... AMUSEMENTS...

This week's vaudeville bill at the Creigh of this form of entertainment. It is what sum mentioned was the price Mr. Ives pal may be termed a laughing bill and with the exception of one or two nots all keep the audience in an uproar. Just what the hit of the bill is would be hard to tell, as the applause and laughter were about equally divided among four of the acts.

Watson, Hutchings and Edwards are the headlines and they do a sketch called the "Dramatic Agent" which consists principally of "horse play." but it is "horse play well done and seems to amuse everyone, therefore it is quite acceptable.

The Schrode brothers do a very clever acrobatic act in which they introduce some side-splitting comedy as well as difficult aerobatic feats. One of these feats is t double-back somersault, by one of the brothers from a head stand, while another does a difficult forward-back somersault Their imitation of a railroad train in which the three form themselves in the shape of a hoop and roll around the stage is not only difficult but highly amusing. Another amusing feature of their act is a large mechanical head and body which is used for a pedestal. William Schrode, one of the brothers, was formerly the clown with Hanlon's Superba. They are all conscientious workers and their act is a big hit.

John and Nellie MacCarthy do a diversified comedy act that makes a hit. Their jokes are all new and free from vulgarity. Their parodies besides being new are well renderd to banjo accompaniment. Billy Van, who is an old favorite in

Omaha, is one of the few burnt cork artists that, in vaudeville, is not really tiring His wittinisms and stories are always new and never fall to create any amount of laughter. Van has a funny style of his own, and his fun becomes infectious immediately upon his appearance before his

Lew Rose, who is a brother of Manager Jake Rosenthal of the theater, does a singing act that is exceptionally well received His parodies on George Dewey and the late Spanish-American war are well sung and as is the case with all patriotic songs go well with the audience. Rose's yodeling is also very good and adds greatly to his singing act

Zene, Karl and Zeno, two men and quite a small boy, do an aerial act that in some ways is quite remarkable. One of their most important feats is the throwing of Master Zeno by one of the men suspended head downward to another and while in the air the buy turns a double somersault. Other difficult feats in throwing this boy

IVORY SOAP PASTE.

In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING -To one pint of boiling water add one and one-half ounces one-quarter of the small size cakel of lvory Soap cut into shavings, boll five minutes after the soap is noroughly dissolved. Howling Wind at

San Jose.

BAN JOSE, Cul., March 12 - The bicycle

races this afternoon were run in a howling

northwest gale, but were a success both

from a point of attendance and the time

was an exhibition half mile by Otto Zeigier and an exhibition mile by McFarland,
Neither lowered the world's record, although McFarland was announced to go
for the world's record for a mile. While
he did not succeed in breaking the record
he made a magnificent run and beat Fourher's neither machine with a howlers girld.

The time was 0549 2-5 for the half mile:

Puzzling Situation.
