Decreased Amount of Money Given Officials to Run Uity Government.

APPROPRIATION \$10,000 LESS THAN IN 1898

Removal of Fontanelle Smallpox Hospital Probable-Unfavorable Report on Twenty-Fourth Street *Opening-Other Matters.

The various city departments, exclusive of those which are provided with fixed sums of money by the charter, will have \$10,000 less to spend this year for the maintenance of their offices than last year. At its meeting last night the city council passed on its first and second reading the ordinance which makes this reduced apportionment of funds and there is every reason to believe that it will remain unchanged and will be passed on its third reading on next Tuesday night despite any objection that may be made by the heads of the different departments.

In this apportionment every department has been cut far below the amounts asked for and also below the sums that were appropriated last year. The extent of the reduction below the 1898 apportionment will be seen in the following table of compari-

Totals\$112,00	5 \$100,0

Street Cleaning Fund.

It will be seen that the appropriation for the street department has been materially reduced. This fund is used mainly for street cleaning. Much less money than last year will also be spent by the council in repair-Ing streets and crosswalks, for the apportionment ordinance also sets a limit to expenditures of this character. In the past councilmen have ordered as much of this sort of repairing as the body as a whole would stand for, but according to the ordinance each councilman in the future wil be limited to a fixed amount. For such repairing a total sum of \$19,000 is appropriated. Of this amount \$7,500 is distributed among the various wards as follows: First, Second, Fifth, Sixth, Seventh, Eighth and Ninth, \$1,000 each; Third and Fourth, \$250 each. The remaining \$2,500 of the fund will be used in emergency cases and in absolutely necessary repairing under the direction of the Board of Public Works. Just before the council adjourned Councliman Karr introduced a resolution that was innocent enough in appearance, but bore directly upon the use of these street department funds. This resolution provided that every department should be permitted to use its money as it saw fit without any further authorization from the council. This will certainly govern all the departments but it will particularly affect the street department. City Engineer Resewater has frequently complained that he has not been permitted to use his funds as he saw fit, but has been limited to what the council permitted him to use by virtue of a resolution passed a year ago, which ordered him not to do any street work unless specifically ordered to do so by the council. Karr's

out discussion or comment. Action Postponed.

resolution was referred to a committee with

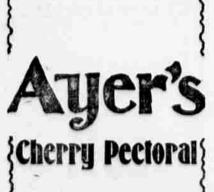

The resolution ordering the city comptroller to discharge the two men who were hired by him a year ago to do special work and have been retained since was again up and action was once more postponed because of the absence of the comptroller. Some of the councilmen were inclined to let the comptroller retain the men if he wanted to as long as he kept within the appropriation made for the maintenance of his office. Councilman Burkley, however, stated that the men were not paid out o the comptroller's apportionment, but their salaries were specially provided for

A somewhat sharp contrast with these proposed reductions was furnished by resolution from President Bingham, instructing the city engineer to draw up as ordinance preliminary to the grading of Eighteenth street from William street to Lincoln avenue, the city to pay one-half the cost of the work. This latter condition appeared, however, to cause Bingham to think that there was small chance having the work done, for he said: view of our strained finances, I do no presume that the council will want to pay half the cost of this grading, but I introduce this resolution by request." On his own motion the resolution was referred.

May Remove Smallpox Hospital. The demand of the residents about Fontanelle park for the removal of the smallpox hospital that was located there during the recent smallpox scare will probably soon be complied with. City Physician Spalding presented a communication, in which he stated that there is no more need of the hospital and therefore recommended that it

be removed to some permanent location where it would not be objectionable. This communication caused several members of the council to express themselves as desirous of removing the building as soon as possible, because of the complaints of the people who live near the park. No action was taken, but the matter was referred to the building and property committee with the understanding that something will be done very shortly.

People who want South Twenty-fourth street opened over the Union Pacific and Burlington callroad tracks pending the construction of a viaduct will probably be dis-

Cheaper than any experiment, no matter what the price.

CITY COUNCIL PROCEEDINGS appointed. The city engineer, to whom was referred the statement of General Manager referred the statement of General Manager Holdrege of the Burlington, that the crossing would be dangerous on account of the grade of the street, reported against the opening. He declared that Twenty-fourth street on the south, which has been brought to the established grade, leads down to the railroad tracks so steeply that a team could not be stopped after it started down the hill and consequently some serious acci-dents might occur. This steep grade had been established in anticipation of the conction of a viaduet, which would have to be 490 feet in length. In view of this condition of affairs City Engineer Rosewater advised that the street be not opened. The report was referred.

Capitol Avenue Paving.

All the old ordinances ordering the repaving of Capitol avenue from Sixteenth to Twentieth streets were repealed or placed on file and a couple of new ones were introduced, cutting the street into two districts, one of which extends from Sixteenth to Eighteenth and the other from Eighteenth to Twentieth. This was done in order to enable the block between Seventeenth and Eighteenth streets to be parked in accordance with the wishes of the people living there. Other ordinances introduced, read a first and second time and referred were as follows: Paving Fifteenth street from Grace

street to a point 176 feet south, paying Dewey avenue from Thirty-ninth to Fortieth, vacating a considerable number of streets and alleys in Warrenton addition, a supplemental February appropriation sheet, nam to Dodge street. The ordinance ordering the grading of Phelps street from Thirteenth to Sixteenth, the city to pay onehalf the cost, and another ordering the pav-Farnam were passed on the third reading.

A committee report recommended that the city lease to the City Garbage company a portion of Leavenworth street east of Sixth, which is not open to traffic, upon which the company proposes to erect a stable. The rental was to be \$50 a year. To this Stubt vigorously objected, on the grounds that the property owners adjoining objected to having the stable on account of the stench. A suggestion was made that the lease be not entered into unless the property owners consent and Stuht therefore agreed that the matter be referred again until waivers of the property owners are secured.

A petition was received from a number of adjoining business firms asking that the city market be not removed from Eleventh to another petition received some time ago, sale of market stalls, the auction to take member. place at 10 a. m. on March 25. The market will be opened for business on April 1.

The city comptroller reported that on February 28, 1899, he counted the cash in the hands of the city treasurer and found it to

NORTHSIDERS TAKE ACTION

Levy Placed by the City Council.

At the meeting of the North Omaha Improvement club Monday evening the matter of parks and boulevard was thoroughly discussed and it was the sense of the meeting that owing to the large amount of unimproved parks and boulevards, which are conlimit of appropriations for park purposes is entirely too low, and a committee was appointed to petition the legislature to attach such amendment to the city charter. \$30,000 to \$50,000.

adopted:

Resolved by the North Omaha Improvement club. That we approve of the economi-cal administration of the city affairs and being held Monday night. the keeping of tax levies down to the low-est possible point consistent with the publie good, but when every city in the United States of the same class as Omaha is put-ting itself in condition to take advantage of returning prosperity, we do not approve of the policy that will keep Omaha dirty, unattractive and unprogressive; we believe there is no economy in permitting the streets of the city to be muddy, dusty and offensive, for the reason that it gives a bad impression to visitors, increasing disease and destroying the reputation of Omaha as a place in which to live and invest money. In like manner, we consider it wasteful in-stead of economical not to maintain the sewer system of the city that cost \$2,000,000. We disapprove of the crippling of the park board. The people of Omaha have chased land at a great expense, belithat the city would be benefited thereby nd that land values near the parks and oulevards would increase more than the arks cost. This expense has been a heavy urden and is a valueless acquisition as they are now, if readways are not constructed and kept in good condition. These im-provements are necessary to render useful ur streets, sewers and parks for which so much money has been expended. While their maintenance is profitable to property owners it also gives employment to many aborers. We disapprove of the action of the park board in renting from year to year Fontanelle park, a tract of 110 acres, for a byterian church will meet this afternoon cow pasture for \$290 a year, and we demand with Mrs. J. G. Carley. Twenty-second and

the cancellation of lease.

They Stand by Haverly. At a meeting of the Omaha Veteran Reubitcan league held March 4, 1899, the folowing resolution was unanimously adopted: Whereas. The county commissioners of Douglas county have assumed to control the appointment of clerks in the office of county clerk, notwithstanding the fact that the , notwithstanding the fact that the is an elective one, and notwithstandng the fact that the county clerk is duly bonded and obligated to the responsibility of a faithful, honest and correct performance of his duties and is therefore responsible for his cierks: now therefore, be it Resolved by the Omaha Veteran Repub-lican league. That we endorse fully the posi-

for partisan reasons only to oust an old sol-der, who is intelligently and faithfully performing his duties as a clerk in his office. Happy is the man or woman who can eat a good, hearty meal without suffering afterward. If you cannot do it, take Kodol Dyspepsia Cure.
