Senator Frye, has taken the trouble to

point out Mr. Cannon's mistake. The Maine senator correctly states and the amount to be paid for any such property was limited to \$5,000,000. It should be stated, however, that the original bill did propose to pay the Maritime canal company \$5,000,000 for its concession and property, but so vigorous was the opposition to this that the measure was amended in the form stated by Senator Frye. In regard to the canal amendment to the river and harbor bill by the senate, Mr. Frye is also correct in saying that there was not a word about the payment of \$5,000,-000 for any purpose, that amendment authorizing the president to acquire such portion of territory belonging to Costa Rica and Nicaragua, or such been to commit the United States to senator. the construction of a canal along the

Philadelphia Record Not even the stoutest stick of Oregon pine will serve as the mainmast of the new America cup defender. The mast is to be of steel, and to it will be attached a spread of canvas of no less than 12,500 square feet. When it is considered that the towering sails of the Defender-the largest ever bent on an American sloop yachtmeasured but 11,000 square feet, the advantage in sail plan of the new craft is readily apparent. To carry such a cloud of canvas even in a light breeze will be a noteworthy feat of seamanship.
