Supervisors Sitting as a Board o Equalization May Change the Figures Somewhat-Returns Compared with Those of 1897.

With the exception of those of the city of Council Bluffs, all the assessment books of the county are now in the hands of County Auditor Innes. Of the forty-four cownships, twenty-one show a decrease from the valuation of 1897 and thirteen an increase over it. The figures for this year as that is the last year that real estate was assessed. The net decrease in the assessment of the forty-four townships and towns this year is \$293,209, which is not as great as had been expected. The greatest losses occur in Lewis, Neola, Pleasant Valley and Washington townships, but it is more than probable that the figures of the assessors of these townships may be changed materially

by the board of supervisors next month when sitting as a board of review or equalization.

So far Assessor Hardin is unable to give any information as to when the assessment of the city will be completed, nor is he able to give any figures as to the deficiency as compared with two years ago.

The following townships and towns show a decrease: Elelknap, \$170,425; 1897, \$174,-351; decrease, \$3,926, Boomer, \$190,482; 1897 \$197,442; decrease \$6,960;.
