Wheat Pauses in Its Upward Flight and Gain for Day is 1 1-8c.

NERVOUSNESS AND MANY FLUCTUATIONS

Provisions Rule Strong and Higher All Round and Important Packing Interests Are Arrayed on Bull Side.

CHICAGO, Jan. 27.—Nervousness, as indicated by rapid and frequent fluctuations,
characterized the day's trading in wheat,
During the last haif hour of the session
May showed a gain for the day of 114c, but
the greater portions of the advance was lost
on account of heavy realizing and May

Wheat started under much less excite ment than it closed yesterday, but with no Indication that the buil feeling had abated to any considerable extent. May opened a shade higher at from 78c down to 77%c, and while some outside buying orders were being executed improved to 78%/478%c. After this demand had been satisfied several local speculators evinced an inclination to sell, not only parting with long wheat that showed a profit, but trying the short side on an experimental and conservative fash-

showed a profit, but trying the short side on an experimental and conservative fashion.

As there seemed to be a disposition on the part of traders with Wall street connection to let matters settle somewhat before taking on fresh holdings the market became heavy and May, after a number of fluctuations between 77½c and 78c, declined to 71½c, About this time a cublegram from Liverpool was received to the effect that Argentina was offering very slowly on account of the decreasing premium on gold and that Russia, for political and financial reasons, was not selling much wheat. Some confidence in the legitimacy of the bull speculative feeling was imparted by the latter information, and the decline was arrested in consequence.

In addition to this buying orders from the outside of an urgent nature became numerous, and May began to climb again. Receipts here were 170 cars, of which fourteen were graded contract. Minneapolis and Duluth got 486 carloads, compared with 334 a year ago, and the aggregate at western primary markets amounted to 614,000 bu, whereas only 354,000 bu, were received for the same day last year.

Atlantic port exports of wheat and flour were enormous, amounting to 252,000 bu. When the export figures were posted the crowd made a wild scramble to buy and May, hesitating around 784c, shot up to 79c. That was a rise of 1%c for the day, and the temptation to secure profits became so strong that many holders sold out and May slumped off to 77%c. During the last fifteen minutes' buying it again became spirited and May rose to 78%c, the closing price.

Cold weather and increased country offer-

orice.
Cold weather and increased country offer Cold weather and increased country offerings started corn easy. Local traders disposed of long lines, but the offerings were readily absorbed by good commission house buying. During the last hour of the session rumors of heavy Wall street buying started the crowd to cover and May railled ic from the low point of the day. A large demand for export was also a helping factor. Profit-taking during the last few minutes caused a moderate setback. Receipts were 557 cars. May opened 14.04% lower at 2514.035%, sold sparingly at 3514.c, advanced quickly to 3914c, then reacted to 3914c buyers at the close.

Oats kept in close touch with corn, although it did not show as much gain as did the latter. The speculative trade was slow and the demand for cash was limited to car lots. Receipts were 185 cars. May

ant packing interests were arrayed on the util side. May pork opened 5a/10c higher at 10.624/a/10.674, declined to \$10.55/a/10.574, rose o \$10.70 and closed at \$10.65 buyers. The ange in lard and ribs was small. Estimated receipts for Saturday: Wheat, 10 cars; corn, 470 cars; oats, 185 cars; hogs, 1,000 head.

Nature, Gains Predominating. NEW YORK, Jan. 27.—The changes as a result of today's trading were rather mixed. with gains predominating. The market opened with hesitancy, but this was orders and the market started up under the

opened with hesitancy, but this was speedily dissipated by an influx of buying orders and the market started up under the influence of strength in the low-priced specialties and standard stocks. London was a free seller on that balance, the sales amounting to 30,000 shares, which encouraged the room traders to put out larger short lines to check the rise.

Commission houses had a large volume of buying orders well distributed throughout the list which forced the bears to take back stock after effecting only a slight relapse in the market's strength, Prices were forced up under the leadership of Rock Island, People's Gas and Brooklyn Rapid Transit. The low-priced stocks were then taken in hand. Tennessee Coal and fron moved up 34; American Spirits preferred. 2; Wheeling & Lake Erie first preferred, when Issued, 4; Pacific Mall, 2%, and Indianapolis & Louisville preferred, 3. Among the specialties there were advances of 2% in Rubber and 2 in Sugar, while Metropolitan moved within 2 points.

There was an average rise of over a point in the grangers, except Northwestern. The largest rise in this group was that of Rock Island, 1%. The coalers, Morgan stocks and Cleveland, Cincinnati, Chicago & St. Louis were quiet. Long Island jumped 5¼ and Norfolk & Western preferred on large transactions advanced 1½. The move in the latter was attributed to talk of an increased dividend rate, Lake Erie & Western and Chicago Great Western preferred "A" rose in the neighborhood of 2 points. Accompanying the advance was a favorable report of the senate commerce committee on the steamship subsidy bill, which benefited Pacific Mall; an explanation that the new beet sugar company would not invade the American Sugar Refining company's territory and a number of favorable traffic starements, including those of Northern Pacific and Southern Railway. Reading and Wabash December net changes, however, were decreases. The Lackawanna annual report, showing a deficit after dividends of over \$500,000, was without notable effect on stock, only one

cess of 1,00,000 shares, as on other days this week.

Considerable irregularity prevailed in the bond market, with active issues favoring a downward course. Total sales, \$6,215,000.

Bid quotations for government bonds were inchanged. The Commercial Advertiser's London The Commercial Advertiser's London financial cablegram says: "The Stock exchange clearing house here broke down last night, owing to the heavy settlement in Americans and Africans, hence business was impeded today. Nevertheless Africans were rampant and Americans were brisk. The latter began dull, Mr. Vanderbilt's denial of the consolidation report caused a drag in the early hours. Then an American house got a big order in Louisville & Nashville and New York came good, which renewed the excitement and buyers tumbled over each other to get stock. Later prices cased off. Finally Berlin bought Northern Pacific. New York hought Union Pacific preferred, which is tipped strongly here, Anaconda touched 5% on heavy New York purchases. There was a strong demand for call money, owing to the clearing house hitch. In bills there was no business."

SHEEP-There was a fair run of sheep here again today, fifteen cars, as against nine a week ago. For the week to date there has been a considerable gain in the arrivals, as will be seen from the table of comparative receipts given at head of column. So far this has been the best week in the matter of receipts since the second week in November. Practically everything here today was on sale, so that the offerings were as large or larger than yesterday, when the figures showed a good many more in

Frading More Moderate, But Firm at

Trading More Moderate, But Firm at Current Quotations.

BOSTON, Mass., Jan. 27.—The Commercial Builetin will tomorrow say of the wool market: Trading in the aggregate has been more moderate than last week, but the market is very firm at current quotations. The chief movement this week has been in low and coarse combing wools and fine-toned wool. One-quarter and three-eighths blood qualities in both domestic and for-eign wool have been in good demand. The sales of the week are 1,255,000 pounds domestic and 468,000 pounds foreign, a total of 2,423,000 pounds. against 3,295,000 pounds last week, and 6,546,500 pounds for the same week last year. The sales to date show a decrease of 3,225,500 pounds domestic and 2,628,000 pounds foreign from the saies to the same date in 1899. The receipts to date show an increase of 1,298 bales domestic and a decreuse of 5,538 bales foreign.

LONDON, Jan. 27.—The wool auction sales were continued today, with a good attendance and an active demand. Merinos realized exfreme rates, while fine-haired scoured were eagerly competed for af fancy prices. Geelongs of a better class and New Zealand crossbreds were in good supply and sold well. Yorkshire and the continent took the bulk. The American representatives purchased some stock suitable for their requirements. Cape of Good Hope and Natal wool was in small supply and was briskly competed for. There were some withdrawals, owing to the high limits. During the week so far 12,000 bales have been sold and there were but 19,000 bales to be soid. The offerings today numbered 19,522 bales.

ment. Several liberal transactions were reported in staple cottons at full asking prices and orders from the general public were more numerous. Denims continue to harden, lileached cottons are very firm with some disposition to look for further advances shortly. Print cloths were not offered and 2½c was declined for regular cloths, Prints and ginghams were in moderate demand, but the tone of the market is strong. There was a good demand for heavy woolens for men's wear at low prices. Dress goods ruled steady with fair prices. Burlaps are strong and occasionally its higher.
