Body of A. T. Selliek of Omaha, One of the Victims of Wreck, is Identified by Dr. W. N. Dorward.

SIDNEY, Neb., Jan. 13 .- (Special Telegrain.)—The coroner's jury investigating the Eunol wreck reached a verdict at midnight In substance, the verdict states that the accident was due to an unintentional error on the part of H. R. Reece, engineer on head engine of train No. 3, in not giving signal for brakes to engineer on second engine of the train, who had control of the

Dr. W. N. Dorward, a dentist from Bassett and the jury in relation to the death of A. T. Sellick of Omaha. The doctor expected to identify the body by examination of the mouth, having done dental work for deceased. The body was in such a condition that close examination was impossible, as the fire destroyed almost every evidence has been offered to unquestionably make the identification sure. Conductor was an employe of the Union Pacific railroad in the storekeeper's department. He was in the storekeeper's department. He was also clerk of Camp No. 16, Woodmen of the World, Omaha, and was about 37 years old.

| Glassian Shirley, outside guard; fing bearers, Mesdames A. M. Wright, E. R. Erway and S. V. Johnson. He has a wife and two children. The other body is undoubtedly a stockman and parties who were in the same car describe him as a heavy set man. This corresponds with the remains that are still in the Union Pacific freight house encased in a handsome coffin. Sellick's remains will probably be taken to Omaha tomorrow night.

SEARCHING FOR CORN THIEVES

Citizens of Wymore Loath to Believe Hounds' Scent Tell True.

WYMORE, Jan. 13 .- (Special.) - The Fulton bloodhounds were brought here from Beatrice last night to assist the local authorities in locating the corn thieves who have been operating here in a most successful manner this winter. The hounds were taken to the Greenwood crib, from which a large amount of corn had been stolen on Wednesday night, and given the scent, which they followed to the home of George Densmore, who lives in the east part of the city. The dogs were taken back and given a second start, but followed the same trail. Densmore has always borne a good reputation here and the authorities are of the opinion that the dogs were on a false scent. There was no sign of the stolen goods at the Densmore premises and no arrests were

Senator McLaurin Speaks in Opposition to Expansion-Son of President of Costa Rica to Be Admitted to West Point.

WASHINGTON, Jan. 13.-The senate promptly passed a resolution authorizing the admission of Louis Iglesias, son of President Igiesias, president of Costa Rica, to the military academy at West Point, and a bill authorizing the Arkansas & Choctaw Railroad company to construct and operate a railroad line through the Choctaw and Chickasaw nation in the Indian Territory.

Mr. Allen introduced the following resolu-

That a committee of five senators, no more than two of whom shall be members of the same political party, shall be ap-pointed to make full inquiry into the conduct of the late war between the United States and Spain. Said committee shall have plenary authority to inquire and report on the advisability of the selection of places of encampment for the troops by the mili-tary authorities of the United States, the time, character and places of delivery commissary, quartermasters and medical stores, the quality and quantity thereof and the regularity of their delivery and into all things in any manner affecting the care discipline and health of the troops in the field and in camp, and into all other matters and things in any manner affecting or bearing on the health and discipline of the army, and whether there is just cause to complain of the places of encampment, food, medical stores and quartermasters'

supplies furnished.

In accordance with notice previously given Mr. McLaurin (dem., S. C.) addressed the senate in support of the Vest resolution declaring the policy of expansion to be unconstitutional. Following is an abstract of his address.

I am satisfied that our action in the next month will settle the question of expansion. There are at this time in the senate and nation at large two well defined and distinct views, one a policy of expansion, in-volving a new definition of our government and the inauguration of a colonial system with all the perplexing problems incident to it. The other view opposes a policy of imperialism and is based upon the governmental policy of the last century, and, in my judgment, is the only position that is in harmony with the constitution and the spirit and genius of republican institu-

Mr. McLaurin felt that as a representative of South Carolina he was peculiarly quali- cocded to the consideration of the naval fied to speak on the incorporation of a mongrel and semi-barbarous population into our body politic.

The experience of the south for the last thirty years with the negro race is pregnant with lessons of wisdom for our guidance in the Philippines. It is passing strange that Delegate to Woodmen's Convention. senators who favored universal suffrage should now advocate imperialism. There is a glaring inconsistency in these positions. If they are sincere in their views as to the epresentative from Dixon county to the Philippines they should propose an amendment to the constitution which will put the inferior races in this country and the inhabitants of the Philippines upon an equality as to their civil and political rights, and thus forever settle the vexed race and suffrage questions in this country as well as in the outlying territories. How can they consistently, justly, and, I might add, constitutionally, advocate a policy for outlying territories, embracing races so nearly kin to the negro, which differs so radically from the policy adopted is that they substantially admit, in the given me evidence that they have exhausted that universal suffrage is a monumental failure and that the time has come for the correction of this stupenduous governmental error.

Vindication of the South. Universal suffrage in the south long since degenerated into a race question, and as such led to the practical elimination of the negro from politics—a policy that is today wisely advocated by the great leaders of the race like Prof. Miller and Booker T. Washington, and which in time,

outside interference, under the guidance of the best thought of both races will lead to a just and mutually satisfactory settlement of the gravest problems that board. As has always been the case since ever confronted any people in modern It is indeed comforting to hear some of those who in the past criticised us, now that the question is brought home, completely

our methods in providing a of colonial government. The senator from Connecticut has most amply vindicated the south, perhaps unintentionally, but we thank him the more heartily for the complete an casian to govern the negro races. Mr. McLaurin then entered upon a con-

stitutional discussion of the question preall of the rights and powers of the federal government are enumerated specifically in the constitution and such as were not thus specifically defined did not exist. I deny, therefore, that the United States

as a nation has a sovereign, inherent right and control outside of the grant of such powers in the constitution. This is not an powers in the constitution. essential element of nationality so far as our nation is concerned, although it may be in England or Russia, where the nationality and sovereignty incident to it are not cre-I do not, however, controvert the proposition that the United States has the power to acquire territory by conquest, purchase o otherwise, and to govern the same under the rant of power contained in the constitution do, however, deny the proposition that territory can be acquired and permanently held as such by the United States, of course subject to the exception of small tracts acquired for specific governmental purposes like coaling stations, under the act of 1856

a military and commercial necessity.

I believe the time is not far off when our flag will float over every foot of North American soil, but it must come naturally and peacefully, by the consent of the governed, not by the rude hand of war.

Mr. McLaurin occupied the attention of the senate for an hour and ten minutes and was accorded good attention by both senators and people in the galleries. A bill was passed providing for the adjustment of the swamp land grant to the

state of Wisconsin. A bill for the relief of the Citizens bank of Stuart, Holt county, Neb., was passed. Mr. Davis of Minnesota withdrew a motion that the senate go into executive session, in order that Mr. Sullivan of Mississippi might deliver his announced speech on the Nicaragua canal bill, giving notice, however, that would renew his motion at the conclusion

Proposed Registration Law. The question of registration of voters, which has been so freely discussed in the state the past two years, has called out a oill which was introduced by Wilmarth of Beadle, and which, with slight modificaions, has been favorably reported to the louse by the judiciary committee. It provides for a list to be taken by the assessors of the state to be filed with the prope officials, and a revision of this list by a registration board on the fourth Tuesday preceding the election, when any new name of voters may be added, and any who are upon the list who have removed or are disqualified shall be stricken off. BAD MIXUP IN WEST VIRGINIA Democrats Postpone Organization of the House and Delay Business.

CHARLESTON, W. Va., Jan. 13 .- Everything is at a standstill tonight in the West Virginia legislature, owing to the failure of the house to complete its organization, which is due to the contest over seats. The republican senate is waiting on the democratic house and it is said it will likely unseat three democratic senators, Marcum of Cabell, Ashby of Kanawha and Kidd of h

For Thirty Years a Victim of Chronic Catarrh.

Finds a Long-Sought Remedy at Last.

Hon. David Meekison, of Napoleon, Ohio, is a native of Scotland. He has served four consecutive terms as mayor of his own town. He established the Meckison bank of Napoleon. Ohio, which is well known in commercial circles. He was elected to the Fifty-fifth Congress by a large majority, and is the acknowledged leader of his party in his section of the State. He had been afflicted with catarrh for many years, Speaking of Pe-ru-na as a catarrh remedy, in a recent letter to Dr. Hartman, Mr. Meekison writes as follows: "I have used several bottles of Pe-ru-na and feel greatly benefited thereby from my catarrh of the head, and feel encouraged to believe that its continued use will fully eradicate a disease of thirty years' standing." It is no longer a surmise that chronic catarrh can be cured. If cases from fifteen to twenty-five years' standing can be cured, that ought to settle the question as to the curability of chronic catarrh. Pe-ru-na cures these cases. Thousands are cured every year. Send for free book of testimonials.

Catarrh Nine Years.

Mr. Peter Hattenberger, Porterfield, Wis,. writes to Dr. Hartman under the following dates: "Aug. 1, 1890: I have been suffering with chronic catarrh about nine years, and it has now settled on my lungs and I have all the symptoms of
