IT MERITS ATTENTION-

A NEW PREPARATION WHICH CURES DYSPEPSIA AND STOMACH Remarkable Curative Properties.

A new remedy which may revolutionize the treatment of stomach troubles has recently been placed before the public and bears the endorsement of many leading phy-Bicians and scientific men. The remedy is not a wonderful secret discovery, nor a patent medicine, neither is it

claimed to cure anything except indigestion and stomach troubles, with which nine-tenths of our nation are afflicted. The remedy is in the form of pleasant tast-

ing tablets or lozenges, containing vegetable and fruit esseences, pure aseptic pepsin (free from animal impurities), bismuth and Golden Beal; they are sold by druggists generally under the name of Stuart's Dyspepsia Tab-Many in teresting experiments made with

these tablets show that they possess remark-

able digestive power, one grain of the active principle being sufficient to thoroughly digest 3,000 times its own weight of lean meat leggs, catmeal or similar wholesome foods these tablets do not act on the bowels like after-dinner pills, nor in fact do they act upon any particular organ, but the manner in which they cure all forms of indigestion They act entirely upon the food is this: eaten, digesting it completely, nourishing every tissue and nerve of the body; they simply perform the work of digestion, thus giving the weak stomach rest and assistance sufficient to enable it to recover its normal strength. This is the reason so many pretended cures have signally failed; they de not furnish the digestive power, which is the one thing above all others that the stomach of the dyspeptic lacks, and unless that lack is supplied it is waste of time to attempt to restore the enfeebled stomach by means of "tonics," "stomach bitters" and "pills;" no permanent god can result from their use.

If the stomach can be rested and assisted in the work of digestion it will very soon recover; this is the secret and the whole secret of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a year ago and now the most popular, widely used dyspepsia remedy; everywhere a success, secured almost entirely on its merits, as it has never been extensively

Stuart's Dyspepsia Tablets are now sold by druggists everywhere at 50c per package; if he hasn't them in stock he will order them for you from his wholesale house. They are made by the F. A. Stuart Co. chemists, Marshall, Mich., who will be pleased to send information and testimonials from every state in the union.

MOVES INTO ITS NEW HOME

Northwestern Railroad Throws Open the Doors of Its Palatial Quarters.

General Agent Kuhn, Assisted by Other Officials of the Road, Does the Honors of the Occasion.

The work of renovating and making relaw prior to the adoption of the statute pairs has been completed and now the local officials of the Chicago & Northwestern Rail-When attention was called to this fact the road company are settled in their palatial quarters in the Paxton hotel block, Fourteenth and Farnam streets. They were a home to their friends yesterday afternoon

Something like two years ago the officials of the Northwestern railroad felt the necessity of more commodious quarters for the transaction of the up-town business here and commenced to lay their plans for making the changes which have since been carried to a successful termination. They secured a long-time lease on the two rooms on the first floor, northeast corner of the Paxton hotel block, and ordered the furniture manufactured, ready to be installed when the rooms could be made ready for occupancy. There was some trouble experienced in securing the vacation of one of the rooms occupied by another tenant and it was not until two months ago that the work of making the changes commenced. Since then a force of men has been kept

terday for the first time the offices were thrown open to the public. The changes in the offices and the furniture cost in the aggregate the sum of \$10,000. There are three rooms, one for the general agent, one private office and the ticket and freight office. All of these offices are finished in mahogany with furniture of the same material, even to the settees and umbrella racks. The floor is laid in imat the Parish House Monday morning at ported mosaics, red, white and black in color. The ceiling is of metal, colored a light green, shading off into white, all beduring the month of May aggregated ing laid in panels. The baseboards are of dark colored marble, producing a very

Stockham and City Passenger Agent George F. West, made their many friends and the patrons of the road feel at home. The doors were thrown open at 3 o'clock and for two hours a stream of people poured through the rooms extending their congratulations FRIENDS OF THE SYSTEM ENTERTAINED and expressing appreciation of the enterprise of the Northwestern in putting in an office second to none in the country. In addition to the greetings, there was something more substantial for the visitors, for a magnificent lunch was spread, to which all were bidden and which was washed down with punch, after which the cigars were passed. The rooms were beautifully decorated with

cut flowers and potted plants, while numer-

ous pictures were hung upon the walls. Among the outside railroad men who were present were: W. N. Babcock of the Lackawanna, C. A. Cairns, assistant general passenger and freight agent, and T. S. Rattle, assistant general freight agent of the general offices of the Northwestern of Chicago. Then there were all of the local officials of the Elkhorn and Omaha roads, together with many of those of the Union Pacific and other roads entering the city. The idea followed in fitting up the Northwestern city office here is not a new one, as the same plan is pursued in Chicago Boston, Pittsburg, Detroit, San Francisco and a dozen other lagre cities, both east and west. The idea is to have the furniture and furnishing similar in every respect so that when a patron of the road
