Smokeless Powder. WASHINGTON, March 14.-The Navy department is ready to take whatever steps may be necessary in carrying out the proin this line of manufacture, throwing the whole burden of production on the government plants. The government has a plant at Indian Head which, when completed, will turn out a maximum product of about 3,000 pounds a day. But this will in no way com-

pete with the private manufacturers. The navy has now a powder known to the profession as pyro-cellulose, which is equal to, if not better, than any smokeless ditions, is not only not injurious to the guns now in use, but is so adjusted to their The officer from whom the above message requirements that it has increased their ef-
