TROUBLE BREWS IN SANTIAGO.

Cubans Object to Doing Sanitary Work Alone. SANTIAGO DE CUBA, Jan. 22.—The order from the United States military authorities in Havana, directing the authorities of the Santiago military department not to extend a cent of the customs receipts without the permission of the governor general, and the order directing that the bulk of the sanitary work shall be done without money pay and for rations merely given to the local press for publication yesterday, though received here last Thursday, El Cubano, in commenting on the instructions of the general, says: "The feeling is prevalent that the only course now is to retire to the mountains."

"This is of course an exaggeration, though the fact is that there are people who make just such threats. It shows how far the province has drifted backward since the first announcement that the customs were not to be freely expended for provincial improvements, the Santiago Herald reports that a band of men are committing wholesale depredations in the Mayari district, where several people have been murdered, and that another band in the Guantanamo district has burned all the cane prepared for pressing on the Isabel plantation.

"These outbreaks," says the Herald, "are the first fruits of the money centralization system." As yet the Mayari report has not been verified and Mr. Brooke, owner of the Isabel plantation, who arrived yesterday, says that the burning reported on the plantation must have been done at the instigation of those who were intact when he started for Santiago.

So far as the order regarding sanitary work is concerned, a Cuban inspector in the sanitary department told Senor George N. Harbour, the sanitary department commissioner of Santiago, yesterday that the Cubans had at last regained their self-respect and would not work again for rations.

"They do good work," he said, "and deserve to be paid in money. If they are ordered again to work for rations most of them will go to the mountains." The independence, which publishes the two orders, is comparatively temperate in its editorial comments, except that it includes in the usual personal abuse of Governor General Brooke. The editorial concludes with the defiant declaration: "If necessary the Cubans will know how to act."

Manufacturers to Meet. CINCINNATI, Jan. 22.—The correspondence of Secretary E. P. Wilson of the National Association of Manufacturers indicates that most of the 1,200 members will be in attendance here this week at their annual convention. The fact that a memorial will be sent to congress on the question of extension as well as on other issues is likely to secure a large attendance. The local board of this city and the Cincinnati Commercial club last night adopted resolutions in favor of extension and it is thought that such will likely be the course of the National Association of Manufacturers. At the opening session of the convention, Governor Bushnell and Mayor Tafel will deliver welcome addresses, to which President Theodore C. Search of Philadelphia will respond. After the appointment of the usual committees the reports of the officers will be submitted. The program for the three days includes many addresses and discussions and social events. The annual election occurs on Thursday evening and on Friday there will be an excursion up the Miami valley to Dayton.

Woman Burns to Death. SAN FRANCISCO, Jan. 22.—Miss Jennie Moore, daughter of the late I. C. Moore and a prominent society belle, died today at the family residence on Gough street from the effects of fire. Moore, who was 23 years old, was in her room when she became ignited from a gas jet, she attempted to extinguish the flame, but her clothing caught fire and she ran into the hall, her clothing ablaze, which was extinguished by the family. The young woman, who was 23 years old, was noted for her great beauty.

Train Robbers Are in Demand. ST. JOSEPH, Mo., Jan. 22.—The United States district attorney, M. D. Purdy of St. Paul, has demanded that the three men in jail here known as John Allen, Harry Hoy and James Gilmore, charged with the Great Northern train robbery near Pergus Falls, Minn., be turned over to the United States marshal at St. Joseph.

Prosecuting Attorney Myton refuses to deliver the men and it is probable that there will be a clash. The men were identified a few days ago as the Pergus Falls robbers.

Gillam; secretary, B. F. Pitman; treasurer, Anthony Nelson; chief, James L. Paul; assistant chief, S. H. Sampson.

Meeting at Exposition Medium of Re-velation of Soldier Acquaintance.

CRITE, Neb., Jan. 22.—(Special.)—Mr. Sam Couch of Omaha was in Crite last week. He related to us an interesting incident of the civil war. At the surrender at Vicksburg, July 4, 1863, Sam was sergeant major of the Twentieth Wisconsin. As the confederate army marched up to attack arms they practically surrendered to him and became the prisoners of the federal army which happened to be opposite to them in the line. The Forty-first Georgia thus surrendered to the Twentieth Wisconsin. Mr. Couch at once hunted up the sergeant major of the Forty-first Georgia and found him a young man a year or two older than himself, named Robert Douglas. His home was in Atlanta. During the time of his captivity quite a strong friendship sprang up between the "Yankee and Johnnie" sergeant majors. When the confederates were paroled and marched out of Vicksburg, Mr. Couch filled his haversack withhardtack, coffee, sugar and pork and presented it to his departing friend. Through all the passing years neither one heard from nor knew the fate of the other. One day last fall Mr. Couch stepped into the Georgia building at the exposition and there found a bright colored man who had lived all his life in Atlanta. From him he learned that a Captain Robert Douglas was a merchant in Atlanta, but whether he was his former prisoner he did not know. Mr. Couch wrote a letter detailing the above incidents and a few days ago received a long and welcome letter stating that he was the same Douglas who more than thirty-five years before was a prisoner at Vicksburg and he remembered clearly all the incidents of the occasion. He stated that after being exchanged he went back into the army and remained until he was discharged as sergeant major, promoted and mustered out as captain. He was in the battle of Chickamauga, Missionary Ridge, Franklin and Nashville. He said in the summer of '64 a small detachment to which he belonged was ordered to make an assault and check, if possible, the advance of Sherman's army at Jonesboro, south of Atlanta. He said of the 183 men who went into the charge, every man was either killed or wounded and he was one of the thirty-nine who survived, so he says, "You will see that we had a hard time of it, but we held the line." The correspondence between these old-time enemies, but now friends, will be continued and in all probability they will again meet face to face, to talk over the incidents of army life of the long ago.

Plate River Bridges in Danger.

SCHULER, Neb., Jan. 22.—(Special.)—Because of the unusual thickness of the ice on the Platte river this year, some of it being nearly two feet thick, grave fears are felt for the safety of the old wagon bridge at this point, and for the B. & M. railroad bridge as well. Last year the water rose before the ice broke and pulled a number of piles loose, a part of the bridge being carried away. There is greater danger of the same occurrence this year.

They were only kept the few days they were by the strictest possible guard of the jailers. They were arrested at Belvidere Wednesday night as supposed accomplices of the clothing burglar who is held here. As they were identified as the Columbus jail breakers they were turned over to that sheriff.
