NEW FIELD FOR LABORERS

Armies of Men Employed Constructing Railroads in the West.

Good Wages Paid by Contractors, Who Are Pushing Construction of New Lines in the Western Country.

Every day from twenty-five to fifty laborers are carried out of Omaha for railroad work in western Nebraska and Wyoming, but that is only the forerunner of the movement which will begin the first of next month. The proprietor of one of the labor agencies in this city says that he alone will the South Plante country and in the north-send between 500 and 600 men every week ern part of the state for the eastern half of after May 1. These laborers are sent to Nebraska. different localities where railroad construction is under way. They go on the Burlington to Alliance and to Wyoming points to and on the Union Pacific to North Platte, Lexington and to Wyoming. Some also are sent north on the Rock Island to places

where that road is building new lines. The principal demand for laborers, according to the representative of the agency mentioned comes from the railroad construction in western Nebraska and Wyoming. The elevation there is so much greater than in this section and the weather so much ments colder that work on the various contracts is pushed. weather is expected to be more favorable for grading and it is predicted that there will for putting on a new ceiling and laying a be a demand for all the laborers who can be new floor. shipped out there.

The wages for this work are \$1.75 and \$1.85 a day and laborers are charged \$4.50 a week for board. A small per cent is also de-\$22.50 a month and are furnished their day at board.

Good Demand for Labor.

"The demand for common laborers this spring," said the agency man, "is greater than it has been in fifteen years. We have than it has been in fifteen years. We have Mr. Hugh Stanton and Florence Modena i had a long experience in this business, and one of the most original and divertin do not recall a time when there was so sketches to be found in the vaudeville much work offered the unskilled toller. realm. The comedy musical act of Water During the last few years there was so lit-tle railroad work in the west that the ter-ritory had been abandoned by that element of the population which had depended upon that performance only Charles S. Higgins that class of employment for support. These the young violin virtuoso of this city, wi applying for work in the west now are new appear in several popular and classic s men and many of them are attracted by a tions. Next week another Omaha artist wil desire to see the country. We can give them be seen in the person of little Beth, the employment at better terms in Iowa and singing and contortion dancer, who is a gen-Wisconsin than in Nebraska and Wyoming, eral favorite among a wide circle of acbut they prefer the latter because they have quaintances in the city. not been that far west.

"Omaha will this summer be a center for men we send to Wyoming cannot stand the tract is finished. When the movement once sets in in earnest, every train to the far west will carry its carload of laborers. What this means to the business of the western country can easily be understood."

WESTERN TOWNS HAVE BOOMS. Prospect of New Railroads Buoys Up

the Hopes of the People. inspiration for news in the new era of railroad building in those sections. It is diffimetropolitan airs.

parties. When one gang leaves another of excitement at the scorching point. Brush, Colo., just across the Nebraska boundary, already has the Burlington main line and the branch to extend to Deadwood, which the branch to extend to Deadwood, which will have its southern terminus at this point, is leading the people there to forget their men's and boys' shirts. The finest line even men's and boys' shirts. 500 population and figure on the 5,000 which shown in Omaha. Every style of shirt made they soon expect to count. Their hopes are All the newest patterns out for sustained by the recent action of the town- be seen in window at HAYDEN BROS. site company in doubling the price of its lots at Brush. Other towns in that section are having a similar experience.

Best line to south to the people there and a new life to the and east. No bus transfers in St. Louis

from Chicago to San Francisco.

Headquarters of the Transcontinental Freight bureau, which have long been at Chicago, may within a few weeks be transferred to San Francisco. The Southern Pacific and the Santa Fe lines are behind the read 1/2-1b. box. movement. The bureau is made up of the lines west of the Missouri river, and the two roads mentioned have a large share of the transcontinental business. It is held by nil concerned to have the headquarters at San Francisco, the objective point of the the removal.

The bureau is the agency through which all the transcontinental lines issue their freight rates. All of the transcontinental freight tariffs and amendments to tariffs for the lines west of the Missouri river are issued by the bureau under the direction of Commissioner R. H. Countiss. All questions of divisions between the lines are adjusted through the agency of the bureau, and the bureau transacts a vast amount of business relating to transcontinental freight matters, in which several lines are interested. Another point made in favor of removal will be the vast amount of telegraph tolls saved by the roads between San Prantiles. tolls saved by the roads between San Francisco and Chicago.

Railroads Getting Together.

CHICAGO, April 26.—A large represen-tation of western roads attended a mass meeting here today to discuss the question of reorganization and all were confident that a successful settlement would be reached as already enough roads stand pledged to carry a project of some kind through. It is proposed to make the new agreement much stronger than the old one.

Another Round on Rate Question. J. R. Buchanan, general passenger agent for the Elkhorn, and A. B. Smith, assistant general passenger agent for the Burlington, have gone to Chicago to attend a meeting of the Western Passenger association. At this meeting the "steenth" attempt will be made to perfect a new agreement upon which to launch the association into another sea of usefulness. The success of the luterstate Commerce commission in lining up the western roads on their freight tariff sheets has encouraged the backers of the association to believe the

time ripe for a similar union of forces in SHOE SALE BEGINS TODAY passenger business. Unmindful of the many dejeats which have met their efforts in the post, the call for the present mosting expresses the utmost hope that the asociation will now be reorganized and, the couple in the passenger field come to an end. Individual members of the association are not so confident as the managers of the PLENTY OF WORK FOR ALL WHO APPLY association, and predict another failure.

> Railway Notes and Personals. B. T. White, general attorney for the Elk-horn, has sone to Chicago.

M. S. Rebinson of Chicago, general agent for the Eric road, is in Omaha. E. M. Collins of Quincy, chief engineer for the northern lines of the Port Arthur sys-tem, is in the city.

J. H. O'Neill of Portland, traveling passen-

ger agent for the Oregon Railway & Navi-gation company, is in the city on official business and also to visit old friends. The rain resterday is reported at the railroad offices to have been general over
