CANNON ON APPROPRIATIONS practical provision, viz.: The provision of a million deliars to enable the president

Congratulates Congress and Country that Its

Work is Well Done.

ORDINARY EXPENSES CLOSELY WATCHED

Vast Increase in Army and Navy Doci Not Choke Industrial Advance During the McKinley Administration.

WASHINGTON, March 10 .- Availing himself of the privileges accorded by the house of representatives previous to adjournment. Chairman Cannon of the committee on appropriations has prepared a more extended statement of the appropriations made by the Fifty-fifth congress than he made the day after adjournment. He places the total appropriation for the entire congress at \$1,566,890,016 and the appropriations authorized for future congresses under the continuing contract system for battleships, river and harbor improvements and public buildings at \$70,000,000.

The total appropriation made at the last session Mr. Cannon places at \$673,658,100, showing an apparent reduction of \$219,573,-214 below the appropriations for the preceding session.

Mr. Cannon attributes this reduction to for the present congress he says \$452,552,083 is directly chargeable to fine war with the increase of the army to a quarter of a Spain. He then shows that the ordinary million have not in any appreciable devered by the

a million dollars to enable the president to mald complete investigation of the isthmug with the view of constructing a canal across the same, particularly the Panama and Nicaragua routes, and to report to congress the result with his recommendations in the premises.

Prompt Achievements of Congress.

Referring in a general way to the legislation of congress, Mr. Cannon says: "During the whole of the four years cov-

ered by Mr. Cleveland's second administration the material and industrial condition of the country was calamitous and its coutemplation does not bring satisfaction to any American citizen. But the Fifty-fifth

congress, beginning with the administration of William McKinley and promptly called in extraordinary session, has promptly enacted legislation which has yielded the additional revenues required to pay the ordinary expenses of the government and has at the same time protected labor. With the enactment of that legislation hope and confidence struck hands and the condition of the whole country improved and has continued to improve. Labor is now universally employed with increased wages and with such employment the means are supplied for increased consumption.

"In addition congress declared war against Spain and the prompt and decisive successes of the army and navy on land and sea have never been equaled anywhere in history. The great expenditures rendered necessary by the war required the enactment of additional revenue legislation and the extraordinary war expenses of the pre- that legislation is now bringing into our ceding session. Of the total appropriations | treasury an additional \$100,000,000 per annum. The vast increase of the navy and

the measure during the present session.

Hong Kong Contract.

TWO GOVERNMENTS NEGOTIATE DIRECTLY Loan of British Syndicate on Chinese

Northern Railroad Implies that the Line Must Be Transferred to No Foreign Power.

PEKIN, March 10 .- The Chinese foreign flice has received a dispatch from St. Petersburg saying that as a result of negotitions betwen Russia and Great Britain the Russian minister here will withdraw his rotest against the Hong Kong contract. The Hong Kong contract is identical with he Niu Chwang contract.

The Daily Graphic, a usually well inrimed newspaper of London, made the fol owing announcement this morning. The Niu Chwang loan contract crisis has

been amicably settled by a direct exchange of views between the British and the Rus-slan governments. The Russian assurances are completely satisfactory. The whole difficulty is ended and the two governments

are arranging a scheme by which their relations in the far cast may be per-manently regulated." The London Times in its financial article on February 1 announces that a Chinese i the Chinese Northern railroad. China, It municated with by mail: was added, had given Great Britain a pledge that these railroads would not be alienated o any foreign power. It is apparently against this loan or its terms that Russia protested, the transaction since becoming known as the Niu Chwang, or Hong Kong loan. Niu Chwang is the Chinese port at the head of the Gulf of Liao Tung, the port of Mukden, capital of Manchuria.

TELLS OF GERMAN INTRIGUE

Chief Tamasese Reports an Interview **Held with a German Agent** at Apia.

APIA, Samoan Islands, Feb. 23 .- (Via San Francisco, March 10.)-Malletoa Tanus, the recently elected king, and the high chief, Tamasese, were interviewed today on board he British cruiser Porpoise. Tanus deputed

his friend Tamasese to do the most of the talking. "We remain here," said the king, "await ing the decision of the three powers and until a firm government be established in this country.

Tamasese said that the Germans had made certain promises to him (Tamasese). They approached Tamasese through Dr. Kramer. an officer of the German navy. Continuing, Tamasese said: "Kramer told me I mus leave Malletoa and join Mataafa at Mulinuu and if I did not 1 would be sent away t another country. He said it would be right for Mataafa to be king, but Mataafa would e taken away quickly, and then I (Tanasese) would be left here to take the

kingship. I said to Kramer: 'How is it that you desire Mataafa now? Do you not remember the time when he cut off the heads of your people? How, then, can you upport him now? "Kramer answered: 'Never mind that;

s only a trick." Subsequently an interview was held a Mulinuu with Mataafa. According to Mataafa the German consul had said the Gernan government had forgotten the past and now had no objection to his becoming king.

> Leading American Ladies Talk About the Merits of Pe-ru-na.

THE HOME OF MRS. LIZZIE M. BREWER AT WESTERLY, R. I.

Mrs. Lizzie M. Brewer is well known in Rhode Island. Long before Pe-ru-na was ivertised in that state, she had discovered the merits of Pe-ru-na and was recomending it to her friends and neighbors. Her frequent calls for advice and attendance from the sick made her recommendation of any medicine of special importance.

As a consequence, when Pe-ru-na came to be advertised, it found a great many people who had already tested its merits. It had already made many cures of chronic catarrh, la grippe, coughs, colds and consumption in the state of Rhode Island. When it is considered that, in the Atlantic states, more than half the people suffer from the effects of catarrh, the importance of the discovery of a catarrh remedy becomes apparent

Pe-ru-na cures catarrh. This has been well demonstrated. This is one of the certainties of medical science. It cures catarrh of the head, stomach, kidneys, bowels

In a letter to Dr. Hartman concerning the merits of Pe-ru-na, Mrs. Brewer writes, ong other things: "WESTERLY, R. I.

"Dear Dr. Hartman-I find it a sure cure for all catarrhal affections so common n this part of the country. It cures a cold at once. There is no cough medicine that can at all equal Pe-ru-na. As for la grippe, there is no other remedy that can at all compare with Pe-ru-na.

'I notice in medical journals, and from the testimony of my neighbors, that the doctors seem quite unsuccessful in treating la grippe, especially in removing the after-effects of la grippe. From personal observation in many cases 1 know that Pe-ru-na is a sure specific for these cases.

"I am among the sick a great deal in our city and have supplied many invalids with Pe-ru-na, simply because I am enthusiastic in my faith as to its results. I have never known it to fail to quickly and permanently remove that demoralized state of the human system which follows la grippe.

"In all cases of extreme weakness I use Pe-ru-na with perfect confidence of a good result. In cases of weaknesses peculiar to my sex, I am sure that no other remedy can approach in good results the action of Pe-ru-na. It meets all the bad symptoms to which females are subject. The irregularities and nervousness, the debility and miseries which afflict more or less the women from girlhood to change of life, are one older in eastern portion; northwest winds. For Iowa-Rain, probably turning into city could read your book, 'Health and Beauty.'
