Many Improvements Now Being Made at the State Institution.

TWO BUILDINGS ARE TO BE ERECTED

Horticultural Department Recently Established, Which is Regarded as One of the Many Important Features of the School.

The Nebraska Institute for the Deaf and Dumb, located in the northwest corner of the limits of this city, is one of the "There is, of course, the plan of having a state institutions that received very favorlibrary, but not to allow them to take a book overlooking the entire northern part of from it. The book taken out must be taken Omaha, and has twenty-three acres of ence library at best and aside from the great garden, large trees and carefully prepared expense of maintaining it is too visionary to flower beds, all of which give the institution a general appearance pleasing to the

complished by it more than compensates for present site in 1869. There has been a genany financial loss. At first it would appear eral and steady improvement since that increased number of attendants, but I do not building consisting of a front, north and think so. A rearrangement of the shelves south wings, a dining room and kitchen building, large industrial building, large cottage, large dormitory building, several play roome, a hospital and a pump house. The increase in attendance in the last two years has been so great that the present capacity of the institution was not at all dequate,

After a careful consideration by the members of the last legislature of the capacity who has just completed his 82d year, has of the building, the attendance and the expected number that will be in attendance soon, and considering the general needs of the institution as a factor in the educational system of Nebraska, a line of policy was adopted which will greatly add to the usefulness of the school. The sum of \$7,000 has had since several of his kinsmen have was appropriated for the purpose of buildgiven their service for their flag. His grand-son, Lieutenant Charles A. Towne of the This building will be located on the west First Illinois infantry, was in the recent of the industrial building and will be modern in every particular and will greatly add to the beauty and comfort of the instituequipping a new school building there appropriated the sum of \$25,000. This building will be located at a suitable distance south of the main building, will front to two years. Mr. Winchester's five sons, rang- the east, will be three stories high and its ing in age from 61 to 75 years, will act as construction and equipment will be modern pallbearers at the funeral, which takes in every respect. The construction of the boiler and pump house will begin within the next few days. The construction of the school building will be begun soon after July 1

By the increased facilities for taking care of and educating the deaf, the state of Nebraska will be amply able to provide for all of its unfortunate of this class for some years to come. From a little handful of twenty-four children, when the institution was first established on this spot, the atwhen 178 deaf children of the state have Work in the Departments.

kindergarten department, in which the young | thought." children coming to school are expected to

and other specialties in that line. The art department, which has an attendance of thirty-five boys and girls, learning drawing and painting, is also one of the strong

features of the Nebraska institution. The introduction of typewriters has been favorably commented upon by educators of the deaf throughout the country. The typewriters were introduced for the sole purpose of interesting the pupil in a more complete use of the English language, and thereby fitting the deaf better to go out in the world when they have finished their school days. Oregon, once refused a raise in his salary, The success in this direction has been all The firm was then building the Saginaw fo that could be desired.

by the students of the State university. tion that can be done to properly fit the deaf for two weeks until Donahue's return. He to be erected, the legislature provided for Donahue was pleased and made him perthroughout. Many improvements on the present buildings are contemplated and will thought over the matter and declined. be made during the vacation this summer. The present term ends on June 8. In the evening of that day commencement exercises, open to the public, will be held in the institution hall, at which time the school will turn out five graduates-two young women and three young men.

### GOSSIP ABOUT NOTED PEOPLE.

Saburo Shimada, the vice president of the Japanese House of Representatives, is nicknamed "Shabero," "Talking Jack." the terror of the stenographers, who demand one more yen (50 cents) an hour than usual for their services when Ordinary speakers he is speaking. tion. For the purpose of building and are said to utter 250 syllables a minute, but Mr. "Shabero" Shimada can get off 400 syllables in the same space. Japanese nicknames are often puns, which are unintelligible without tho. written character, and they erally take off some peculiarity, Here are a few which are easily explained: tion," of which he was the framer, and Count Blackcuttle," a play on his name.
