While it is unlikely that the natives of the ocality will harm them it is feared that thers from distant provinces might wreak engeance at their expense. In view of the fact that the enemy were concentrating on the American right flank, preparations were made last night to give them a warm reception in the event of an attack. General Ovenshine's line, consisting originally of the North Dakota volunteers, Fourteenth Thursday night, when the piano was kept infantry and two troops of the Fourth cavalry, stretching from the beach to Camp ing Mrs. Wilson, living next door, was Dewey to General King's right, was reinasked by Florence to assist her in raising forced by two battalions of Oregon volun-

Rebels Harassing the Town. MANILA. Feb. 20.-10:10 a. m .- The enemy have apparently realized the hopelessness of attacking the American position and are occupied chiefly by occasional sharpshooting from the jungle whenever feasible. Fortunately their ignorance of the use of sights minimizes the results.

The night attack of General King's forces

on San Pedro Macati has evidently been

construed by the rebels as a sign of weak-

ness, as they pressed forward on both sides of the river persistently harassing the Last night the rebels poured volley after volley into San Pedro Macati from the

brush on the adjacent ridges, but without effect General King's headquarters in the center of the town was the target for scores of Remington and Mauser bullets. The rebels are using smokeless powder and it is extremely difficult to locate individual

marksmen.
