Transactions of a Day by the Assembled Solons at Pierre.

DISPENSARY BILL KILLED IN THE HOUSE

Governor's Nominations of Public Examiner and Mine Inspector Are Confirmed—Numerous Bills Are Passed.

PIERRE, S. D., March 2.—(Special Telegram.)—The first contention in the house was over the right of petition which Cooper raised over the refusal of the house to receive a petition favoring a bill killed several days ago. This was followed by another, the report of the conference committee on the general appropriation bill. The report, which carried, and a new conference was asked for, in which the house committee was instructed to refuse any bill which increased the aggregate of the house bill.

YANKTON, S. D., March 2.—(Special Telegram.)—The committee on temperance presented a unanimous report against the passage of the senate dispensary bill. The report of the committee was adopted—yeas 37—nays 19.

SHOTS QUICK AND STRAIGHT Treacherous Native and His Companion Killed in One Shot by a Prompt South Dakotan.

YANKTON, S. D., March 2.—(Special Telegram.)—W. W. Spain, a member of the First South Dakota volunteer regiment, in an interesting letter from Manila tells of a thrilling episode experienced by one of the regiment as follows: The men in Company E by the name of Schmidt was on guard on outpost No. 1, the most dangerous post on that division. There are large bushes on both sides of the post for about 100 yards. This man had just been posted and had started along for the first time. When he was about half way across a native stepped out and said: "Quick! No shot! A good evening." The guard returned the salute and, seeing the native had no firearms, started to walk his head. He had no more than started when he saw the native and just turned his head in time to see him run. The native was quick to escape the dreaded muzzle which he carried. The guard aimed at his neck, but Schmidt turned his head the other way as he was about to shoot, he saw the native and just turned his head the other way as he was about to shoot, he saw the native and just turned his head the other way.

MR. SHOOTERS-AT-HIM DESERTS. First Indian Divorce Case is Tried in the Deadwood Court.

DEADWOOD, S. D., March 2.—(Special Telegram.)—Shooters-at-Him, Indian from Rosebud agency, has commenced divorce proceedings in circuit court in this city, against his wife, Fanny Shoots-at-Him. The plaintiff affirms in his complaint that his wife has left him twice and that she has refused to return to him. The plaintiff further alleges that his wife has been unfaithful to him. This will be the first Indian divorce case ever tried in a Deadwood court.

LIFE IN NEBRASKA'S CAMP

Private Describes Routine and Incident in First Regiment.

QUARTERS ARE A MODEL OF NEATNESS One of Most Important Roads to City in Its Charge—Christmas and New Years Are Spent in Feasting and Merriment.

CAMP SANTA MESA, Manila, P. I., Jan. 19.—To the Editor of The Bee: The routine of the regiment has been rather uninteresting with a warm welcome by the twelve companies, as it lessens the work of the old men to a considerable extent. This addition makes no change in the size of the companies, for shortly after the arrival of the recruits the companies were reduced to their original strength of eighty men. This allowed of the sending home of those who had been sick in the hospital and had not been participating in the duties of the regiment. The recruits were soon at home with their new comrades and now can hardly be called "rookies." The stories of their cakewalk into Manila up to their waists in water and dining upon hardtack have been recited to the recruits by the old men.

One outpost in particular is a bridge crossing the Pasig river and is on a main road to the city. On one end of the bridge we have two sentinels, while on the other end are insurgent sentinels. At this post there has been firing at different times, but no serious encounter. About 2000 men of the rear of these sentinels the support is stationed in an old blockhouse. This is one of the main outposts, for in case of an attack the insurgents would have to take this road to the city. Upon the main road from this point are the outposts of the Colorado and Scout companies and regiments, which are also within easy call in case of trouble.

Home Becomes a Sweet Word. The volunteers are all anxious to have the affair come to a climax so they can return home. The general question now is, "When are we going home?" There is a variety of opinions on this subject. Some think March 1, some July 1, while still others think we will remain here our two years of enlistment.

SERIOUS PROBLEM IN FINANCING

Seven Hundred People on Public Works Are to Be Put Out of Employment Today and Trouble is Feared.

For the month of March all expenditure for the entire province must be kept within \$100,000. The Cuban treasury is almost empty. The United States authorities say that this amount is less than was allowed at any time under the Spanish regime. In the opinion of others the object of the restriction is to discredit the work already done here by forcing out of employment a large number of men and creating discontent and disturbance.

Unemployed May Be Influenced. Many Cuban politicians who have not received appointments will, it is feared, use the occurrence to influence the minds of the unemployed. The result is difficult to forecast.

Dr. Bennett's Electric Belt. Makes Us Perfect, but the Common Weakness of Health Must Be Regarded as a Guaranteed Cure. When Nature made man she gave him certain organs, each of which was to perform a distinct service and were to act in harmony. Nature never intended there to be any disease or abnormal condition of any of these organs. But the laws of health are very apt to be disobeyed and the result is disease. It is only as you start your system back in the early days of youth, when the organs are still pliable and the system is not yet fully formed, that you can expect to recover from the effects of a nervous disorder which is the mother of invention.

LaGrippe's Legacy.

Worn out and exhausted in body and mind, with shattered nerves and a palpitating heart; no desire for food and no ability to digest it; unable to rest or sleep day or night—this is LaGrippe's legacy. Long after the grip germs have been driven out the poisons which they created remain in the blood, the heart, the lungs, the stomach, weakening the nerves and lowering the vitality of the system. There is one way of destroying the seeds of disease and death which are an inheritance from grip. Dr. Miles' Nervine will do it. It gives the shattered nerves a rest and helps them to recover their strength. It stimulates the appetite, strengthens the stomach, assists assimilation and fills the blood with the vital elements of life.

Two years ago, after a severe attack of the grip, I was overcome with nervous prostration, heart trouble and nervous dyspepsia. I was so low that I could not bear to be spoken to. During the nervous spasms which I frequently suffered, I had no control of any of my organs. Every remedy known to my physicians was tried without success and then my wife brought me a bottle of Dr. Miles' Nervine. After using one bottle I could speak a few words. At the end of three months I could talk quite naturally and now I am completely cured of the trouble.

GEO. A. ANDREWS, Great Barrington, Mass. A trial package of Dr. Miles' favorite treatment for the grip, consisting of Dr. Miles' Nervine, Dr. Miles' Anti-Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting samples, and mentioning the name of this paper.
