Failures for the Month of May Smallest Ever Known.

April failures were the smallest ever remonth and only 34.6 per cent of those in May last year, Defaults were \$3,820,684, or 45.7 cents on \$1,000, against 70 cents in May and finished products 2.6 per cent. Coke works 1896. Comparison with previous years indicates that the ratio of defaults to business has never been as small in any other month as in May, 1899. Both in manufacturing and trading failures were the smallest ever demand, notwithstanding higher prices. The failures than in May of any other year.

In dealing with times like these the chief difficulty is to avoid the accidents of extravagance. The actual is beyond experience, and if its naked recital invites incredulity and well reasoned forecast of the future it is a gain. Nobody has known until this year and the last month how great the American demand for products might be 6,640,800 in 1892.

It is scientifically affirmed, that in the thirty years which follow the change from the girl to the woman, beginning at fifteen and ending at forty-five, the average woman spends ten years of that time in physical suffering caused by irregular periods, disagreeable drains, female troubles, or other derangements of the functions of the delicate female organs.

Think of it! One-third of the best years of a woman's life best years of a woman's life spent in a struggle with pain.

It is no wonder that women everywhere are full of unbounded praise and gratitude for Dr. Pierce's Favorite Prescription. It for Dr. Pierce's Favorite Prescription. It does away with all suffering due to the discusses of the organs peculiarly feminine. It regulates the periods, stops the disagreeable drains heals inflamed and ulcerated conditions, and cures female weakness. It brings all the delicate female organs into natural, healthy and harmonious action.

There is no opium or other narcotic, and no alcohol, whisky or other alcoholic stimulant in "Favorite Prescription."

Sick women are invited to consult Dr. Pierce by letter, without charge. Write freely. Every letter is treated as strictly private and sacredly commential.

Mrs. M. F. Long, of Le Loup, Franklin Co.

private and sacredly confidential.

Mrs. M. F. Long of Le Loup. Franklin Co., Kaus., writes: "Words cannot express how grateful I am for your kind advice and good medicines. I have been in poor health more or less all my life. In the past nine years grow worse, and two years ago I was so poorly could hardly drag around. I consulted a specialist, and he said I had ulceration and that an operation would have to be performed. This did not seem necessary to me, so time went by, and I at last wrote to Dr. Pierce asking advice. I bought two bottles of 'Favorite Prescription, two of the 'Discovery' and two vials of the 'Pellets' as advised. When commencing I weighed 11935 pounds, and after taking one bottle of each I was like a new woman. In one month I gained eight pounds. After taking two bottles each of the medicines named. I began to look like a woman and not like a wasted skeleton. That weary tired feeling all left me, and it did seem as though life was worth living."

Dr. Pierce's Pellets cleanse the skin.

many expected, but still drives buyers to order more, as if no future had been anticipated. In actual payments through clearing houses business is 56 per cent larger than fast year and 38.1 per cent larger than in 1892. In railroad earnings, notwithstanding differences in rates business is 5.7 per cent. differences in rates, business is 5.7 per cent larger than last year and 2.6 per cent

Plates are so needed that \$5 premium is paid for June or July delivery. April failures were the smallest ever respectively. ported in any month. May failures are nearly \$2,000,000 smaller, only 62.8 per cent of the smallest per cent reported in any month and only 34.6 per cent of those in May last year. Defaults were a smallest over resourced in any stronger, with cut nails 10 cents higher. Pig

trading failures were the smallest ever known in any month, and in each branch wool speculators seem to be preparing such eight of the fourteen classes showed smaller failures than in May of any other year. trouble for themselves as they were in nearly two years ago. They are buying

Whent has been lifted flightly on all sorts of reports and then dropped, closing 1 cent higher than last week. Returns for a broken week indicate little except that receipts are quite large, 4.561,969 bushels, against 6,523,-500 last year, and they would hardly be as large if actual supplies at the west were different, considering the extreme urgency of demand which last year's fancy prices created. Exports from Atlantic ports have 2.549.783 bushels, flour included against 4,294,980 last year and 271,929 bushels from Pacific perts, against 385,439 last year, and in five weeks from both ports 13,310,950 bushels, against 18,371,811 last year. Pailures for the week have been 145 in the United States, against 222 last year, and fourteen in Canada, against sixteen last

BRADSTREET'S FINANCIAL REVIEW

Market Sags Until Friday When it Takes on Renewed Strength. NEW YORK, June 2 .- Bradstreet's Finanial Review tomorrow will say:

Increased evidence was afforded this week that not only large interests ceased to give support to the share market, but that some perators of considerable force were actively engaged on the bear side up to Fri-day. On that day, however, there was a fairly general recovery, due to renewed bullish manipulation and its effect on the augmented short interest was weak on last Saturday and weaker still when the Stock exchange resumed its session on Wednes-day, after a two-day recess. Further de-clines and more or less liquidations resulted, the movement being accelerated by various unsettling developments or conditions. The rise in wheat prices and the circula-tion of further reports of dubious crop pros-

pects were among the matters which aided in checking the appearance of a renewed buying power. An advance in foreign ex-change rates was another factor, while Wall change rates was another factor, while wall street to a certain extent developed a ner-yous feeling about the appearance of yellow fever at the gulf ports. The weakness in copper stocks, both on this side and in the European markets was effective in hasten-ing the declines in the industrial group and the New York local traction securities were subjected to selling pressure and experienced bad breaks, attributed to a belief that the new franchise tax law is considered a serious drawback to the prosperity of such organizations by the insiders. The street at large was also disposed to give heed to the suggestion that the pending gas war in New York City had disconcerted the plans of
