several years. Only a few days ago it was mentioned in The Bee that the Union Pacific manarers were seeking to pre-empt a canyon in eastern Wyoming which it is said offered the only inlet to the coal fields which both roads were anxious to reach. Whatever the result of this effort, it is not believed it will prevent each of the roads in com-

pleting its line according to plans. The second extension which it is alleged the Union Pacific will construct will be the continuation of the Black Hills line, the present terminue being at Callaway. This will take nearly a westerly course from Callaway and connect at some point on the line to be built into Wyoming from North Platte, tapping a large section of country which is now without railroad facilities, The third line, which, while not yet post

tively decided upon, will probably be constructed while the building mood is on. It nishing with the Elkhorn connection at the latter place, a reasonably direct line between Denver and the Black Hills country. This will also be a responsive enterprise to the Burlington's new line which has the of the three which cannot be said to have been contemplated by the Union Pacific for each. years past. The two first mentioned are together with interesting statistics. natural extensions of that system, and might been for the years of general depression, and the financial embarrassment of the Burlington to build a line into what has been considered exclusively Union Pacific pose. territory which it is said prompts the latter road to contemplate the branch from Sidney to Chadron, crossing a portion of the Burlington's field.

ORGANIZE. TO BUILD A RAILROAD. Incorporators Are All Attaches of the

Burlington General Offices. Articles of incorporation have been filed in Colorado for the Denver & Montana Railroad company. The incorporators are all attaches of the Burlington general offices in this city. The capital stock is given at \$1,000,000. The purpose of the incorporation, as set forth in the articles, is to construct a line of road from Brush, Colo., to Alliance, Neb., which is simply a further confirmation of the statement that the Burlington will connect the Black Hills with Denver by its own lines. It will connect at a point about forty miles south of Alliance with the branch to be built from that place south and west into Wyoming. It will enable trains to be operated from any point on the Burlington system west of Lincoln to the Black Hills and to Montana points with out doubling back to make connections. It is understood work on this branch will be taken up at once and prosecuted at the same time with the contracts on the Wyoming ex-

NEW MOVE IN GULF RECEIVERSHIP. Suit in the State Courts Dismissed-

Lets Out Old Receivers. KANSAS CITY, April 27 .- Today befor Judges Thayer and Phillips of the United States circuit court J. McD. Trimble, general counselor for the Kansas City, Pittsburg & Gulf railroad, made a surprising move by resigning as one of the receivers, withdrawing the motion to have the case remanded to the state court and dismissing the suit in the state court by virtue of which Judge Gibson appointed Robert Gillham, E. L. Martin and J. McD. Trimble receivers. The last move nullified the action of Judge Gibson and left the case in the hands of the two federal judges to appoint whom they please as receivers. The suit of the State Trust company of New York to foreclose the \$23.-000,000 mortgage still stands on the federal court docket

Today's action is in the nature of a com promise between the eastern and western interests of the road, but it is said each side will fight for a majority of the two receivers which the court will appoint

Railway Notes and Personals. J. A. Kuhn, general agent for the Northwestern here, is at Fremont. Hans Westgard, traveling passenger agent

for the American line of steamships, is in E. C. Harris of Cheyenne, superintendent of the Union Pacific at that point, is in Omalia. Mrs. Harris accompanies him.

Chief Engineer Berry of the Union Pa-cific has returned from a western trip, where he was inspecting the work being done by the army of engineers employed by the road in making new surveys.

PUSHING BOULEVARD PLANS Ordinance Providing for Condemna

tion Proceedings to Come

Up Tuesday Night. The final act in the condemnation of the land needed for the houlevard which will connect Hanscom and Riverview parks is near at hand and work on the parkway is expected to commence in the course of a few weeks. Next to the final stage was reached when the plan of assessment of taxes for the boulevard was introduced in the council at its last meeting. This ordinance is expected

to be passed on its third reading next Tuesday night. According to the usual procedure, the city would be unable to secure possession of the condomned land until the taxes levied as benefits had been paid into the city treasury and the money could be tendered to the property owners adjudged to have been damaged by the condemnation proceedings. The South Side Improvement club and the park commissioners, however, will try to get

around this requirement. "We are trying to get the property owners to waive a tender of the prepayment of damages," says Park Commissioner Cornish. 'As soon as the levy ordinance is passed on its third reading, we shall try to induce them to accept warrants drawn against the levy instead of the actual cash. If such ten-

ders of warrants are accepted we can secure possession of the condemned property at once and commence work upon the boule We will employ this plan upon such portions of the boulevard where no streets exist, as it is the purpose of the park board to have the parkway open between the two parks as speedly as possible, making it practicable for driving even if it is not im

Farewell Dinner to Mr. Gregory. At the complimentary dinner to Frank I Gregory Wednesday evening in the banquet room of the Iler Grand hotel, seventeen of his best and oldest friends met to give a farewell testimonial of their friendship. The dinner was to observe Mr. Gregory's rmanent removal from this city to St Paul and nothing that would make the ocmemorable was left undone. Flowers in profusion covered the table. At the plate of each guest was laid a boutonniere and every available space was occupied by cut glass vases containing huge clusters of long-stemed Dewey roses. Announcements. of his friends and those acquainted with his ability as a master of the violin. This is a special feature in addition to the regular bill and Mr. Higgins will be heard tonight only. Miss Daisy Higgins, a sister of the young artist, will play the accompaniments. The bill in addition abounds in admirable pecialties. Mr. and Mrs. Hugh Stanton are winning golden opinions for their presenta-tion of the satirical comedy, "For Reform." Waterbury Brothers and Tenney are musical artists of great abilty. In the farcical sketch, "Casey and the Tramp," Wilson and Halpin have proved themselves delightful

"Jane," "The Masked Baft," and 'Charlie's Aunt" were all certainly remarkably amusing and successful farce but Mr. Charles Frohman, who produced them all, declares that "On and Off." which has been running at the Madi-son Square theater all winter, and will be seen at Boyd's tonight, tomorrow night and Saturday matines, surpasses them all in real merit, and the public seems disposed to agree with him. It has the great advantage over its predecessors that the interest grows teadily throughout the evening, so that the last act is by far the best of the three Veteran playgoers who have seen "On and Off" several times declare that it is worth while to see the last act, if only to watch the audience enjoy it. E. M. Holland, Fritz Williams and Eleie Tittle are certainly guarantees that the show will be exception ally well produced.
