Ruling Passion in America.

"But it must be confessed the money-
getting spirit is still prevalent in this coun-
try and it is not diminishing. It is still
the ruling passion in America. And it is
coming to be an ambition not strictly to
earn money, but rather to get it by some
shorter method than by plodding to earn it.
To make money does not always mean
the same thing as to earn money. To work
for fixed wages or fixed salaries does not
give one a prospect of becoming rich. To
become wealthy requires us to have more
than merely a comfortable living. We are
a people are bent on being rich and the
method is for fortuitous investments or by
enterprises that yield large pecuniary re-
turns. This is the craze among the people
of today, as illustrated in the Klondike
Klondike, the drift toward the larger cities,
real estate booms in smaller cities and gold
mining investments, in which men usually
pay their money and get their experience.
The enterprise that has 'money in it' is
the thing almost universally sought after.
Every one is kept on fire with the desire
to be rich with wealth not exactly earned,
but got. Multitudes are racking their brains
to devise some way of getting money into
their pockets, honestly in the main, but
quickly at any rate. And those who have
succeeded in becoming wealthy are putting
their heads and their wealth together in
such combinations that they can continue
acquiring riches indefinitely by strangling
ambitious beginners who wish to start along
the same road. Some idea of the extent
to which these combinations are being
formed may be obtained from the fact that
the amount of capital organized into 'trusts'
during the last month of March was over
\$1,000,000,000, as much as in the two months
preceding, and as much as in the whole
of the year 1888. This means the threat-
ening of smaller enterprises of the same kind.
It means the retarding of great and
prosperous industries in the hands of a
few."

"It is maintained by some that the gam-
bling habit is incurable and certainly the
speculating spirit seems to be very akin
to it in respect at least. It is hard
to give it up. To give oneself up to the
ambition to be rich is to expose oneself
to temptations which very few are able
to successfully resist. Other things are al-
ways satisfied to the ruling passion of one's
life and if the ruling passion is money-get-
ting then the risk to the man's own deeper
needs and his larger success from the
Christian standpoint is perilous.

"This passion gives the tint to the eyes,
the bias to the mind and the warp to the
conscience. Things are not seen just ac-
curately. They tell me it is very hard to
do business successfully with strict hon-
esty in these times. It is confessed by
some that some measure of sharp practice
is necessary to meet an unscrupulous com-
petitor."

"The pursuit of wealth then, as a dom-
inant ambition, even on a good and hon-
orable basis must still impoverish the life
of the administration of sympathy and kind
attention with which the Christian-like life
must abound. To become rich one must at
the best adhere to common business prin-
ciples, and that means preserving your cap-
ital intact and increasing it as rapidly as
possible, which is just what we mean by
hoarding. And then, having once succeeded,
in order to remain rich, he must steel himself
against the appeals that constantly come,
must keep himself largely from contact
with the world's needs. Very few peo-
ple can have money without loving it. It is
this quality of money that makes it so ex-
ceedingly dangerous."

Helsell Aspires to Judgeship.

SAC CITY, Ia., April 30.—(Special)—
W. A. Helsell of Oeloholt, it is said, is
aspiring to succeed Judge Shiras of the federal
bench of the northern district of Iowa. It
is reported that Circuit Judge Caldwell may
retire from the bench and in case he does
the rumor has it that Judge Shiras will suc-
ceed to the circuit bench. W. A. Helsell is
an able lawyer of the Sac county bar and his
position for the position of federal judge is
unquestioned.
