RAISING OF SUGAR BEETS

This Industry Has Recently Received Quite a Boom in Pottawattamie County.

FARMERS BECOMING RATHER ENTHUSIASTIC

Encouraged by a Representative of the Standard Beet Sugar Company of Ames, Nebraska—Talk About a Factory.

The prospects for sugar beet culture becoming one of the thriving industries of the city and its immediate vicinity are excellent. The visit to this city of the representative of the Standard Beet Sugar Company of Ames, Neb., for the purpose of convincing the farmers...

The matter has been taken up by the Merchants and Manufacturers' association with the ultimate prospect of securing a sugar factory for this city or in the immediate vicinity. At a meeting of the executive committee of the association held Saturday night it was announced that already more than 100 acres of beets have been promised and the prospects are excellent for nearly 200 acres more.

The business men are interested in the project and a number of them will, it is said, secure ground, furnish the capital and hire the work done with a view to making a complete test of the suitability of the soil of Pottawattamie county for the cultivation of sugar producing beets. It is calculated that if the crop this year, with a local acreage of 200 acres, proves as successful as former experiments indicate, there will be an increase in the acreage planted next year and each succeeding year...

Practical Demonstration. It has been demonstrated that sugar beets giving the required percentage of sugar can be grown in this vicinity at a profit that would pay the farmers to undertake their culture. The main reason why the farmers of this vicinity are slow to take up the growing of beets is because they were unacquainted with the method of cultivation and also because the raising of sugar beets requires more work than other crops.

H. C. Graves & Sons of this city experimenters in raising beets, have planted 415 acres. At that time they labored under many disadvantages and had to ship their product to the factory at Norfolk, which materially decreased their profits on account of the cost of freight. Their crop, however, netted them a profit of \$1,027.46, or \$2.58 per acre. They figured that the crop could have been handled by a local factory their profit would have been increased \$1,068.53, which they claim was their loss in freight and shrinkage.

For Iowa and Missouri—Warmer Monday, with probably showers and thunder storms late in the day; high southerly winds; fair and cooler Tuesday.

For Colorado and Wyoming—Fair and colder Monday; high westerly winds; fair and warmer Tuesday.

General—The temperature will moderate rapidly over the eastern and southern sections Monday and Tuesday, and in the upper Mississippi, middle and lower Missouri valleys and western lake regions thunder storms are likely to occur Monday and Tuesday night. Along the Atlantic coast northwesterly wind will diminish in force.

Board of Education Will Tackle the Question Again Tonight. The Board of Education will hold its regular monthly meeting this evening and it was stated yesterday that the High school site question would be brought up again and that a final settlement of the matter may be looked for. One of the members yesterday said he believed it was the wish of the board to make a selection without further delay, so that the architects could go ahead and prepare their plans. When asked what site he thought would be selected he said he could not tell, but was of the opinion that a majority of the members had come to the conclusion that the Oakland avenue tract was the best adapted of all the sites so far offered.

In the last few days, he said, a number of prominent business men and others, who at first were in favor of locating the new school south of Broadway, had changed their minds and now favored placing the school on Oakland avenue.

A number of residents of the Fourth ward, who have been so anxious to have the High School located in that ward, have now expressed themselves as being in favor of the school being built on Oakland avenue.

William Underwood, who signed a petition for one of the other sites, has in the meantime changed his mind and says Oakland avenue is the spot where the school should be built.

S. G. Underwood says the school should be built on Oakland avenue.

Dr. Macrae, whose property interests lie on Fifth avenue and who lives in the Fourth ward, says the Oakland avenue site is the one.

S. B. Wadsworth, another resident of the Fourth ward, says: "Oakland avenue is the proper place for the board to build the school. The site is the finest location in the city and easiest of access for the majority of the pupils."

Samuel Haas, in expressing his opinion, said: "The Oakland avenue tract is evidently intended for the purpose and the board should not dally with the question any longer, but decide to place the school there."

John N. Baldwin has also expressed himself in favor of the Oakland avenue site.

Ed Gilbert, whose residence is on First avenue, says: "Oakland avenue is my choice for a site."

J. P. Weaver says if for no other reason the board ought to select Oakland avenue as affording a splendid foundation for a large building, which the properties offered in the Fourth ward do not.

Oscar Keeling is in favor of the Oakland property and says it is the right site for the new High school.

These are but a small number of prominent business men living south of Broadway who believe the school should be placed on Oakland avenue.

RAIIONS FOR PORTO RICANS

War Department Cautions Authorities About Exercising Discretion.

AID ONLY FOR THE NEEDY UNEMPLOYED

Habit of Delegations Journeying to San Juan to Present Grievances is Discouraged—Beneficial Reports of Troubles to Island.

(Correspondence of the Associated Press.) SAN JUAN, Porto Rico, April 16.—The following general order from the headquarters of the Department of Porto Rico was issued today:

"The War Department having forbidden the issue of rations to Porto Ricans, commanding officers of posts are authorized to prevent suffering among the people in their respective localities, to purchase necessary articles of food at a rate not to exceed one cent a day for each needy person and to send him for the same to the office far as the court to assist him in complying with his request. This is imperative. He does not need the aid of the court to enable him to give the name of his friend and he knows perfectly well that the supreme court will not enter upon a wild goose chase to aid his cheap ambition for notoriety. He does not need a bribe to get a trial. He is, however, originally put in the case when he is false, and he knew perfectly well, whoever his friend was, and whatever may have transpired between them, that he was not being offered a bribe and that his friend had no authority to speak for the Standard Oil company."

RAID OF MOUNTED BANDITS

Plunder House of Cuban Plantation, Rob the Owner, Burn Two Houses and Shoot Into Dancing Party.

HAVANA, April 16.—News has been received from Mariano that twelve or fifteen mounted bandits raided the Vinales plantation, owned by Senora Pulera, ten miles from Havana, at twilight yesterday and took \$100 in silver from the owner's residence and afterward burned the house of the overseer and a warehouse containing \$5,000 worth of tobacco. The bandits then rode into Calmito, where they plundered two dwellings and then went to a third, where a dance was in progress.

The raiders fired a volley at close range, killing a Cuban captain and one soldier and one man in the house and wounding a sergeant and another soldier and two other men who were inside the building. The bandits then galloped away.

Some of the results of neglected dyspeptic conditions of the stomach are cancer, consumption, heart disease and epilepsy. Kodol Dyspeptic Cure prevents all this by effecting a quick cure in all cases of dyspepsia.

TODAY'S WEATHER FORECAST

Showers and Probably Thunderstorms Tonight; Cooler with West to Southerly Winds.

WASHINGTON, April 16.—Forecast for Monday:

For Nebraska and Kansas—Showers and probably thunder storms, followed by fair and cooler Monday; high southerly shifting to westerly winds, fair Tuesday.

For Iowa and Missouri—Warmer Monday, with probably showers and thunder storms late in the day; high southerly winds; fair and cooler Tuesday.

For Colorado and Wyoming—Fair and colder Monday; high westerly winds; fair and warmer Tuesday.

General—The temperature will moderate rapidly over the eastern and southern sections Monday and Tuesday, and in the upper Mississippi, middle and lower Missouri valleys and western lake regions thunder storms are likely to occur Monday and Tuesday night. Along the Atlantic coast northwesterly wind will diminish in force.
