The enormous Increase in the production of gold within the last few years and the prisonment. prospects that the annual output of the mines of the world will increase for many years have served to convince many who formerly advocated remonetization of silver by an international agreement that such a step is unnecessary. George E. Roberts, director of the mint, whose official position gives much significance to what he says, says that he was formerly an advocate of an international agreement, but that in view of the great change in the situation, due to increased gold production, he did not believe that such an agreement was now possible because there was no longer necessity for it, and it would be impossible to interest

'The increase in gold production." he said, "is almost inconceivable. I have made a calculation based on the most reliable data obtainable which shows that by the year 1900 the annual production of gold alone in the world will equal the production of gold and silver combined in 1896. This means that by the time of the next presidential campaign gold alone will supply the volume of money that Mr. Bryan and his followers in the last campaign contended was necessary. This leaves the advocates of free coinage very little ground upon which

CONSPIRACY AGAINST QUAY

Defense Seeks to Prove Ex-Senator Victim of Enemies' Spite.

STORY OF REMOVAL OF THE "RED BOOK"

Receiver Barlow Details His Seizure of Documents, Acting Upon the Warning of an Unknown Adviser.

ex-Senator Quay today his lawyers began what is regarded as the all-important contention in their fight for his acquittal, namely, that the books of the broken Feele's bank are not competent testimony against the accused man and therefore should not be admitted in evidence. On deision of this point rests the entire fabric of the prosecution's case. Should Judge Biddle decide the point well taken the commonwealth's case will necessarily collapse. In order to secure the most effective presentation of this phase of the defense, Mr. Quay brought to his ald the skill of David K. Watson of Pittsburg, one of the ablest attorneys in Pennsylvania, and ranking, in fact, with the best in the country. Watson spoke on this subject for nearly two hours this afternoon and held the almost breathless attention of a room filled with the legal lights of the local and state bar. Many of these lawyers expressed the opinion that Mr. Watson made a very strong argument. What its effect will be upon the judge remains to be seen.

There was some with the amount of money loaned by the bank to Mr. Quay, and during the last twelve or fourteen years the amount paid to him nd other state treasurers on state deposits. Mr. Watson contended that the mere fact that bank clerks, with no personal knowledge of the truth of what they were writing, entered certain figures in a book, which figures purported to represent interest paid to Senator Quay, was no proof that the money had been received by him or that

health since I was first taken, At times I
was so bad that I could not wak, I procured a box of your Dr. Dix's Tonic Tableta
and they have perfectly restored me. My
wife was surprised at my getting all right
so rapidly, and she says that I can more at
one meal now than I did in six before. It
was your Dr. Dix's Tonic Tablets that did
it and I give them credit for it. I would
advise any sufferer to try them, and I wish
the public to know that I was in wretched
health and was permanently cured by this
valuable remedy. One box will sattery any
per on that the medicine is all that is
claimed for it. Yours very truly, H. G.

General Shafter Says Army Cannot Be Encumbered with Herds.

WASHINGTON, April 11 .- Captain Edward H. Plummer, aide-de-camp of General Shafter and brigade quartermaster during the Cuban campaign, was closely questioned by the court of inquiry today as to the facilities for getting supplies to the front, but his testimony in this respect developed nothing new. He said that the regimental and brigade quartermasters toward the close of the campaign generally requested bacon in preference to beef There were but two days, according to his have practically full field rations with the exception of potatoes and tomatoes. After the surrender when refrigerated beef was issued he said the only complaint he heard concerning the meat was from the Eighth Ohio. He had no personal knowledge, but
