Wheat Opens Easy, but Gains Some Strength Later.

CORN AND OATS REMAIN STATIONARY

Trading, Taken as a Whole, Shows Little Life and Prices Do Not Hold Well - Provisions Evince Disposition to Advance.

CHICAGO, May 19,-Wheat scored an advance of 1%c a bushel today, July closing at 77%277%c. Corn closed unchanged and oats %c higher, Pork gained 5c and lard.

sc. Ribs closed unchanged. Large northwest receipts, heavy shipments to Europe, an increase on passage and favorable weather started wheat easy. The market soon turned strong, however and before the session was two hours old early sellers were clamoring for former holdings. An announcement by a promi-nent authority that the winter wheat area had been greatly reduced since May I, owing to damage by flies, coupled with sensa-tional claims of damage from private sources, brought about the change in sentiment. Buying orders from the southwest 14, poured into the pit and as the market was getting away from the bears they made a savars rush to reinstate themselves, bidding the price up 1sc at a time. Reports of European drouth helped the advance and the market closed near the top of the day's range. July opened 1sc higher at 75 grass, cased off to 75 gc, advanced to 77 gc and closed at 77 grafts. Chicago received 5s cars, 6 of which graded contract. Minnespolis and Duluth got 1.05; cars, compared with 4sl for the same day a week ago. World's shipments to Europe last week amounted to 8,933,000 bu, and the quantity on occan passage increased 1,355,000 bu. Heavy receipts and reports of increase in acreage weakened corn, but the decline was recovered near the close, owing to the rally in wheat. Receipts, 538 cars. July opened 1,50 4c lower at 12 grazzac, cased off to 82 grass and closed with sellers at 32 gr.

Outs suffered early from heavy receipts and favorable crop advices, but with the help of wheat closed firm at the top figures. getting away from the bears they made a

Oats suffered early from heavy receipts and favorable erop advices, but with the help of wheat closed firm at the top figures. Receipts 567 cars. July started 4c lower at 224c, sold sparingly at 224c224c and advanced to 224c at the close. Provisions were steadied by a better shipping demand and scattered buying. July pork opened 24c higher at \$8.174, advanced to \$8.25 and closed with sellers at \$8.20. Lard and ribs were dull with fluctuations marrow.

HOGS—The market opened at just about steady prices this morning and the most of the hogs sold early. Sell-rs let their common to medium hogs go when they could get \$3.60 for them, but they held on to such loads as buyers would not bid \$3.60 for, and they also held on to the good loads for which they were asking strong prices. After about two-thirds of the hogs had changed hands the trade slowed up a little, partly on account of the hesitancy of sellers to accept prices offered and partly on account of an effort on the part of buyers to close the market weak. It did not long remain dull, however, but buyers soon got down to business again and the market closed up fully steady. The good local demand helped out the market a good deal, and there was also a feeling among buyers that receipts this week would not be nearly so large as last week.

The most of the hogs sold at \$3.60, with a sprinkling at \$3.63½ and a \$3.70 top. On Saturday the bulk also sold at \$3.60, with a piece of a load at \$3.70. The week starts out with the market only a shade different from what it was a week ago, as will be noted from the table of average prices 1..1270 3 25 STOCKERS AND FEEDERS.

YIELDINGS IN STOCK MARKET

Main Feature of the Transactions During the Past Week.

Has Already Gone.

NEW YORK, May 29 .- (Special.) -- Henry Clews, head of the banking house of Henry Clews & Co. writes: The past week's stock market has been

distinctly one of yielding—not only in prices but also in spirit, tone and attitude of holders and the volume of transactions. For some time past it has not been difficult to detect evidences of an undercurrent in that direction. Not so much that there has been an absence of sound buil elements in the CHICAGO LIVE STOCK MARKET. situation, nor that the market has lacked good backers, as because the upward move-Cattle and Hogs Show Much Activity ment seems to have run to a state of tension too high to be maintained indefinitely, and and Prices Stendy. is towards reaction.

The great movement in securities that set in at the opening of the year has since been charged with burdens which were not anticlpated in its earlier stages. No sooner had an unprecedented investing and speculative demand carried up prices to the highest level ever known than there unexpectedly appeared a movement in the reconstruction of corporate capital which has transformed a very large part of our industrial system. SHIELDS' PECULIAR METHODS

County Attorney Forces One Gambling Case to Trial and Side-

tracks Another. The activity exhibited by County Attorney Shields in trying to force certain gambling cases to trial ahead of their natural order while other similar cases of previous date are conveniently overlooked is a subject of considerable comment in district court ircles. The action of the county attorney in insisting on trying the Dennison cases, which are near the foot of the docket, ahead of nearly 150 preceding cases, contrary to all precedents of criminal court practice, is in startling contrast to the delinquency of the same official in reference to the Henry Oerter gambling case, which seems to have entirely escaped the vigilance of the selfstyled champion of law and order.

The Certer case is one of the oldest of the sort now in court. Oerter was convicted of keeping a gambling house and fined. His case was appealed to the supreme court, where the decision was reversed on a technicality and remanded to he district court. Since then it seems to have dropped out of sight as completely as though it had never been on the docket.

It has now been nearly six months since the decision in the supreme court and there is not a scratch of a pen on the dockets of the district court to show that the case has been re-entered for trial. It is the business of the county attorney under such circumstances at once to secure a transcript of the proceedings in the supreme court and have the case placed on the docket for trial. This has not been done in the Oerter case up to this time, and there is nothing to indicate that the present county attorney has any intention of pushing the case against Oerter in which the proof has been already established. In this connection it is significant that I. J. Dunn. one of Shields' deputies, is Oerter's at torney.

In reply to a question in regard to the status of the Oerter case County Attorney Shields said that he knows nothing about it. "I have been so busy," he said, "with other matters that I have not had time to look up the Oerter matter at all." Shields expressed surprise at the information that it is not on the present docket and finally said that the matter would be attended to some time.

'DEMANDS OF LIBERALISM'

Lecture by John E. Remsburg, President of the American Secular Union.

John E. Remsburg of Atchison, Kan. president of the American Secular union, lectured last night at Washington hall to an audience of fair size on "The Demands of Liberalism." He argued strongly for the taxation of all church property, claiming that its exemption increased the burden of taxation upon other property, thereby compelling every taxpayer to contribute indirectly to the support of the church. Quotations from Presidents Grant and Garfield were given favoring church taxation. The lecturer insisted that the employment of chaplains in the army, navy and legis-latures, and the payment of their salaries 114.8 out of the public runus, and a certain 91.0 laws compelling a man to observe a certain out of the public funds, and the Sunday day as a day of rest, were a governmental recognition of religion, and unconstitutional. The laws of some states prohibiting unbe lievers from testifying in courts of justice were attacked as unjust and as fostering hypocrisy. The appointment by the president of the United States and the governors of the states of days of thanksgiving and prayer, Mr. Remsburg stated was inconsistent with the absolute divorcement of church and state, and the opinion of Thomas Jefferson was quoted in support of this claim. The question of bible reading in the public schools and the appropriation of public money for sectarian purposes were also discussed and quotations given from eminent divines and jurists in support of the demands of the American Secular union in this respect.

COMPLAIN OF THE CHANGES

Street Railway Patrons Miss Trans fers Formerly Enjoyed by North and South Travelers. South side street car patrons were highly

indignant all day Sunday by reason of th

change of the transfer system inaugurated on the street car service. The Walnut Hill line was discontinued on South Thirteenth and that street has been given over to the South Omaha line. With the change came the announcement that no more transfers would be issued to north and south patron wishing to go either east or west on Farnam, as had been the practice up to Sunday The order also causes hardship upon the tockmen, clerks and employes at South Omaha dependent on the Hanscom park line. Heretofore these early risers have been transferred to the South Omaha line at Sixteenth and Leavenworth. The abandonment of the viaduct and the running of the South Omaha trains along Thirteenth street compels patrons availing themselves of transfers to walk across Leavenworth from Sixteenth to Thirteenth.
