Corn Leaves Off Higher, Onts Are Unchanged, While All Provisions Make Some Advance.

CHICAGO, Jan. 16 .- Both sides found encouragement in today's wheat news, but bulls finally gained control of the market and after many vicissitudes May closed at 15754c advance. Corn left off 40'4c higher and oats closed unchanged. Pork and ribs gained 24c each and lard 5c. A heavy shrinkage of the output from Russia and Danubian ports for the last week started wheat strong. May opened 1.6% higher, at 71%671%, and met with such heavy covering by shorts, together with buying for the long account, that in a few minutes the price reached 71%c. The next matter to receive attention was the prospect of an increase in the visible, indications of which began to appear when the result of stock-taking at the various centers was made known. It looked at one time as if the increase would amount to 1,000,000 bushels and on that probability May gradually sold down to 70%c. As the increase proved to be but 577,000 bushels, a shade of confidence again commenced to diffuse itself throughout the pit and May was bid up to 71%a71%c. Chicago received 220 cars, of which 14 were graded contract, Minneapolis and Duluth receipts were 782 cars, against 535 for the corresponding day of last year. The quantity affoat for Europe was reduced 1,040,000 bushels since last Monday, Argentine advices were of an exportable surplus of 65,000,000 bushels of wheat of good quality and as the aggregate receipts of wheat at western primary markets amounted to 917,000, against 522,000 bushels a year ago, the bears had an inning and May was forced down to 70%a70%c. This was under puts and immediately started buying by holders of those privileges and with the help of a few outside buying orders May gradually worked up to 71%c, with many changes between 71c sellers and 71%c bid. The cash demand here was slow and Atlantic port clearances of wheat and flour were placed at 478,000 bushels. Liverpool and the continental markets closed strong in the face of an increase in the English visible supply of 1,691,000 bushels. Liverpool and the continental markets closed strong in the face of an increase in the English visible supply of 1,691,000 bushels. Toward the end the longs showed a desire to increase their holdings and as the shorts were anxious to obliterate their record, May was bid up to 714%71%c and remained at that figure until the close.

The strength in wheat and receipts away below estimates started corn firm. The advance, however, met with heavy selling by a prominent shipping concern and the market soon turned weak. Local stocks showed an increase of 234,000 bushels for was made known. It looked at one time as if the increase would amount to 1,000,000

advance, however, met with heavy selling by a prominent shipping concern and the market soon turned weak. Local stocks showed an increase of 334,000 bushels for the week and the visible supply increased 2,427,000 bushels. Receipts were 558 cars. Scattering buying gradually developed a steady feeling and in the last fitteen minutes the market became strong and touched the highest price made near the start. May opened 4c higher, at 374c, declined to 354c, and after being at 27c, sellers, most of the day, it suddenly shot up to 374c and closed at 3746374c.

Outs started firm with the other grains. Prices eased off for awhile on heavy selling, but when the offerings were finally absorbed the market turned strong and closed near the top for the day. Receipts were large, 530 cars. May opened 54c higher, at 274628c, declined to 2754c, then firmed up to 2746274c, the closing price.

Provisions opened strong, but there was considerable more for sale than appeared to be wanted for a while and prices declined to a triffe below Saturday's level. Near the end of the session the publication of last week's shipment of meats was so heavy as to induce enough buying to cause a rally all around. May pork opened 5c higher, at \$10.20, rose to \$10.224c, declined to \$10.074c, then recovered to \$10.174c at the close. The range in lard and ribs was small. close. New York Dry Goods Market.

NEW YORK, Jan. 16.—The week opens quietly in the dry goods market so far as spot business is concerned, but mail orders for all descriptions of cotton goods have been of fair volume. The export demand for heavy brown cottons is well in evidence, but actual business is limited by the strong, overseld condition of leading mills. Bleached cottons are firm at the recent advances, Masonville 4-4 bleached advanced 4c to 5%c per yard. Prints are firm. Ginghams are also firm, with a moderate demand. The woolen goods division showed no material change. The demand was quiet for men's wear and dress goods. New York Dry Goods Market.

There were a few stockers and feeders in the yards and the market on good feeders was strong and active. Just at present the demand seems to be for feeders, cattle with some weight, while light stockers are not going as well as they did a short time ago. Representative sales: ago. HOGS—The receipts of hogs were small, as usual on a Monday, though somewhat larger than last week. The market was in good shape and most everything sold in good season. The prices paid were strong to 5c higher, but, as the proportion of light mixed and common loads was somewhat larger than usual, the sales do not show the full strength of the market. The light mixed loads sold largely at \$3.50(3.52½, as against \$3.45(3.59) on Saturday. The heavier mixed loads went at \$3.52½(3.356, while the long string sold at \$3.50 at the close of last week. The top was \$3.50, which was paid for pretty decent heavy weights. While the trade could hardly be characterized as active, owing to the determination of sellers to get all the market would stand, everything was disposed of in good season.

It will be noted from the table of average prices at head of column that the week states with values. 716c higher than they

It will be noted from the table of average prices at head of column that the week opens with values 7½c higher than they were a week ago, but close to 5c lower than they were on Monday two weeks ago. The average price paid for hogs one year ago was \$3.47. two years ago \$3.22, three years ago \$3.66 and four years ago \$3.88. Representative sales:

CHICAGO LIVE STOCK MARKET.

Light Supply of Cattle is Attended by Better Prices.
CHICAGO, Jan, 16.—The light supply of cattle received today resulted in a strong market, Buyers competed against each other for the choicer consignments and prices for such showed an upward tendency, prices for such showed an upward tendency, while the common and medium grades sold at steady prices. Fancy cattle brought \$5.80#6.00; choice steers, \$3.40#5.75; medium steers, \$4.75#5.00; beef steers, \$3.80#4.70; bulls, \$2.#3.25; cows and helfers, \$3.80#4.70; bulls, \$2.#3.25; cows and helfers, \$3.30#4.00; western feed steers, \$4.00#7.10.

The demand for hogs started active and early sales were on an average of 2½0 higher. After the buyers had taken the best of the offerings they became indifferent and refused to buy except at concessions and the early improvement was largely lost, Fair to choice, \$3.55#3.80; packing loss, \$3.50#3.75; lights, \$3.45#3.70; pigs, \$3.10#8 3.75.

The most desirable flocks of sheep sold at steady prices, but others were weaker to 10c lower, owing to excessive offerings. Poor to prime sheep, \$2.00@4,15; heavy export sheep, \$3.90@3,95; yearlings, \$3.90@4.55; lambs, \$3.56%5.15, with light weights selling much higher than heavy lambs.
