General Luna of the Filipino Forces Succeeds in Bracing Up His Followers.

MANILA, April 28.-11:45 a. m.-Yesterday furnished added proof that the United States troops have a fear of bushwhacking that is above their fear o battles. The Washington regiment, which is holding Taguig with three companies of the Twelfth regulars, engaged a large foreof insurgents in a fight in the jungle. The

Americans lost two killed and ten wounded. The Filipinos have been massing at the mouth of the Pasig river, and it is estimated that there are 2,000 of them now there. They have mounted two guns-one a three-inch Krupp-and have thrown a number of shells into the American lines. The gunboat Napidan, which is guarding the entrance to the river, shelled a launch which was carrying supplies.

Yesterday a large force of rebels apauthoritatively on the subject of their erproached the town, seemingly bent on luring the Americans from Calumpit. Three com-Otis. panies of the Washington troops sallied forth and attacked the natives and found that they had their hands full. Two other companies of the Washingtons and three of the Twelfth regulars reinforced them and drove back the enemy, who removed their dea war d wounded as they retired, as usual. 8:20 a, m .- At Calumpit for the first time a large body of Filipinos attempted to face the Americans in open ground. The Fillpinos in the trenches were dispersed after making a ridiculously feeble resistance, but General Luna's brigade came upon the field from Macabeles on the doublequick and two regiments preserving a perfect formation, The Americans from the south bank of the river, which is higher than the north bank, could see General Luna mounted on a black e, galloping frantically along the lines and apparently exhorting his followers to make a stand. He finally succeeded in getting them spread in an extended line of palace. battle, which would have done credit to a tivilized army. But when the American bullets showered thickly among them, stirring clouds of dust from the sandy soil, the Filipinos again showed that no amount of drilling could fortify them sufficiently to make them face the American rifles and their train puffed up the track with its load of dead and wounded in plain sight of the Americans, who were entering the town so closely that the rebels barely slipped out of their victors' hands. The Montana regiment ment is that it is impossible to arrange an made a rush to capture the train, running armistice without the sanction of the conup the track, yelling shrilly, and even dropping their guns in the pursuit, but the engine backed off hastily, leaving the bodies could make war without the congress he of six warriors to their enemy. Three Filipinos who came to meet the conquerors hearing a white flag de- that they are shrewder than white men in clared heartily that they were sick of diplomacy, as the Malays are credited with fighting, adding that food was very short being. in their camps. They ate the army rations given to them with an them with an eagerness that testified to the truth of the dissensions. There is a suspicion that it latter statement. One who had been was hoped by means of a conference to asseverely wounded dragged himself alter his comrades, showing remarkable nerve. Fifty Americans were overcome by the tinuing the war, an armistice would afford heat and Colonel Funston dropped utteriy them an opportunity for recuperating their exhausted after the battle. The men of the demoralized forces. Kansas regiment cheered him craslly when he went among them. Last night the fames Aguinaido's scheme that only sixty of the of burning villages and scattered huts gave 300 members of the Filipino congress have the horizon a glow as of sunset and the taken the oath of allegiance which their crackling of the bamboos as they caught fire sounded like musketry in battle. If the American troops were not fighting the heat as well as the rebels they might

Control is Necessary-Brigandage Reported in Several of the Provinces. HAVANA, April 28 .- The attitude of Genral Maximo Gomez toward the "intervening power," as he calls the United States, auses a lively controversy among poliiclans here and even among his friends La Discussion and El Reconcentrado treat him as an aily of the United States and refer to him as a "traitor to the cause of Cuban independence." La Lucha and La Patria view him as a consistent leader of the Cuban people. From time to time copies

of his private correspondence, embodying illusions to public business, are supplied to the press and afford material for speculation and argument regarding his real position and purpose. For instance, one of the papers today publishes extracts from a letter Gomez recently wrote to Redolfo Menendez of Merida, Yucatan, in the course of which he said: "My energy, my strength and all my prestige I am giving here in my devotion to the cause of independence for this heroic country, and I devote myself especially to the labor in concert with the

provisional government which attends and serves the country.' A member of his household has given the following explanation of the position of "Of course General Gomez con-Gomez: tinues to favor, as he always has favored, ultimate independence; but he considers a period of American control as a logical

preparation for that independence. Therefore he wishes to co-operate with the Americans without reservation in disbanding the troops and in quieting and reconstructing the country. He cannot tell how long this period should be, but he would probably have issued a statement, declaring his formal support of the American provisional control, if the recent severe attacks upon his views had not been made." The report that General Gomez is drawng up a proposal for the organization of Cuban militia is not verified by him.

Reducing Taxation.

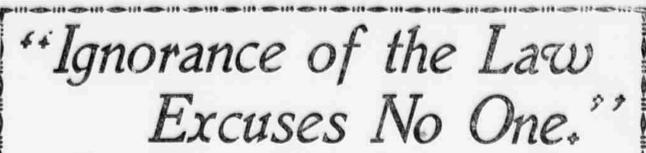

General Brooke today issued a decree reducing the taxes on mortgages, deeds, bequests and inheritances 50 per cent and in some instances to one-third the original amount

Dr. Armstrong, chief surgeon at the city of Puerto Principe, telegraphs that no new ases of typhoid fever have developed among he United States troops there and that the convalescents are doing well.

General Gomez and the consulting comnittee, or junta of Cuban generals, are pushing their inquiries in the work of verifying the Cuban army rolls, and it is now believed that the final list will not include more than 28,000 names. The lists will probably be ready before the arrival of Major Francis Dodge of the pay departnent, who will distribute the \$3,000,000. La Lucha publishés a telegram from Sancti Spiritus describing the conditions

here as most deplorable. The correspondent says citizens can get neither food nor work and that thousands are applying daily for assistance to the municipal authorities La Lucha suggests cleaning and paving the streets of Sancti Spiritus as one way

providing employment. The temperature in Havana at 3 o'clock this afternoon was 80 degrees Fahrenheit La Lucha publishes a dispatch from Holguin, province of Santiago de Cuba, reporting that bandits yesterday sacked the vil-

This maxim applies with especial force to ignorance of the laws of health. Every man and every woman of intelligence knows that the blood reaches the remotest part of the human body. If there is a disturbance anywhere, why should one ignorantly suppose that the seat of the malady is local?

Is it not more rational to suppose that the impure condition of the blood is doing the mischief?

If your "life blood" is pure, Dame Nature will take care of the rest. Hood's Sarsaparilla enables you to cleanse your blood of all impurities and make it strong and wholesome.

Now, TODAY, is the time to take it, because now, in Spring, is the time when you are most susceptible to benefit from medicine.

s Sarsaparilla Spring It ls America's Greatest Medicine, Cures All Ages and Both Sexes. Hood's Pills cure liver ills; the non-irritating and only cathartic to take with Hood's Sarsaparilla, the Best Spring Medicine Money can Buy.

FEMALE MAIL.

That sounds more contradictory than it is, when attention is called to its being a description of the largest mail received by any man in the United States exclusively from women. This "female mail" is received by Dr. R. V. Pierce, the celebrated specialist in women's diseases, chief consulting physician to the Inva-lids' Hotel and Surgical Institute, Buffalo, N. Y.

It is only fair to say that it is not the man that women write to, but the doctor, One of the remarkable features of this correspondence is that years after a cure has been effected, grateful women continue to write to Dr. Pierce, being thankful for health and for the kind and fatherly advice, which was blended with the physician's counsel, and which was so helpful in preserving the health when

regained. The offer of a free consultation by let-ter is extended by Dr. Pierce to every sick and ailing woman. Every letter received is read in private, answered in private and its contents treated as a sacred confidence. To exclude any third party from the correspondence, all answers are mailed in a plain envelope, bearing upon it uo printing or advertising Address Dr. R. V. Pierce, whatever. Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription, the great remedy for female troubles, irregularities, debilitating drains, inflammation and ulceration, is for sale by all dealers in medicine. Accept no substitute which may be recommended as "just as good " that the dealer may make a little extra profit.

Dr. Pierce's Favorite Prescription makes Weak Women Strong and Sick Women Well.
