William J. Shallcross had for his subject lege, with T. A. Murphy as the delegate. "The Mission of War." His argument was that progress, civilization and liberty were preceded by war, but that while war has been necessary in the past the time was near at hand when it was to be supplanted by a more peaceful abitrament of differences.

Cromwell P. Kirby, in "The Anglo-Saxon -The Champion of the Highest Civilization." contended that the three elements of greatness in a nation were religious, intellectual and physical. These he held were essential to the achievement of the highest adapted to become the seat of power in the future for that race.
