## "PILOT, WHAT'S THE NEWS?"

Most Thrilling Incident in the Career of Admiral Schley.

EFFECT OF QUESTION AND ANSWER End of a Long Voyage from Hong Kong to Boston in 1861-Astonish-

About the Rebellion. Away back in the year 1859, during the administration of Mr. Buchanan, an embassy from the Japanese empire visited this country to return a visit made by the squadron

under Commodore M. C. Perry a number of

ment of the Crew on Learning

years before. Their visit of ceremony being at an end, our government determined to send this embassy back in a national war ship and as the frigate Niagara was at that time the largest, as well as one of the most formidable war vessels affoat, it was selected by the Navy department for this mission and sailed early in July, 1860, for Japan with the embassy on board.

It was the privilege of the writer to have served on board the Niagara during this candidates for the presidency.

ery of considerable power, voyages to and to compare these advantages with those of from that distant station, as well as the other countries, where much of our lives transmission of mall matter, consumed the have to be passed. were fortunate if answers came back to most welcome and our reception by the Ahem in a year. It must be remembered government of Japan was just as cordial votes cast. Until the ship had reached the cally, by the captain that he had come from glories and in its history, there was no

letters and papers were looked for most eagerly in that far-off land.

When the Heart Grows Weary. For these who live always at home or enoy the advantages and comforts of constant home association in this blessed land of liberty it is not easy to comprehend how weary the heart grows in waiting three long, long years before returning from what seems o us almost banishment, honorable, it is rue, and yet more difficult to understand how the altars of one's patriotism are kept burning and how the love of country and its flag may live and grow in hearts that are obliged by the circumstances to pass most of their lives away from and outside the

dearest associations of education and friend-It is this exile-this having to perform duties that are beyond the public observati a and to some extent outside the public sym pathy, often in the most pestilential regions of the globe, where we stand guard over the commercial rights of our countrymen, or on the remote frontiers of civilization, where we stand for the great power of right and protection to those domiciled there-that makes our country so grand to us and our

respect for its flag so profound. The flag, too, has a personality to us. It represents the majesty of our government of the people and their great power. As the symbol of freedom's home it excites enthusiasm wherever it is shown abroad cruise and it left our shores just after the and in the hearts of its freemen defenders principal conventions had nominated their there is felt a love and admiration for what it represents that is apt to be overlooked As our way out to the China station was by those who live where these privileges made under sail, notwithstanding the ship are not so esteemed as by those of us who had been equipped with auxilliary machin- accustomed to long service abroad, are able

that there were not successful submarine and just as hospitable as that of our govcables engirdling the earth as now, so that ernment to their embassy. The temple of lutter ignorance of the portent of this yote, formation with another question: Slogee in the city of Yeddo was fitted up for taken away off in the China seas. the reception and entertainment of our offi-

isits of inspection.

regulsh Importunity.

A Long Trip Home.

After our mission had been completed and the presents from our government to that of quently he was also the choice of the nation. Japan had been landed, we started on our return to Chinese waters in the winter of 1860-61. Reaching Hong Kong, the United States minister, Mr. Ward, had authority to return to the United States, and the Niagara was directed to take him to India, and thence to the mouth of the Red sea, where he took steamer for Europe, and ultimately home.

ceeded from Aden to the Comoro islands, aorthwest of Madagascar, and lastly to Cape Town, in South Africa. Our voyage home was in length somewhat longer than that going out, and nothing was known of the deck, apparently amazed at the question.

On the day of election, however, a vote was taken on board ship, with the result coptain?" that Mr. Lincoln received a majority of the | When told more politely, if less emphati- to the love of country and my pride in its

highlands of Cape Cod, Mass., we were in Hong Kong, the pilot followed this in-

The absence of ships, however, along our coasts about the latitude of Cape Hatteran The great city of Yeddo was laid out daily as we were approaching home caused painluring our stay into interesting districts for ful forbodings lest some disaster had befallen the country we loved so well. The routes along which we were escorted mutterings in the south of the year before ere, as a rule, closely packed with natives, in the event of a certain election caused who were curious to see the white foreigner some anxiety, and the absence of vessels in for the first time in their lives. But in no regions where in years gone by they were nstance during these excursions was any as thick as the leaves in Vallombrosa was ncivitity or rudeness manifested, though on held by the older heads to be omniously all sides there was that natural curiosity to significant, but it was not until we reached get a closer look at the long-haired white the highlands of Cape Cod that we were to In this the pretty Japanese woman learn the full extent of the great calamity was, as a rule, more conspicuous than the that was upon us. The election we had held man, and I dare say there are many matrons on board the ship way off in the waters of iving now in Tokio who can remember a China, on the other side of the globe, was bright button conferred in response to some only the prelude of the more general one at home. As Mr. Lincoln was the choice of the majority of the officers and men of the frigate Niagara, so we were to learn subse-

The First News. discovered nearby, and the pilot put off in a seen that a firm resolve to stick loyally to boat with his pockets full, as is customarily done, of the latest papers. He was awaited with an impatience that seemed almost their souls, for almost immediately every painful, and the moment he had crossed the eye was turned upward toward the peak. rall and reached the gangway he was asked where the old flag was floating peacefully by the captain, dear old Commodore Mc- and majestically, and intuitively every head This duty performed, the Niagara pre- Kean, than in whom no more loyal heart was uncovered in homage. ever beat for the flag, this question:

"Pilot, what is the news?" The pilot, Doliver was his name, locked although there was considerable anxiety on | was quite old to him, and, instead of replysurprise

"Where in thunder have you come from,

'Ain't you heard nothing at all since sail-

"No," replied the captain. "Nothing at all, as we have touched nowhere since leav- those holding opposite views, a number of ing the Cape of Good Hope. There was no our officers decided to abandon the cause news there when we sailed."

Dolliver's reply to this assurance I shall never forget. It was as forcible as it was emphatic and as impressive as words could possibly make it, even if it was a little in-"Well, gentlemen, the country is all

An Excited Ship's Company. While this colloquy was going on between

the pilot and the captain the ship's company had crowded aft in both gangways and, like the officers, were intensely auxious to hear what the news might be. What Dolliver had said so emphatically had reached their ears and had touched their hearts. Tears started from eyes that were not accustomed to weeping and coursed down the checks When off the Highlands a pilot boat was of those bronzed old heroes. It could be the old flag that had floated in honor over their lives and fortunes had gone deep into

It was an experience never to be for- of liberty for those who follow them. gotten and the sight of those bronzed old heroes, with heads uncovered to the dear old around at all standing about the quarter- flag, taught my young heart in a few mo ments a whole volume of patriotism. I had fall election that had already taken place, for what he was about to tell us as news been born in a slave-holding state and had been reared surrounded by by colored chilboard among the officers and men, as our ing at once to this question, the pilot, as so dren and was influenced to some extent by complement included many from both sec- often happens, asked the captain with some the prejudices which the institution of slavery had engendered, but when it be came necessary to decide off Boston harbor whether the love of state was to be superior

when Pilot Dolliver came aboard. An Impressive Scene.

1.25

Reaching Boston harbor in the midst of deep excitement and deeper feelings among of the union for that of the confederacy then established. Those who were loyal were merely required to subscribe anew to their oath of allegiance. After carefully examining this new document it was not difficult to renew my allegiance at a moment when so many were abandoning our cause. The scene off the highlands when Delliver came on board had graven its impression

too surely upon my heart. Those uncovered heads, those tearful eyes, those loving, loyal looks of the faithful old bronzed faces, who had known no other love and who were too old then to begin anew, had fashioned my young fancies, too, and after I had renewed my allegiance in the cabin of the dear old commodere I looked up and found I had done so standing directly under a scuttle leading to the peop deck and directly under the folds of the old flag as it was gracefully unfolding itself to a light breeze, all the more dear to me now after the exposures we have undergone and the perils of service to which our lives have been devoted in helping others to uphold it the world over, for are to follow us in holding fast to the teachings of our fathers and, like them, to pre-

serve the inheritance of this blessed land

Detroit Journal: An instant later the storm burst upon them.
"Oh. Rose," he cried, "in this supreme noment will you not say you love me?"

"No," answered the brave girl, not forget-

trouble after the sight I had witnessed ful of her maidenly reserve. "For while the tempest howls through the rigging and the ship threatens to founder every moment, the waves do not as yet roll mountain high!" As for the man, such was his chagrin that he handn't the presence of mind to whistle
