It is said on good authority that the pay Brooke are most complete and fair and the general says he can aid the troops in procuring \$3,000,000, whereas it is problematical whether the assembly can obtain anything. There is little doubt as to the side the army will take. The troops are tired of the field and insufficient food and the inthe receipt of the \$3,000,000, unless deceived by the promise of a larger amount by the assembly.

General Gomez has the confidence of the American military authorities and says he is glad of his new-found liberty. He has always insisted that an active share in distributing the money would fall to him and there seems no good reason why he cannot continue to act as General Brooke's adviser and helper.

The question of his successor as com mander-in-chief has not yet been considered, but General Mayia Rodriguez is the next in command. No doubt General Gomes technically exceeded his authority in acting Independently of the assembly. His course was certainly calculated to arouse lealousy in that body. But it is becoming more and more apparent that the assembly's action was largely the result of personal spite and desire to avenge slights. It is well known that there has long been trouble between

Gomez and certain members. The patriotic clubs have decided to abolish the Junta Patriotica, the members of which are elected by them, and to establish a Patriotic league in Its Gomez, it is said, will be asked to accepthe presidency of the new organization.

SAN JUAN HILL A PLAYGROUND

Movement on Foot to Make the Famous Mound a Government Park and Cemetery.

SANTIAGO DE CUBA, March 12 .- A movement is on foot here to persuade the United States government to purchase San Juan hill to be used as a public park. The idea is that a certain portion could be se apart to be used as an American cemetery and the site of a mortuary church. A few thousand deliars spent upon the rest would make a beautiful recreation ground, including a half-mile race track, a base ball diamond and tennis grounds.

General Leonard Wood, military governor and other prominent Americans favor th project, believing if the land can be of tained at a reasonable figure the suggestion should be carried out in memory of the heroic charge of the American troops. Senor Bacardi, mayor of Santiago, today

planted a tree of liberty in the Plaza Dolores in the presence of more than 3,000 children representing the different schools of the city, as well as a large concourse of citizens. He spoke of the glorious decis of Cuban patriots during the last thirty years and of their struggle in the face of immense odds. He paid a warm tribute t the good work done by General Wood during the American occupation and glowingly phophesied regarding what will be done when the Cubans manage their own country without assistance.
