Native Fing on Presidencia is Lowered After Engagement of Two Hours and Huts Are Burned as the Americans Advance.

Ican forces at 3:40 this afternoon made a opened fire on the Kansas outposts last combined attack on Caloocan and reduced it in short order.

At a signal from the tower of the De Lome church, the United States double-turreted monitor Monadnock, opened fire from the bay, with the big guns of its forward turret on the earthworks with great effect. Soon afterward the Utah battery bombarded the place from the land side.

The rebels reserved their fire until the leys of musketry as the Montana regiment advanced on the jungle.

The Kansas regiment on the extreme left, right, charged across the open cheering, and carried the earthworks under a heavy fire. Supported by the artillery at the church, the troops further advanced, driving the enemy, fighting every foot, right into the SIGNAL CORPS MEN NEEDED town line, penetrated to the Presidencia, and lowered the Filipino flag at 5:30 p. m.

The enemy's sharpshooters in the jungle on the right, fired at long range on the Pennsylvania regiment, but the rebels were soon silenced by shrapnel shells and the Pennsylvanians remained in the trenches. native huts.

General Otis' Brigade Does Some Brilliant Work on the Left of the Line.

LOS ANGELES, Feb. 10,-A special cablegram to the Times from Manila says Brigadier General H. G. Otis holds the extreme left of the American line from the bay near Caloocan. The regiments on the line in support are: The Twentieth Kansas, Colonel Funston, eleven companies; First Montana, Colonel Kessier, nine companies; Third artillery. Major Kobbe, four batteries, and Tenth Pennsylvania, Colonel Hawkins, four companies. Two companies of the Tenth Pennsylvania are behind the walls of tain Jensen's company, holding the stone railroad supporting the Kansas troops.

The cold wave predicted by the weather bureau came along on schedule time. The wind whipped around into the northwest about 3 o'clock yesterday afternoon and almost immediately the mercury commenced to journey down the tube. It went jumping along at the rate of 1 degree per hour and kept it up nearly all night. At 9 o'clock it had reached a point 7 begrees below zero When he saw this the local forecaster went home and left his thermometer to take care of itself during the balance of the night. Last night was one of the most disagreeable of the season. The wind blew in from Manitoba at the rate of some twenty or thirty miles per hour and with it there was snow, not the fleecy kind that usually flutters gently down to the earth, but little globules that sting and cut as they strike man and beast. The wind gave these little globules plenty of velocity and they went through the air with the speed of shot from

a chokebore breechloader. There was enough snow so that it drifted until it impeded travel on the street car lines and laid out any number of motors. Early in the evening the sweepers were pressed into service and pushed out over the lines, followed by long strings of cars. Out in the suburban districts reports indicated that the storm had all of the indications of a genuine bilizzard and that the snow was drifting badly.

The roll call on the motion to indefinitely postpone the report was along partisan lines, with the exgovernor of Ohio for the return of Colonel | ception that McCarthy of Dixon and Burman of Douglas voted with the fusionists. Beverly of Douglas first voted to reject the

report, but changed his vote to the majority side. Anderson of Fillmore, the member unseated by the adoption of the report, was popular on the floor of the house, numbering among his closest friends some of the republican members who voted to unseat him, and after the voting was done there was a little reception at the deak of Mr. Anderson, the republican members coming nome of Colonel Melwin Grigsby of the forward to bid him goodbye. All of this was in the best of humor and Mr. Anderson raised a hearty laugh when he gained the recognition of the chair and asked to be excused for the balance of the session.
