ALLEN URGES EQUAL FAVOR

Resolution to Give Philippines an Equal Chance with Cuba.

CONFIRMING TREATY IS NOT COMMITTAL

Its Language Not to Be Construed to Mean Permanent Control of Philippines-Chilton Speaks from Same Standpoint.

WASHINGTON, Feb. 4.—This was another day of expansion oratory in the senate. In presenting a resolution declaring that the Philippines shall be given an equal chance he would address the senate Monday on the question.

The speakers today were Mr. Chilton of Texas and Mr. Wolcott of Colorado. Mr. Chilton made a constitutional argument in support of the resolution, his principal objection to the annexation of the Philip pines being that it would admit to thi country both the Filipinos and the prod ucts, to come into competition with the workingmen and their products. His proposed solution of the pending problem was the establishment of a republic in the Philippines, over which the United States would exercise such care as it gives the republic of Liberia.

Mr. Wolcott made an eloquent-almos impassioned-appeal to the senate for the ratification of the treaty. His tribute to the administration for the successful conduct of the war and to the peace commissioners for their successful efforts in behalf of their country was the feature of his speech At the beginning of today's session Allen of Nebraska offered the following resolu-

That the senate of the United States, in ratifying or confirming the treaty of ernment to the doctrine that the islands acquired by virtue of the war with Spain are to be annexed or are to become a part of the United States, and that the dif-ference in the language of said treaty as respects the island of Cuba and its in-habitants and the island of Porto Rico and the Philippine islands and their inhabitants shall not be construed or be held to be a difference in effect, but that it is the in-tention and purpose of the senate in ratify-ing said treaty to place the inhabitants of the Philippine islands and Porto Ricc in exactly the same position as respects their relations to the United States as are the inhabitants of Cuba.

Mr. Allen gave notice that he would address the senate upon the resolution Mon-Public Policy Antagonized.

Mr. Chilton of Texas then addressed the

senate on the various anti-expansion resolu He asserted that he was not an antiexpansionist or anti-annexationist. Within proper bounds he regarded it as the duty of this country to widen its territory. He thought the acquisition of Porto Rico and the island of Guam was well conceived, but in the acquisition of the Philippines a grave public policy was involved. He believed such acquisition involved serious perils and that dangers to our government and institutions would constantly menace us. He did not regard the annexation of the Philippines as at all similar to that of Louisiana. California and other territory now a part of the United States.

He also expressed his belief that if we took the Philippines and they became a part of this country, our people would never cease to regret it. Mr. Chilton said if our operations were confined to Porto Rico and Cuba we would need no increase in the standing army, but if the Philippines were taken we should require an army of 200,000 men to subjugate the scattered and turbulent elements in the islands and pensions would be piled on pensions. He declared his bellef that the supreme court would hold that congress had no power to prevent the Filipines from passing from one part of the country to another, but even if the inhabitants were shut out, their products would not be, and could not be.

States May Protect Themselves.

Mr. Foraker of Ohio, interrupting Mr Chilton, called his attention to authorities for the statement that it would be competent for any state of the union to protec itself in any way it saw fit, by levying ima port duties on importations from the Philippines. This point was sharply controverted

by Mr. Chilton The laboring people of the country, he added, had caught the alarm and he read a letter he had received from the National Cigarmakers' union, urging congress not to annex the Fullippines, on the ground that it would demoralize the labor market of

Mr. Platt of Connecticut said he had was satisfied that neither the Filipinos nor their products could come into this country unless congress so provided. Mr. Chilton replied that this was merely the opinion of Platt and was of no actual force or effect. He had examined the question very carefully and had reached the opposite con-

Mr. Chilton finished at 1:55 p. m., and Mr. Wolcott, republican of Colorado, followed, He said he stood by his government, and would have supported any treaty presented

by the commissioners. Mr. Wolcott denounced the wrangling over the treaty. The senators who were a few

CALL FOR PEACE RESOLUTIONS. Bacon Will Endeavor to Obtain Earl

Consideration for Them. WASHINGTON, Feb. 4 .- Apropos lenator Bacon's notice that he would at the earliest opportunity attempt to get up his resolutions regarding the peace treaty for consideration, the senator states that he will not only ask to have the resolutions taken up, but that he will make an earnest | \$8; effort to get a vote upon them. Senator Bacon declines to discuss his objections to fixing a time for a vote in yesterday's secret session, but it is understood that his poposition was manifested only towards the one proposition to extend the time until studied the question pretty carefully and he | Monday at 1 o'clock. He took the position that to defer the vote until that time, only two hours before the vote on the treaty itself, would be unfair, and therefore made

strenuous objection. Mr. Bacon expressed the opinion today that there would be no objection to a vote on the resolutions at any time from among the members of the opposition, but said that the objection was directed entirely at the proposition to fix a definite time for a vote so near the time for action on the

The friends of the treaty will find them selves short of the votes necessary to ratify the treaty and some of them candidly confess that such is the case. They are, how ever, still hopeful that the shortage will be made good before Monday.

SAILORS' CLAIMS FOR BOUNTY

for I sual Acknowledgment. WASHINGTON, Feb. 4.-The secretary o he navy has submitted to the court of claims another batch of claims for bounty money by United States sailors on account of the Spanish war ships destroyed. A misapprehension seems to have arisen on account of the action of the Navy department in referring the cases and the inference has been drawn that this course was adopted because the Navy department was itself in doubt as to the conditions under which the Spanish ships were destroyed and felt itself incapable of passing upon the question as to whom the credit belongs. It is said, how-

ever, at the department that in the opinion of the legal authorities this reference is necessary to meet the statutes relative to the payment of bounty money. Therefore the attorney general has been notified of the reference of the cases and requested to apyear before the court in the interest of the United States, though this request does not by any means signify any hostility on the part of the Navy department toward the

claims.

BABY'S AWFUL BURN

Large as a Silver Dollar. Hot Coffee Scalds Breast and Hands. Skin Comes Off with Clothes. All Remedies Useless.

CURED BY CUTICURA

My little boy was two years old when he reached upon the table and spilled a cup of hot coffee all over his left hand. It had gone through to his breast, and before I co move his clothes it had burned his breast, and the skin came off with the clothes, and he has to-day a scar as large as a silver dollar on his breast. I applied a great many things. The burn was a very ugly one, hard to heal. I was requested to try CUTICURA (cintment), which 'ealed up rapidly, but before I used a half a boy of CUTICURA it was well. Oh, I think CUTICURA is the salve above all others. Nov. 20, '98. Miss. R. CARTY, Needles, Cal.

BABY'S SORE HAND CURED

I was obliged to keep the first three fingers of my little boy's hand done up all the time, as it wis a raw sore, beginning to extend down toward the palm. We consulted three different physicians, each a certain length of time. A gentleman recommended Cottoura remedies. I purchased Cottoura Soar, Co-TICCHA (ointment), and CUTICURA RESOL-VENT, put aside what I had been using, and began with them. Well! they cured that hand. MRS. DIAMOND. Pierre. MERCER A GREAT HUSTLER Second District Congressman

ing Hard on the Buildings and Grounds Committee. WASHINGTON, Feb. 4 .- (Special Telegram.)-Congressman Mercer's committee on public buildings and grounds has authorized the chairman to report favorably some sixty bills and these will probably be filed

on Monday. Since the selection of Mercer as chairnan of this most important house committee he has been overwhelmed with bills authorizing the construction of new government buildings throughout the country. but the condition of the treasury has not warranted the committee to seriously consider any of them. When it became evident that something had to be done to check the clamor throughout the country sifting committees were appointed to go over each bill with a view of arriving at an honest conclusion. Out of the foremost bills referred to the public buildings and grounds ommittee a number were set aside for consideration by the whole committee and these were still further reduced to the number above referred to. Mercer has worked more hours than ever before in his career as congressman over a proper distribution of the bills to be reported and it is confidently predicted that the list will show 'Our Dave's' cleverness in unifying facions in order to secure co-operation in
