directions, my cough was cured, and since that time we have always kept your medicine in the house."
