THE OMAHA DAILY BEE: FRIDAY, JANUARY 27, 1899.

been our rule and we will not depart therefrom in the present emergency. We will do a little fast train service ourselves, and whatever the Burlington undertakes it carries to a successful issue."

This statement of the officer mentioned bears upon the new time to be put on by the Northwestern road next Sunday, in which the run of the Overland Limited on that road between Chicago and Omaha will be shortened two hours. Mr. Francis has just returned from Chicago, and undoubtedly knows whereof he speaks. As to the exact manner in which the road will meet the plated and so far as I am concerned has not reduction in time Mr. Francis did not say. Neither would be admit that business at this time justified any such venture in railroad service, but he said it would be put on and that any other innovation by the other roads would likewise be met regardless of business conditions.

Important Changes Contemplated. The Burlington will doubtless do more than reduce its time to Omaha. It will probably put on a fast service to Denver. This branch of its line has always been a popular one with the Burlington, and there has long been a desire on the part of the officials of the road to give a better service to the Mountain city when conditions would in any way warrant the step, and it is believed the present will be accepted as the proper time to inaugurate this service.

This is the point which is now under consideration by the Burlington passenger department in Chicago, and the result of these deliberations will undoubtedly be the reinstatement of old No. 1, which was taken off several years ago when the hard times the Pullman company, is at Fort Crook as-came upon the country. It will be a first- sisting in getting Uncle Sam's soldiers comclass train in every particular, and will not only make quick time between Chicago and the Missouri river, but will take advantage of the shorter line through Ashland, making the Chicago-Denver service the feature, although Omaha passengers will be landed in this city at the same time as those patronizing other roads.

What effect this train will have on the of January, as compared with the corre-present No. 1 and No. 5 cannot be told until sponding period of last year, was reported the new card is arranged. No. 1 now arrives yesterday by the Chicago, Milwaukee & St. in Omaha at 11:50 p. m. and No. 5 at 8:10 a. m. It is possible that No. 5 will be made the fast train from Chleago to Pacific Junction, while the new train will be made up there for Denver, with through cars taken from No. 5, the latter to run local from Omaha west. With this arrangement the present No. 1 may be retained with a new number

Milwankee Will Be in Too.

It is not definitely known yet when the new time card will be announced, but it will not be far from correct to say that it will go into effect January 29.

The Burlington will not be alone in its step following the Northwestern. F. A. in the past. Nash, general agent for the Milwaukee, has gone to Chicago and it is believed that when he returns he will be able to announce that his road will also meet the new time, while the Rock Island, which inaugurated this passenger train war of speed, is likely orten its time to equal that

of the Northwestern.

If the Burlington continues its fast service to Denver it will follow as a matter of course that the Union Pacific will have to shorten the time of its Overland Limited to the west so that the little rivalry benefit and convenience of the traveling public between Chicago and Denver.

BUT LITTLE IS ACCOMPLISHED.

Passenger Men Fail to Get Lines Into a New Association.

John Francis, general passenger agent of the Burlington, has returned from Chicago, where he attended a meeting of the Western Passenger association. He says the association accomplished little aside from the usual routine business, for several we cern roads whose presence was essential to the consideration of the important subject of a revision of the association's agreement were not represented. Telegrams were sent to replies, leading the members present to believe that it is possible to get all the lines into the new organization. To this end an adjournment of this meeting was taken and another will be held some time next week. when it is hoped a new and satisfactory agreement can be made.

E. L. Lomax, general passenger agent of the Union Pacific, was not at the meeting. although his presence was expected. The sheriff was instructed to serve meeting to be held next week.

Rhodes Goes Up a Peg

Another indication of improving business for western railroads is contained in the announcement that G. W. Rhodes has been made assistant general superintendent of the Burlington lines west of the Missouri river. This is a new position on this road for this territory. T. E. Calvert of Lincoln is general superintendent and has attended to all of the work along up to the present time, when the business had assumed such proportions that an assistant was found to be necessary. Mr. Rhodes is at present superintendent of motive power at Aurora and has been connected with the Burlington for a number of years. He will have his headquarters at Lincoln and will report to Mr. Calvert for duty about February 1.

Foyle in Trouble at Des Moines by

Reason of Having Too Many Wives.

G. B. E. Foyle, the traveling man who is under arrest at Des Moines for bigamy, is

not altogether a stranger in Omaha. H lived here for some years prior to 1895 and ere his first wife, Mrs. Emily Foyle, still remains. The Foyle family came to Omaha about 1890 and lived for some time at 1231 South Eleventh street, They had three pretty children and were apparently in good circumstances. Subsequently Foyle besame enamored of Mae Guthrie, a Davenport, Ia., girl, and from that time his visits to his wife grew infrequent. In 1895 he deserted his family altogether, leaving them without a dollar, but subsequently he visited them several times and gave them some money. Mrs. Foyle applied for a divorce, alleging the Guthrie woman as co-respondent, but the application was subsequently withdrawn and she is still the legal wife of Foyle. The absence of the livorce apparently bothered the truant husband very little, for he married the Guthrle woman and it is alleged that he has divers and sundry other wives scattered through Iowa. Mrs. Foyle will leave for

Des Moines next week to appear against him. sioners by Sheriff McDonald. Separate The personal appearance of Foyle was not such as to stamp him as a "masher." He TAKE had regular features, but his face had an insipid expression which was emphasized by a row of curls like the "beaucatchers" board is commanded to restore the relator of several decades ago which extended clear around his forehead. While the prosecution alleges that it has evidence that he has from five to seven wives, nothing in known here about any other entanglement

than the one with Miss Guthrie
