Memorial Day Plans.

Special committees appointed by the Grand Army men of this city have arranged a program for the observance of Memorial day. Special memorial services will be held next Sunday morning in St. Paul's Methodist church. An invitation has been extended to all members of the First, Second and Third regiments and Troop K of Milford and all ex-soldiers of the Spanish-American war to meet at the Grand Army hall and march to the church. The speakers announced for the Memorial day program are General John M. Thayer, Colonel Victor Vifquain and The Fromotional exercises of Hastings Lieutenant Colonel John H. McClay. The Methodist church, which was crowded to Donne Colle women of the Relief corps will erect two will be in memory of the unknown dead in the unknown dead in the Spanish war. NEBRASKA CITY, Neb., May 24 .- (Special Telegram.)-The committee of attorneys appointed by Judge Ramsey to hear the vidence in the disbarment proceedings against John C. Watson met here today and commenced the hearing. The committee is composed of D. T. Hayden, Paul Jessen and Stevenson of Otoe and D. O. Dwyer

and J. L. Root of Cass county. The charges, which were filed February 7, are signed by a number of the most prominent citizens of this county and accuse Watson of transactions involving unprofessional conduct and ask that he be disbarred from the practice of law. The complainants are represented by E. F. Warren and L. H. Jackson of this city, while at least \$250 from the gullible public for Watson's interests are being looked after blessing handkerchiefs, etc. Monday he did by John Morgan and Sloan & Moran of Nebraska City and Matt Gering of Platts-

mouth. William Hawke was the first witness. He testified that he employed J. C. Watson to break his father's will, but made no written contract with him; that he had seen the instrument purporting to be a deed from him (Hawke) conveying a tract of land to J. C. Watson, and that it bore a date when he (Hawke) was away from the city; that he signed papers at different times at Watson's request without examining them

carefully, but had no intention of deeding him any real estate. At the conclusion of Hawke's testimony, during which nothing further of importance was elicited, the hearing was adjourned until tomorrow.

Robbers' Roost Uncarthed.

HASTINGS, Neb., May 24 .- (Special Telegram.)-Sheriff Simmering and an officer from Webster county have succeeded in unearthing a cobbers' roost near Rosemont and recovered about \$1,200 worth of stolen of town, where the patient was taken, and goods. The officers placed Bill Leach, a Rosemont merchant, under arrest, as they have strong evidence which implicates him with the gang. It is thought he is one of the head men of the organization and that he simply ran the store to dispose of the stolen goods. During the last year merchants at Trumbull, Glenville, Bromfield, Ayr, Funk, Aurora and other small towns

have had their stores robbed, but the thieves have always escaped. It is almost certain that the den unearthed near Rosemont is the home of a large band of the bold thieves and safe-crackers who have infected this part of the state for a long time. Sheriff Simmering today received a dispatch from Detective Malone at Lincoln saying he had three or four fellows under whom he thought belonged to the gang. It is thought the robbers' roost is a branch of the band of robbers that was captured in Hanover, Kan., about a year and a half ago.

Carrent Penetrates the System-All Other Beits Barn. Dr. Bennett's Electric Belt represents many years of study and toil. I know that my Helt cannot fall to cure the ob-stinate and moritfying diseases of men and women, and therefore I unhesitatingly guarantee the cure in every case where I recommend the treatment of my Belt, Electricity gets way down to the founda-tion of a disease and removes the cause -thereby curing the disease. I will tell you that the greater part of my life has been spent in perfecting an electrode through which a strong current of Electricity will penetrate the system without that frightful burning and blister-ing caused by the bare metal electricians say I have invented and patented the most ingenious device of the century. Phys-icians say there can be only one result when electricity is applied to the human system through these electrodes - that re-sult a cure. I have known for man-but just how to apply the current so that it would penetrate puzzied all physicians and scientit's as well as myself. I have solved the problem. Through **Dr. Bennett's Electric Belts**

The entire current will penetrate and the current has four times the volume of any other electric belt. All other electric belts have electrodes of bare metal electric-ity trill not penetrate the system through bare metal—it is re-tained upon the sur-face—hence the se frightful burns. My Belt has soft, silken. Belt has soft, silken, chamois-covered chamois-covered sponge electrodes that render the crematory process of the old-style belts a physical i m p o s s i b ility. No doubt you have notic-ed since I have pat-ented my Boit that the bare metal elec-trode belts advertise "chamois-coverings" and that their belts.
