HUGE IRON TRUST LAUNCHED Twenty-Nine Rolling Mill Plants Enter the Combine and Others Will Be Acoutred.

CLEVELAND, O., April 6 .- Upon the best of advice it may be said that the lose of this week or the first of next week at the latest will see the gigantic rolling mill trust just organized under the name of the Republic Iron and Steel company in full operation.

The Iron Trade Review, referring to the matter, says: The capital is \$55,000,000, of which \$25,000,000 is 7 per cent preferred and the rolling mill interests involved and by with which the proposition was originally plications for subscription rights.

. Twenty-nine rolling mill plants besides re properties and furnaces have been acquired. It is probable that six or eight other mills will be acquired later. The headquarters will be in Chicago, it now seems certain, though some idea was entertained of Cleveland for a time.

It is stated that the cash working capital of the new company will be \$6,500,990 and that all plants will be taken over free of debt. Of the preferred stock \$4,500,050 and of the common stock \$3,000,000 remains in the treasury. The prospectus estimates profits of \$3,500,000 on the properties thus far taken
