CATTLE—The feeling on the market was much better today, as was the case yesterday, and beef cattle were in good demand at a little stronger prices. The cattle here as a rule were very common and far from attractive in the eyes of the buyers and not of the kind calculated to stimulate to the kind calculated to stimula 1,572 6,042 6,200 at a little stronger prices. The cattle here as a rule were very common and far from attractive in the eyes of the buyers and not of the kind calculated to stimulate the market. Still the buyers took hold and the pens were soon cleared at slightly better prices. It was claimed that had there been anything right good or choice in the yards it would have sold at least 10c higher.

10c higher,

The market on cows and heifers was fairly active, and the feeling on that kind of cattle was also better, the market for the week being a little stronger. The quality of the offerings today was a great improvement over many days, and for that reason the sales showed up well. One bunch of very fat western heifers, the best seen here in some time, sold at \$4.65. Bulls did not sell any better, in fact in some cases buyers did not bid up so well as yesterday, as the market is pretty close up cases buyers did not bid up so well as yesterday, as the market is pretty close up to Chicago prices. Veal calves brought just about steady prices.

There was not much here in the way of stockers or feeders and the demand was reasonably active, with the market fully steady. Right desirable thin stuff would undoubtedly bring strong prices.

It will be noted from the table of receipts above that the receipts of cattle for the desirable that the receipts of the desirable that the receipts along the receipts along the desira

It will be noted from the table of re-ceipts above that the receipts of cattle for the week to date show a large falling off as compared with the corresponding days of recent weeks. Of the cattle here today eleven cars were consigned direct to the Cudahy Packing company and seven loads to the Omaha Packing company, so that the total number of cattle of all kinds on sale was extremely small. HOGS—Today's market was 5@7½c higher. The trade was fairly active at the advance and most of the hogs changed hands in good season. Light and light mixed hogs sold very largely at \$1.4623.35, as against \$1.4623.47½ yesterday. Good mixed loads on the heavy or medium weight order brought for the most part \$1.562.51½, while the same kind of hogs sold at \$1.47½@3.5½ yesterday. Several loads of good heavy and good butcher weights brought \$1.60. The quaglity of the hogs was very much better today, which accounts for a part of the improvement shown by the sales below. Receipts at Chicago were way below expectations, and the same was true of most every market, and at the same time there was yesterday's advance in the provision market, and these two buil factors were the apparent cause for the advance in the price of hogs this morning. The packers all seemed to want supplies, and the market as a whole was of a fairly satisfactory character.

character.

A glance at the tables at the head of the column will show that the receipts so far this week are slightly smaller than a week ago, but about the same as two and three weeks ago. It will also be noted from the table of average prices that the market today was but very little lower than it was one week ago. However, if comparisons are made with two weeks ago it will be noted that there has been a decided decline in values. Representative sales:

A great many samples have been taken by intending purchasers, however, and the latter are ranifesting decidedly more interest in the market, so it will not be surprising if there should be a larger business to report next week. The sales of the last week aggregate over 3,500,000 pounds, however, which may be regarded as a fair average week's business. One feature of the situation is the fact that smaller manufacturers, who previously had not been much in evidence, have been well represented in the market.

The sales of the week in Boston amount to 2,776,000 pounds domestic and \$22,000 pounds foreign, making a total of 3,58,000 pounds, against a total of 4,367,500 pounds for the previous week and a total of 3,090,000 pounds for the corresponding week last year. About the only practical plan is to submit an amendment to the constitution to repeal the dispensary amendment and anther to increase the limit of indebtedness o meet the expense in case the amendment

is not repealed. Members of the State Fair board are here pushing the bill to abolish the present board and to create a new board of five to be appointed by the governor as a more satisfactory manner of handling the affairs of the fair than the present one.

HOMESTEADERS IN SOUTH DAKOTA

Only 15,000 Acres Left of Large Trace

Opened to Settlement. SIOUX FALLS, S. D., Feb. 22 .- (Special.) The rapidity with which the government land in the ceded portion of the Yankton Indian reservation has been taken by settlers is shown by a letter received here from the receiver of the United States land office at Mitchell, the ceded lands being situated in the Mitchell land district. The land office officials state that of the 168,000 acres opened to homestead settlement only 15,000 acres remain vacant.

This is a good showing, especially when is the highest priced government land in the state. Settlers taking land there were and are required to pay the government at the rate of \$3.75 per acre. Many inquiries are being received at the Mitchell land office in reference to the remaining 15,000 acres, and it is only a question of a short time until it will practically all have passed into the hands of homesteaders. Then there will be no more vacant govern ment land in that part of South Dakota lying south of the Milwaukee line of railroad and east of the Missouri river except isolated tracts of a few acres scattered here

TWO WOMEN FROZEN TO DEATH.

Town, but Storm Overtook Them. DEADWOOD, S. D., Feb. 22 .- (Special.)-News of the terrible tragedy which befell M. J. Whaley, wife and daughter near Sheridan, Wyo., during the recent cold spell has reached this city. Mr. Whaley and family drove into Sheridan from their ranch, six miles distant, the weather being warm. When they started home in the afternoon is had grown much colder, but they thought they could reach home all right. Before they had gone two miles from the city their sleigh was overturned, throwing the inmates out. The storm was very severe at the time. The mother and daughter were unable to walk and Mr. Whaley started back to Sheridan for help, aithough he was almost frozen to death hemself and had a dislocated shoulder. When help arrived the two women were unconscious and died soon after arriving at Sheridan. Mr. Whaley is reported in a critical condition.

perfectly well.

A woman who has suffered ten years with irregular menstruation, leucorrhoea, falling of the womb or any other "female trouble" has simply endured a living death. No pen can express the joy and gladness that fills her breast when she has finally drawn herself away from the clutches of these diseases. No woman should ever permit herself to get into such a distressing condition. The trouble should be stamped out at the start. If mothers will give young girls a little Wine of Cardui as they approach puberty, after-life will be practically free from danger.
