The American losses yesterday were three same evening, a post mortem showing men killed and thirty-two wounded. Among the wounded is the gallant Lieutenant Colonel Bruce Wallace of the Montana regiment and a lieutenant of the Second cavalry who was sho' through the lungs while leading a charge across the open country. The enemy fost heavily.

To T CAR STORE THE STORE TO BE

the situation calmly must admit that the final victory of the Americans is not only certain, but desirable. The Tagalos are certainly incipable of self-government. We are unable to discover in this Aguinaldo -who has played with more than hostile intentions between two powers-has any traits of real greatness."

The Zeitung adds that the relations between Germany and the United States are improving and pays a high tribute to Mr. White for his steady efforts in that direction. The paper next advises a partition of the Samoan islands, Germany taking Upolu, upon which Apia, the capital, is situated, and which contains more than half the total population of the entire group, and the United States and Great Britain dividing Savail, Tutuila and Manua.

Agrarian Press Abusive.

The commercial relations between the United States and Germany have, however, absorbed chief attention, partly on account of the Reichstag interpellation on the subject today introduced by Count von Kanitz, the agrarian leader, with the approval of the government, which hopes thereby to exert pressure on the Washington government, which it is claimed here is hanging back needlessly and interposing obstacles in the way of a mutual understanding regarding reciprocity.

agrarian press this week again The abuses the United States and the centrists who backed the interpellation print to "American insolence" in tariff matters.

Among other things the paper saps: "The German market is equally valuable to the Americans as the American is for us, os- archbishop is enjoying his stay greatly, vis- that the real difficulty is how the governpecially since the American tariff policy suc- iting prominent members of the American ment of the Philippines is to be carried on, ceeded in excluding a large part of German export from the American market. Americans pretend that America has nothing to admires him. Ireland had an interview with mission is by a trained civil service. The lose and that it can frighten Germany by Rampolla yesterday. It is given out on the increasing brutality. But we believe that in the end they will find out they have be given yet about Americanism, which is hope to deal with a people that will not be frightened. But Americans by their total disregard of treaties have already injured our exports so seriously that it seems necessary to show them that we can hit back. otherwise they will behave worse and worse and injure us more than a tariff war.

Liberals Oppose Tariff War.

The entire liberal press takes the opposite view, the Freissinnige Zeitung saying the interpolation is merely intended to facilitate the policy of internal improvement for the agrarians and the Taggeblatt strongly opposes a tariff war.

The vexatious application of the German tariff on American imports has in no wise ceased and during the last few months American fruit has been treated with unfairness at all the tariff stations, particularly Hamburg. Bremen and Emmerich. on | York on a visit of semi-private character. the frontier of Holland.

The attention of Mr. White has just been called to a case which occurred on January , when a hundred cases of the finest dried Galifornia pears, consigned to a merchant of Dusselderf, were stopped at Emmerich by the Germans, who advised the consignee that the lot could not pass because the San Jose scale had been found among the pears. The consignee demurred and pointed out that the pears were dried by the approved California method and that the scales, therefore, must be dead and harmless. The authorities replied a week later that an experi had been unable to de-

termine whether the scales were dead or alive, but in any case it had been decided that American dried fruit was calculated to spread the San Jose scale, unless so dried in the privacy of a riding school attached to render it "perfectly dry, hard and to his historic residence at Hatfield and now brittle.

The consignee answered that such treat-

CUIRASS IS BULLETPROOF

Production of French Inventor Withstands a Mauser Bullet at Range of Seventy Yards.

(Copyright, 1899, by Press Publishing Co.)

PARIS, Feb. 11 .- (New York World Cablegram-Special Telegram.)-Military authorities here are much interested in M. Threaud's bulletproof cuirass, which has been subjected to severe tests which it entirely withstood. The essential part of th cuirass is a sheet metal composition, which is a secret of the inventor. The plate is fitted with an inner and outer lining, the composition of which is also a secret. The manner in which the lining is fixed is said to add to the impenetrability of the cuirass. The weight of the cuirass is about eight take that post and will not return to Parpounds

A Mauser bullet of six millimeters caliber was fired from a distance of about seventy yards. It struck the cuirass well in the center. On examination the front of the cuirass was found to be torn, but the indent made on the metal plate was very slight and the back lining was quite intact In a word, the impenetrability of the cutrass was proved. The bullet was found to

have glanced off in an upward direction. The inventor, speaking on the subject said: "The manufacture of my culrass is in expensive, its secret is very simple, but its effectiveness perfect. I will offer it first to my own government and if it doesn't purchase the invention I shall feel at liberty to sell it elsewhere; but I am confident our War department will never allow it to go out of the country."

MEN MOVE LIKE CLOCKWORK

American Attack Carried Out with the Utmost Precision-Profound Dismay Among Filipino Agents.

But he persisted in spending even the funds LONDON, Feb. 11 .- A dispatch to Reuter's of charity upon this craze and to the last Telegram company from Manila, describing wrote letters to nobility appealing for their the capture of Caloocan, dwells upon the excellence of the American plans and the precision with which they were carried out The dispatch adds: At 4 p. m. the American The agitation to compel by legislative enships ceased firing. Then the army fired three guns, at an interval of ten seconds, signalling the advance of the whole line, the Kausas regiment leading through the jungle. The rebels' left wing was diverted by Major Bell and 100 men. It was like clockwork.

There was no hitch anywhere The rebels, estimated to have numbered 10,000 men, were demoralized by the shells. The Americans advanced in open order. At 500 yards there was a halt and then a charge and the rebels stampeded from their trenches, which were admirably constructed The Americans refrained from wasting ammunition, but rushed on without firing and used their bayonets and the butts of their rifles. There was heavy slaughter. The railroad is practically uninjured. Today the ships are shelling beyond Caloocan. The Americans will probably reach Malabon

today and Malalos in a fortnight. Dispatches to the Globe from Hong Kong say the Filipino junta there has received LONDON, Feb. 11.-(New York World by steamer from Manila further news of the recent fighting.

The Filipino agents say the Americans placed vessels along the shores of the bay and began hostilities "unexpectedly at midfew days after the press announcement, now night on Saturday, simultaneously hombardpleads illness and makes excuse that she ing the defenseless towns of Fondo, Malak

and Malabon." The agents of the rebels also say: "The slaughter of women and children was frightful, the Americans burning and devastating all before them, conducting a war of extermination and shooting every Filipino."

The agents of the Filipinos declare their intention of appealing to "Christendom" and say their indignation against the Americans is intense.

FILIPINUS STATE THEIR SIDE

Accuse Otis of Couspiracy and Barbarism and Assert the Innocence of Aguinaldo.

HONG KONG, Feb. 11 .- The Filipino jur.ta here has issued the following statement: Manila steamer has arrived here with the American censored version of the fight, which is utterly false. The Americans commenced heavily and, by the treachery of

Szechuan.
