SOMETHING LIKE A GAME OF FREEZE-OUT

Strong Clubs of the East May Gobble Up the Best Players and Let the Westerners Play with Undesirable Men.

LOUISVILLE, Ky., March 27.-Great indignation was manifested in the camp of the Louisville Ball club today owing to a change made in the schedule adopted by the league magnutes Saturday night, by which Louisville is deprived of eleven-five at home and six abroad-of the seventeen Sunday games originally allowed to that club. In nearly every instance where a Sunday date was taken from the Colonels the games were doubled up for Mondays or Fridays-poor days for attendance, as President Dreyfus puts it. Mr. Dreyfus is out in an interview today, in which he scores John Brush of the Cincinnati club, James Hart of the Chicago club and Frank DeHaas Robison of the St. Louis or Cleveland club for their alleged underhanded methods.

President Dreyfus was seen after the the meeting yesterday afternoon and in answer to a series of questions said:

The outlook makes me hopeful that the Sunday dates will be given back to us. I cannot tell you at this time what our plans are, but I have every reason to believe they will be effective. We all understand the situation now, and if our plans do not miscarry Messrs. Brush, Hart and Robison will be sorry they ever tried to do us up.

"In the statement which we will give tomorrow night our position will be clearly set forth and then the enthusiasts of the national game can judge for themselves whether or not we were the victims of a robbery. And we will see to it that these facts are read by most of the 'fans' of this country. We will make the other magnates go on record as to who is responsible for this great throw-down.'

Combinations in No Way a Mennee to Labor, but Are Responsible for the Marked Growth of Export Trade,

NEW YORK, March 27 .- Henry Clews, head of the banking house of Henry Clews & Co., writes of the situation in Wall street as follows:

Affinirs in Wall street continue to drift along in a somewhat erratic and irregular manner, though on the whole more active than during the last few weeks. The ele-ments of excitement on the Stock exchange have centered around the industrials, certain of which have fluctuated wildly and from reasons about which there is little agreement of opinion. As to American Sugar, in which the transactions and fluctuations have been most extreme, there appears to be little doubt that negotiations have been at least attempted for effecting a pacific understanding between the trust and its new competitors. The rumors about those interchanges of views have been used for etimu-lating buying and frightening a large "short" interest into covering; but, as yet, nothing appears to be definitely known as Equally, the rumor of a consolidation between the Sugar and the Glucose trusts seems to have been a pure invention for stimulating speculation in the stocks of railroad industry? As similar arguments those properties. These demoralizations, however, have introduced a feeling of caution over the whole list, for the operations have shown that the "fast-rider" class of opera-tors, who foster the extravagances so easily got up in connection with the industrials, are becoming more and more an element of uncertainty in more legitimate operations. The railroad list begins to attract renewed attention. The severe storms of February produced a contraction of earnings in that month which has contributed to the disposition to sell these securities, for some time apparent; but the obstructions of the February traffic have increased the earnings for he current month, with the effect of stiffening the market for this class of investments.

Effect of Trust Formations.

Taking the present situation as a whole, however, it is not calculated to encourage large expectations as to prices, for the coming week at least. The immediate position of the money market cannot be regarded as encouraging to sanguine expectation. The surplus reserve of \$19,000,000 is not up to the average for this season of the year. while it is really a narrow resource for a situation surrounded by unusual and indefinite special demands for cash. Today's bank statement, however, is likely to be unfavorable again and the two following ones will show but little improve-ment, from all indications. This will doubtless cause, meanwhile, the same caution which has existed during the present month. Specialties, however, like Sugar and the other industrials, have moved up vigorously,

Infants are effected by foods taken by the nursing

mother.

Prof. W. B. Cheadle, of St. Mary's Hospital and author of a treatise on the feeding of infants, has shown by experiments that wasting diseases, will result from depriving children of fats and hypophosphites.

Dr. Thompson says Codliver oil is what such mothers and infants require. "Scott's Emulsion" is pure Norwegian Cod-liver oil with hypophosphites.

Itching, Burning, Scaly, **Blotchy Humors**

Instantly Relieved and Speedily Cured by

Aticura

The itching and burning I suffered in my feet and limbs for three years were terrible. At night they were worse and would keep me awake a greater part of the night. I consulted doctor after doctor, as I was travelling ITCHING on the road most of my time, also one of our city doctors. None of the doctors knew what the trouble was. I got a lot of the different samples of the medicines I had been using. I found them of so many different kinds that I concluded I would have to go to a

Cincinnati hospital before I would get relief. I had frequently been urged to try CUTICURA REMEDIES, but I had no faith in them. My wife finally prevailed upon me to try them. Presto! What a change! I am now cured, and it is a permanent cure. I feel like kicking some doctor or myself for suffer-ing three years when I could have used CUTICURA remedies.

Speedy Cure Treatment

the skin and scalp of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply CUTICURA Ointment freely, to allay itching, irritation and inflammation, and soothe and heat, and lastly take CUTICURA RESOLVENT to cool and cleanse the blood. This sweet and wholesome treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humors of the skin, scalp, and blood, and points to a speedy, permanent and economical cure when all other remedies and even the best physicians fail. The SET, price \$1.25; or SOAP, 25c.; OINTMENT, 5oc., and RESOLVENT, 5oc. (half size), may be had of all chemists, druggists and stores where medicines are sold throughout the world.
