CURES WITHOUT PAIN.

One of the Best Treatments of the New Pile Cure. The Pyramid Pile Cure cures all forms of piles without a particle of pain. This desirable point is not obtained by the use of ingenious operations, but is achieved by relaxing the nerves of the parts and making matters worse in the long run. But it is done solely by its remarkable healing and soothing effects.

And while it thus gives immediate relief, at the same time the disease is not merely checked, but a radical cure is accomplished. And the point we want to make clear is that all this is done without a particle of pain.

This fact is one great reason for the popularity of the Pyramid Pile Cure and constitutes one very great difference between it and almost any other treatment of piles. Every kind of surgical operation for piles is excruciatingly painful, besides endangering the life of the patient, and in most cases is not to be compared with the Pyramid Pile Cure, neither in making successful cures without pain nor in cheapness and safety.

The Pyramid Pile Cure has been before the public so long, and its merits are recognized by so many people to allow it to be classed with the many saline, suppository and other cures without pain nor in cheapness and safety.
