SKLIRIS DENIES THE CHARGE

Candy Manufacturer Insists that He and His Partner Did Not Assault a Woman.

Leon Skliris, charged with assault by a woman formerly employed by him and his partner, Louis Condras, has been released on bail. Both men insist that there are no grounds for the prosecution which can be explained by them only on the theory that it is intended to injure their business as a means of revenge for the woman's discharge. The men are Greeks, proprietors of a fruit and confectionery store on Sixteenth street. Skliris explains that at the time of the alleged assault they were enjoying with their lunch a bottle of wine sent to them from Greece. The girl was given a cup to taste and the only exercise of force was to prevent her from going out on the street under the influence of liquor, as she was apparently affected by it, although the quantity drank was small. When Skliris was arrested some of his friends informed Condras that the police were after him also and this information so frightened the man that he has since hidden himself.

Sklirls is a young man who left Omaha during the Graeco-Turkish war to fight for his country. He returned only a short time ago. Skliris says he never was in St. Louis so that the story about his having been in the same trouble there is entirely fic-

WANTED HIS TEETH FILLED

Strange Conduct of a Visitor in Dental Office-Will Be Examined for Insanity,

While suffering from temporary aberration on Sunday Henry Teden entered the office of Dr. Mason, 304 Brown block, and demanded to have his teeth filled. The doctor argued with him for some time and then called the police, who took Teden to the station.

Teden visited the dentist last week and had an examination made of his teeth. When this was concluded he paid \$1 on the work and was told to return in a few days. Sunday about noon he went to the office and asked to have the work done. Dr. Mason told him it was impossible for him to attend to it at that time. Teden would not accept a negative answer and prepared for an extended stay. He removed his shoes and the greater part of his clothing. Protestation from the dentist falled and so the police were notified. On their arrival Teden was induced to accompany them. Upon going out on the street to the wagon Teden insisted upon taking charge of Officer Vancus, whom he commanded to get into the vehicle. The officer induced him to climb in first and soon conveyed him to the station. He will be examined by the city physician, as it is believed he is insane. He would not tell the home is in the office of the dentist, where he proposed to sleep.

WANTS TO BE ENUMERATOR

Member of Board of Education Will Be Given Such a Position "to Harmonize Things."

The principal business of tonight's school board meeting, outside of passing upon the plans for the new High school building, will be the deciding of the list of school census enumerators. It is understood among the members that a combination has been formed to put through a list already made up and that one of the members of the Board of Education is going to vote himself into a census enumerator position. While there is a general feeling against allowing any members of the board to draw money out of the treasury, whether for services as census enumerators or otherwise, in order to make the slate go through his appointment will probably be accepted. It is also stated that this school hoard member wishes to secure a district that would otherwise be given to two enumerators.

May Festival. The third annual May festival, under the direction of Prof. Adolf Edgren, was given in Washington hall last night before an audience numbering nearly 300. There were other musical organizations which entertained the audi-ence, among them being the Jenny Lind quartet, the Freja Male quintet and a chorus of mixed voices. Mayor Frank E.
