First Regiment Does the Hardest Work and Suffers the Heaviest Loss-Agninaldo's Soldiers Take to Their Heels.

WASHINGTON, March 31.-The following dispatch was received at the War department early this morning:

MANILA, March 31 .- Adjutant General, MANILA, March 31.—Adjutant General, Washington: Troops resting at Malolos. Considerable portion of city destroyed by fire. Our casualties one killed, fifteen wounded. Hall has returned with his troops to his former position north of Manila.

OTIS. MANILA, March 31.-3:55 p. m.-The American flag was raised over Malolos at 10 o'clock this morning. The Kansas regiment and the Montana regiment, on enter ing the city, found it deserted, the prestdencia burning and the rebels retreating towards the mountains in a state of terror. It is believed they cannot in future make even a faint resistance.

The American loss was small. It is evident that the rebels for some time past have abandoned all hope of holding their capital, for the Americans found there evidences of elaborate preparations for evacuation. On the rallroad the rails and ties for about a mile had been torn up and probably thrown into the river. The only prisoners captured were a few Chinamen. They said Aguinaldo left Malolos on Wednesday.

The principal citizens of Malolos, their families and goods have been taken into the country over the railroad, while others have and driving their cattle and other animals before them.

Most of the rebel forces were removed yesterday evening to positions east of the John E. Dowis' name is not on original the fight will assume strictly party lines railroad, leaving only some small bands in the strong trenches in front of Malolos. General MacArthur started for the rebel

Colonel Funston, always at the front, was the first man in Malolos, followed by a group of dashing Kansans.

The Fillpino flag, which was flying from the center of the town, was hauled down by of the Montana regiment, who triumphantly raised their own above it. From the column of smoke arising from the city it seemed as if the whole place was

It turned out, however, that only the presidencia, or government building, and a few of the smaller buildings had been set on fire by the rebels before they evacuated

From the reports gathered by the American officers, from prisoners and others, it is believed that the rebel army is constantly losing strength on account of desertions, and although the enemy may make one or two more stands, the forces of Aguinaldo will disintegrate, in perhaps a month, to a Nelson, leg. slight. guerrilla warfare in the mountains.

He made a canoe trip alone 900 miles up the Yukon. In the fall of 1894 Funston went to Cuba and enlisted the Cuban army. For two years he fought valiantly for the cause of the insurgents. At one time he was commissioned a olonel and commanded the entire artillery forces of the Cubans under General Garcia. He fired the first dynamite gun used by the Cubans in their war against the Spanish, and was in many severe battles. In one charge he received a bullet just below the heart, which penetrated his body. He returned to Kansas and had barely recovered from his wound when Governor Leedy appointed him colonel of the Kansas regiment Last fall Colonel Funston was called to candidate.

The committee on the supreme court presented a majority and a minority report, the latter being signed by Representative Shore. The majority report finds nothing of serious import to criticise or condemn in the court and explains satisfactorily two items relating to Judges Sullivan and Norval. The minority report holds that Judge Norval is guilty of a felony and calls on the house to begin impeachment proceedings. An attempt by the fusionists to substitute the minority for the majority report was voted down, 44 to 51, and the majority report adopted.

Cornell is Censured. Shortly after midnight the report of the committee appointed to investigate the state auditor's office was presented. The facts of the investigation were set forth, the auditor severely censured, but no recommendations were made, as, in the committee's opinion, impeachment proceedings would not be likely to succeed. The report was adopted by a unanimous vote.

PROCEEDINGS OF THE SENATE. Lively Time Over McCarthy's Stock

much from loss of blood.

Exchange Bill. LINCOLN, March 31 .- (Special.) -- Some of the exciting scenes of the lower branch of the legislature were enacted in the senate today, and the members were not destined to adjourn without having at least one extremely lively sitting. Spenn of Nuckolls arose at a time the

enators had about finished whetting their

appetites for a bountiful repast, and wanted

to know why the sifting committee had ignored the request of eighteen members of the senate to advance H. R. 331 to the head of the general file. He did not need to explain that it was the McCarthy bill to break up the South Omaha Live Stock Exchange. Senator Reynolds, chairman of the committee, explained in answer to the query that the committee had not been able to get together since the senate adopted that request and that there were plenty of im-

portant measures on general file meriting the senate's attention. Canaday of Kearney then offered the forlowing alleged report of the sifting committee, which became the real hornet's nest; Mr. President: We, the undersigned, members of your sifting committee, to whom was referred the McCarthy bill, being House oll No. 331, a bill for an act to prevent

ombinations, trusts and monopolies in buying and selling live stock, etc., on commisaion, have had the same under consideration and in view of the reluctance and besitance some members of your committee to make any report whatever and their failure so far to comply with the motion passed by the senate yesterday, which course, if sisted in, might be construed by the p of our state as showing a determination to smother said bill in this way. Therefore, we beg leave to report the bill back to the senate with the recommendation that it be advanced to the head of the general file.

Senator Canaday was a member of the sifting committee. Senators Talbot and Van Dunen at once challenged the Kearney sens tor's purported report as no report at all that it simply was the statement of one ember of the committee, acting in his individual capacity. Each of the eix re maining members of the sifting committee suid Senator Canaday had never submitted such a report to them and they had not seen the report nor heard of it until offered by him in the senate a few minutes before in the midst of this discussion Taihot of nan William Kilroy was shot and killed Lancaster moved that the "report" be tabled and roll call was demanded.
