NOT ALL TRUTH IN THE CHURCH

a falling off of 22,000,000 gallons in the shipments from a corresponding period of last year. This fact, coupled with the shipments for 1898, which showed a falling off of over 20,000,000 gallons compared with 1897, has caused some alarm in shipping circles, and expression is given to the belief that Borneau oil is being brought into direct competition in the far east with the products of the domestic market. The statement is made among oil men that until 1898, when the Borean oil fields were extensively developed, the export trade of this city for over a quarter of a century showed rapid gains. Comment is also made upon the fact that a large number of tank steamers have been withdrawn from this port and entered into the Bornean trade.
