\$25 and \$39 **Spring Jackets** Short, box front, tan covert. A jacket from residence on the bottom east of Riverview park that a roadway be provided for them through the park to enable them to get to the city was referred until the board members can look over the ground. The residents cannot drive toward the center of the city except by following a very roundabout way. Superintendent of Parks Adams was instructed to transplant from Brownville to this city all suitable trees that the park board owns at the former place. The city has some 40,000 trees, about one-half of which can be transplanted. The trees will be used along the boulevards and in the parks. Some of them may be offered for sale. The boulevards in Riverview park were reported to be in an unhealthy condition. An investigation will be made to learn whether the surrounding environments are sanitary; if they are, "Buffalo Bill" Cody, who owns the animals, will be advised to remove them.

A special meeting will be held Tuesday afternoon to adopt the ordinance declaring the necessity of condemning land for the Central boulevard from Hanson park to Twenty-seventh and Burr streets. The ordinance will be introduced in the council Tuesday evening. The special meeting yesterday was held for the purpose of considering this measure, but the ordinance had not been drawn up.

Wooden Sidewalk Construction. The Board of Public Works at its meeting yesterday afternoon awarded the contract for constructing wooden walks during the coming year to J. E. Knowles on the following bid, which was the lowest submitted: Four-foot walks, 21 cents per lineal foot; six-foot walks, 30 cents per lineal foot.

CLOSING UP THEIR AFFAIRS

Another Dividend Declared by Trans-Mississippi Exposition Directors.

ROCK ISLAND RAILROAD COMPANY'S CLAIM

Committee Has Been Appointed to Visit Company Officials and Endeavor to Bring About a Perfect Understanding.

At the meeting of the directory of the Trans-Mississippi and International Exposition yesterday afternoon, the payment of a 12 1/2 per cent dividend was ordered on the half-up stock of the association. When said, this will make a total of 87 1/2 per cent that the stockholders have disbursed to the stockholders who paid up on their stock. That they will receive more money is quite apparent, as quite a large sum remains in the treasury that is to be held as a reserve to use in the settlement of claims in the event that it becomes necessary to expend it for that purpose.

The dividend that has been declared will not be paid for some days, for the reason that it is not due until April 10, and again its payment is contingent upon the Greater America Exposition filing a bond as a guaranty that it will remove the buildings from the exposition grounds and fill up the lagoon on the main canal. The old exposition contracted to do this, but when the new company took possession of the property it agreed to enter into a bond with Herman Kountze, thus relieving the old exposition from liability. As yet this bond has not been accepted, owing to the fact that Mr. Kountze has been out of the city for some time and will not return until next week. Upon his return the matter will be disposed of and then the payment of the dividend will be made.

The Rock Island's Claim.

A majority of the directors of the exposition were present at the meeting yesterday afternoon and the first matter taken up was the claim of the Rock Island road. During the early part of 1898 this company sent a check for \$20,000 to the exposition treasury. At the time it was regarded as a donation and not a subscription. Subsequently the secretary of the exposition forwarded to the Rock Island company a stock certificate for the amount of money subscribed and now it seeks to secure the dividends, which aggregate 75 per cent, prior to the one ordered yesterday.

Wharton & Baird for the exposition submitted a legal opinion touching upon the legality of the claim made by the railroad company. They held that the money was turned over to the exposition, the railroad reserving the option to declare the payment a subscription to stock or a donation that by accepting the certificate sent by the secretary the railroad officials elected to regard the payment as a subscription and as such they had a right to participate in the dividends.

Mr. Hitchcock contended that the railroad company did not elect to choose between becoming a subscriber and a donor, as the certificate was sent by the secretary, who

acted without any authority in the premises, none of the officers of the association ever having authorized him to execute or send the stock certificate.

Mr. Webster referred to the fact that the Rock Island company had never asked for stock and that in falling so to do the presumption would be that the officers of the road regarded the money as a donation.

In disposing of the Rock Island matter, a committee consisting of Messrs. Wharton, Hitchcock, Lyman, Wilcox and Wilhelm was appointed to go to Chicago, visit the railroad officials and ascertain their views upon the subject and if possible endeavor to induce them to waive their claims to the dividends.

Dividend of 12 1/2 Per Cent.

Discussing the matter of declaring the dividend, Mr. Hitchcock moved that 12 1/2 per cent be paid upon the paid-up stock. Mr. Manderson moved as a substitute that only 10 per cent be ordered paid. He said that he understood that there are numerous claims for damages pending and that in his judgment it would be wise to have money on hand with which to settle if the claimants are successful.

Mr. Webster contended that so long as a large sum remains in the treasury there is an inducement for parties who imagine that they have grievances to bring suits. With this said out the proposition will be in a much better position to make settlement.

Mr. Rosewater produced figures to show that the amount of valid claims is not large and that all of them can be settled for at least \$15,000. In proof of this he cited instances showing that some suits had been settled, the parties claiming damages having accepted small sums in full settlement of their original demands. One party who claimed \$25,000 has taken \$1,250 and given a receipt in full, while another who originally wanted \$25,000 has accepted \$2,500 in full of all demands. His estimate was that the \$77,000 of claims can be settled in such a manner as to leave from \$7,000 to \$8,000 after paying them and the 12 1/2 per cent dividend.

A vote being taken, the proposition to pay the dividend heretofore mentioned was carried by a large majority.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of Dr. Williams' Little Early Risers, the famous Little Pills.

POLICEMEN GO ON PARADE

Inspection by Mayor Moores and the Other Police Commissioners, Who Are Well Pleased.

The entire police department was inspected yesterday afternoon by Mayor Moores and other members of the Fire and Police board. Commissioner Kennedy made his initial appearance and was introduced to his colleagues. The commissioners found the inspection very satisfactory and approved greatly pleased at the condition of the department.

The night and day shifts were lined up in the hall first and the roll called. The patrolmen looked neat, each having devoted some of his surplus muscle to polishing his shoes and brushing his uniform. Captain Her called the roll, fifty-three men responding to their names. The other members of the force were ill or out of the city on leaves of absence.

After the roll call the men were marched into the street where they were lined up by Sergeant Hayes. The board passed in front of the men, inspecting their uniforms and their arms. Secretary Davis took a list of what is needed for each man, as summer uniforms will be required by quite a number. Those who are not supplied with regulation weapons will be required to get them, as a list was also taken for that purpose.

A change from the drab helmets to dark blue will be made as soon as the new

helmets can be secured. Cloth will be ordered for the new uniforms at the same time and it is expected that the force will blossom like a rose on May 1.

Mayor Moores made the force a brief talk in which he complimented the men on their fine appearance. He urged them to take an interest in their work, keep their uniforms and themselves clean and neat at all times and to do all in their power to make the department a model. He advised them to inform themselves on the regulations governing the police department so that they may act intelligently whenever necessity requires anything unusual.

In addition to the new helmets the majority of the officers will get new buttons and have their stars placed. The new uniforms will be the regulation fatigue coat, the long overcoat being discarded.

Buckley's Astonish Price.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money returned. Price 25 cents per box. For sale by Kuhn & Co.

AMUSEMENTS...

As a romantic actor Robert Mantell ranks well up among the best in this line, but when he essays to do Shakespeare roles it is very much like a case of spilling a bucket of water over a pile of dynamite—a poor tragedy. This, however, must be taken only as an individual opinion, for the fair sized audience that attended the performance of "Hamlet" at Boyd's theater Friday evening, thus proving that Shakespeare is always and everywhere in this city, was liberal in its applause. However, if theatrical managers generally wish to draw large houses to patronize Shakespearean tragedies they must have them brilliantly interpreted. Mediocrity, however consistent and painstaking, will never be tolerated. The masterpieces of literature are not to be trifled with and there is ample justification for the playgoers who prefer the least pretensions of entertainment to a mediocre performance of the classics. Mr. Mantell will present only one new Shakespeare play during his present engagement. That will be "Romeo and Juliet" at the matinee today. This evening "Members" will be offered, while tomorrow he will also present romantic plays.

LOCAL BREVITIES.

Two colored men entered the Boston store and took two vests. One kept the clerk engaged while the other did the stealing.

At the regular meeting of the Primary Sunday School union tomorrow afternoon in the Y. M. C. A. parlors, Mrs. Wallace will be in charge of the lesson.

Orrville Carson of Fairmount, charged with selling liquor without first paying the government tax, and who has been in the city for some time, has been released from custody, he having given bonds to appear and await the action of the United States grand jury.

For a of the T. P. A. will meet this evening at the rooms of the Travelers' club in the Bee building to elect officers and complete arrangements for the entertainment of the state division, which will meet in this city Saturday, April 15, at the Commercial club. The state division will elect three delegates to the national convention, to be held in Louisville, Ky.

The experiment to be tried by the Board of Education in connection with the Ambler and Eckerman schools will go into effect Monday. On that date the latter school will be closed and the lower grades of both schools will be taught in the Ambler school. The higher grade pupils of both schools will be taught at the Windsor school, being transported to that house in a suitable vehicle.

PARK COMMISSIONERS MEET

Request for Captured Spanish Cannon for Park Ornaments.

PROPOSED CENTRAL BOULEVARD EXTENSION

Park Superintendent Adams is Instructed to Transplant All Suitable Trees Owned at Brownville by the Park Board.

The Board of Park Commissioners at a special meeting yesterday afternoon set about securing for park ornamentation some of the old Spanish cannon captured in Cuba during the late war. The United States owns over 200 of these ancient weapons, specimens of which were on exhibition in front of the Government building on the exposition grounds last summer, and cities all over the country are trying to get some of them.

Action in this direction was taken in the adoption of the following resolution: Resolved, That the Board of Park Commissioners respectfully and urgently request our representatives in congress, Senator Thurston and Representative Mercer, and especially the assistant secretary of war, Hon. George D. Meiklejohn, whom we have always found to be loyal to Omaha as the metropolis of his state, to secure for the Omaha parks at least three or four of the 319 cannon captured from the Spanish in the Santiago fight as memorial pieces for the patriotic influence that may be beneficial to future generations of loyal worshippers of our country and flag.

Captain Palmer introduced the resolution. He declared that Omaha had contributed enough as a soldier for the war and they have gained so much glory that their home was entitled to some of the trophies of the war. This sentiment was very heartily echoed by other members of the board and the resolution was therefore adopted without opposition.

Ask Extension of Central Boulevard.

Secretary Gillan of the Board of Education represented a committee from the Northwest Omaha Improvement club, appointed to induce the park board to extend at least one branch of the proposed Central boulevard from the present northern terminus at Twenty-seventh and Burr streets to Military avenue, taking in Bemis park on the way. The proposed route of this branch of the boulevard is westward along Burr to about Thirty-fourth, thence over to Bemis park and through it to Thirty-eighth, thence northward to Hamilton and along the latter street to Military avenue.

Mr. and Mrs. J. Thomsen and Mr. and Mrs. Ray Nye of Fremont are at the Her Grand, leaving home Thursday to hear DeLussan in "Carson."

Brigadier General Edwin V. Sumner, retired, lately commander of the Department of the Missouri, has gone to Denver, where he will reside for the present.

Philip Muller, general traveling agent for the fresh beef department of Armour & Co. of Kansas City, was a visitor at Army headquarters in this city today.

California Revenues Increase. SAN FRANCISCO, April 7.—Internal Revenue Collector Lynch reports the March collections for the northern district of California at \$270,251. The receipts for March, 1898, were \$144,386. The increase this year is due to the war tax and increase of business in California.

OUR SOLDIERS in the PHILIPPINES

YOU are proud of the fine fighting spirit shown by your Regulars and Volunteers in and around Manila in the last month. It is something to hear and read of it; it is far more to see, by means of photographs, the charging troops, the men on firing line, the batteries in action, the trenches, and the battle-fields with the American and Filipino dead as they fell. HARPERS WEEKLY, dated April 8, has 28 pages, 4 of which contain photographs (23 pictures) of these scenes. Buy it on the news-stand before you go home.

HARPER'S WEEKLY
