MAKE A PLEA FOR RELIEF

Many Delegations from Cut Off Wait Upon Mayor Jennings.

WANTS OF THE RESIDENTS ARE DETAILED

Ask that the Water Be Drained Off Their Lands and that They Be Given Better Fire Protection.

Mayor Jennings is almost daily receiving delegations from the residents of Cut Off who are crying for relief. The recent overflow of the Missouri has completely flooded the bottom lands in Cut Off, known to the city as the Second precinct of the Sixth ward of Council Bluffs, although the river intervenes.

The people of Cut Off want the mayor to give them some relief from the stagnant pools of water left standing since the river receded. They want the city to dig ditches and drain the water off the lands. This they say they would be willing to do themselves, but for the fact that the streets in their peninsula home are owned by the East Omaha Land company, which has refused to permit them to dig ditches across the thoroughfares. The various delegations were informed by the mayor that he did not see how the city can furnish them any relief in the matter as its finances at present are tied up by litigation and there is no money available for carrying out such a plan.

Since the recent fire caused by a dog overturning a lamp, when four houses were consumed, the residents of Cut Off feel that they are entitled to fire protection, seeing that they pay their proportion of the city taxes. They have asked the city to place two hydrants in the most populous portions of the peninsula, but again Mayor Jennings is compelled to inform them that the funds of the city will not allow any such undertaking.

All the people of Cut Off ask that two hydrants be placed there, as they have assurance that the Omaha Water Works company will furnish the water and the fire department of Omaha the fire protection.

Further, the residents of the Second precinct of the Sixth ward ask that they be furnished with police protection. They say that men and boys resort to Cut Off for the purpose of shooting wild ducks and other game, both in and out of season. The visiting sportsmen, they say, are too promiscuous in the use of their firearms in an consequence the dwellers there are constantly in fear owing to the flying of bullets. With regard to this last request Mayor Jennings has informed the various delegations that he will consider the matter of placing a special officer for duty in their district. Up till the advent of the democratic administration a policeman was always kept at Cut Off.

The members of the various delegations are particular in urging upon the mayor that the reports published in some of the papers that they wish to have the ties that bind them to the city of Council Bluffs and the state of Iowa severed without foundation. All they want is some of the benefits which as taxpayers of the city they believe they are entitled to.
