TEKAMAH, Neb., March 1 .- (Special.) -The first witness called to testify in the murder trial of Calvin Hiscox for the killing of Fred Sellers was Dr. J. C. "Ignorance of Law Excuses No One."

This maxim applies with especial force to ignorance of the laws of health. Every man and woman of intelligence knows the physical fact that the blood reaches the remotest parts of the human body. If there is a disturbance anywhere, why should one ignorantly suppose that the seat of the malady is local?

Is it not more rational to suppose that the impure condition of the blood is that they intended going back by way of doing the mischief, as it is? Experience has demonstrated the fact that this is the case in 95 per cent. of complaints.

will take care of the rest. Hood's Sarsaparilla enables you to cleanse your blood of all imporities and make it strong and wholesome. It never disappoints.

At 4 o'clock, just before the house adjourned, the private secretary of the governor appeared and delivered the following message:

To the Honorable Members of the House of Representatives: Gentlemen-I would most respectfully call your attention to the welfare and comfort of the brave boys in the First and Third Nebraska volunteer regiments now stationed at Manila and Cuba respectively. As the rainy season is fast approaching in these latitudes and the posmates and the further fact that many soldiers have been wounded in recent battles and still more may be killed and injured in skirmishes and battles which will take place in the future, the White Cross society of the United States is intending to establish a permanent hospital in Manila as scon in the service have made provisions for the special care of their sick and wounded by appropriating adequate sums for the purchase of hospital supplies and delicacies so essential to the welfare and comfort of

the boys in that far away country.
It seems to me that it would be entirely proper for the legislature to remember our gallant soldiers at this time by an appro-priation which could be used in case of need for such purposes as well as to care for and return home the bodies of deceased soldiers.

"What Head-aches flean." The dreadful which women suffer mean nineteen times out of twenty that there is more trouble than headache There is prob-

ably some un-healthy condi-tion of the delicate organism of womanhood and often added to this the digestive functions are out of order, these two conditions cause nearly all the headaches from which

I doctored most of the time with as good a physician as there is in the state, but had no ease only when I was quiet and off my feet and then I had more or less pain in my head. When I began taking Dr. Pierce's medicines I weighed for pounds, and was very pale and weak. I took twelve bottles of the 'Favorite Prescription' and seven of the 'Golden Medical Discovery.' Now I feel like a different person. Have no pain in my head, can do all my work for self, husband and one child; am gaining in flesh. I feel it is through God's mercy and your wonderful medicines that I am cured."
