## THE OMAHA DAILY BEE: SUNDAY, FEBRUARY 19, 1899.

Union Pacific Assumes Control of the Julesburg Branch.

LINE INTO DENVER IS NOW SHORTENED

Work of Gathering in the Branches that Were Segregated Six Years Ago is continued by the New Company.

At midnight last night the Julesburg branch of the Colorado Southern passed un-der the direct control of the Union Pacific. The branch is 151 miles long, extending from The branch is 161 miles only and was a part of the Julesburg to La Salle, and was a part of the Union Pacific, Denver & Gulf, which was to the value of \$11,762.54 were affixed to the segregated from the main Union Pacific system in December, 1893, and put under a understood five of the notes would be taken separate receivership. By securing the branch the Union Pacific materially shortens Its line to Denver.

Previous to the transfer of this property the Union Pacific has run its Denver trains the construction of the Central Pacific, and over the branch, but at Julesburg the en-gines and crews of the Colorado Southern a new series of bonds to hear 4 per cont in were put in charge of the trains. This will terest, which will also be a lien on the be discontinued now, and Union Pacific enroad. gines and crews will take the trains through to their destination. It is possible this will DEEDS OF TRANSFER ARE FILED. result in some change in division points,

but this fact has not yet been officially announced.

the Colorado Southern secures the use of a new months by Robert Stuart of Chicago and admitted as specialors, and when the est design-It is valued at \$45.00. A hand-portion of the Union Pacific tracks in Colo-in block 13, Kountze & Ruth's addition, he-fighting or contest, is of sure to a kind and some Bread Tray of the same style at \$42.00. rado also includes a lease of the Union Pacific shops in Denver. It is now reported Mason and Pierce streets, has been deeded the contestants is naturally expected and that the paint and ordinary repair shops of the Southern are to be moved from Golden, Colo., to Denver and consolidated with the shops there. This is displeasing to the citizens of the smaller town, but in this age of economy there appears to be no help for them. The lease of the shops, however, has enlivened the spirits of the people at Cheyenne, as they believe it means increasing the work in the shops at that point. Twelve engines were turned out of these shops during January and the same number is ex-

pected to be turned out this month. CONTROL OF THE TEXAS PACIFIC.

Road is Likely to Be Absorbed by the

Missouri Pacific. J. O. Phillippi of the Missouri Pacific has returned from Kansas City, where he went to look into the rate situation. He reports that he found rates firmly held up by all the roads, more so than has been the case for several years. Speaking of the purchase by the Missouri Pacific of the Central Branch roads in Kansas, which was officially announced a few days ago, Mr. Phillippi says he would be surprised if the road in a short time did not absorb the Texas Pacific.

The Texas Pacific is owned by the same interests which control the Missouri Pacific, George Gould being president of both roads, although they are operated under separate management. The process of absorption un-

der these conditions would not be difficult, Exonerates the Culprit. and it is considered advisable that this step There appears to be some uncasiness be accomplished in the interest of economy among the local passenger men over the in management. Mr. Phillippi adds that this condition of the ticket market. Thursday matter has been under advisement for some afternoon the City Passenger association time, but action has not been taken owing was called in special session to consider the to some objections raised which seemed to action of one of the agents in selling a threaten the success of the con- ticket irregularly, but the alleged guilty solidation. It is believed now that the party was exonerated. Friday afternoon andemands of these days for large and con- other special meeting was held to investigate tinuous systems of railways in the place of another alleged offender and the result was shorter lines under separate control have the same as in the first case. Both cases largely removed these objections, bringing were dismissed virtually on technicalities, the time for ultimate consolidation nearer and it is hinted that the agents are finding new methods for evading the rules of the at hand.

The same argument, Mr. Phillippi says, association. All the passenger offices report applies to the Cotton Belt, which is con-trolled by the Gould interests, although the dition tempts the agents to contrive some in San Francisco.
