During the late war between China and Japan our ministers and consular representatives looked after the interests of citizens of both countries in the territory of the other and suitable acknowledgments were made and for the same reason it is not only proper but necessary that President McKinley should show some sense of gratitude to the British amhassador at Madrid and the British consuls in Spain and Cuba for their services in looking after the interests of the United States in Spain and Cuba. Mr. Jerome, the British consul general at Havana, rendered very important service. The British consuls at Barcelona and at Corunna were mobbed for trying to protect American interests, but the most the president can do is to write an autograph letter expressing the appreciation of our government and people.
