sponse to the demands of the populists of performance. All the entrances to lately after the appointment was announced. tended the baccalaureate sermon the night The significance of this telegram, coming from prominent and influential populists of to last for two days. the counties of Dawes, Sioux and Scotts Bluff, was recognized by Governor Poynter, especially after he had consulted with a representative of the party from that portion of the state. While the decision of the governor is especially pleasing to members of the populist party, it is not relished by the democrats, who feel that Mr. Caven has been made the victim of the situation. The reason for the governor's refusal to commission Caven after he was appointed is that he is not a cattleman.

#### More Trouble in Sight.

From every point of view the appointment question is acting as a scourge to the Poyn- play is now a senior and the especial mark ter administration and the governor is will- of the juniors. ing to admit that in the attempt to satisfy all the bosses he is having a dreadful time. The next fuss scheduled is over the insurance commissionership. It is said now that were escorted to their homes by members the fight has narrowed down between Henry of the class. The demand for tickets to the Boydston, W. F. Bryant and Lyman, the play far exceeds the supply. latter a silver republican. Boydston's claims of those who served with Poynter last year. pose this afternoon. Boydston, however, is on record as being finds no favor among the populist statesmen. Bryant is a visionary populist and was attorney for Cornell in the recent investigation. It is said that if he is appointed it will be an evidence of submission on the part of Poynter to the Cornell crowd and will mark the second advent into power of the Palm "hold-up" element.

instructor of the new man when the appointment is made. Everingham is himself a candidate and it is whispered that in case of his failure to get the place he will rea green man and will forthwith quit the state house for a good job on the outside. In the event of the refusal of either Everingham or Lichty to take charge of the insurance nursery, the department is sure to start out in a crippled condition and the prospect is anything but cheerful.

## Removes Dr. Sprague.

the office of superintendent of the Institution for Feeble Minded Youths at Beatrice. Before the hearing last week Governor Poynter announced that this action would be taken and that B. F. Long of York would Governor Poynter this afternoon: EXECUTIVE OFFICE. LINCOLN, June

Charles G. Sprague, Institution for Feeble Minded Youths, Beatrice, Neb .- Dear Sir: I beg hereby to inform you of the conclusions reached by me in the matter of the investigation of the management of the Institution for Feeble Minded Youths at Beatrice, Neb., during the period of your incumbency as superintendent. 1. From the investigation made by me I

find that during the management Institution for Feeble Minded Youths by you the care and management of the patients under your charge has not been conducted in a manner that has promoted the best interests of the institution.

further sfind that there has been a want of proper discipline exercised by you mployes under your control, which has resulted in an injury to the proper management of the institution and for the causes above mentioned, after a careful examination of the testimony offered by the complainants and also by yourself at the hearing before me on the second day of June, 1899, it is hereby ordered that you be and are hereby removed as superintendent of said institution and you are hereby re-Rieved of any further authority or duty as such superintendent. Very truly yours,

W. A. POYNTER, Governor. The rehearing of the injunction case inand other state officials by the bondsmen of aldson and Maude Newman. ex-State Treasurer Bartley was taken up beafternoon. The bondsmen are seeking to them on Bartley's bond until after the liability of the Omaha National bank for \$201,-000 of the state treasurer's shortage is determined in court. # TO BE DEPENDED ON

## Omaha Citizen and Can Easily Be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it is like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it of '86 presided. is with endorsement; we doubt the sayings of people living at distant points because we can't investigate, but public expressions of local citizens can be depended on, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute:

Mr. Wm. Sage, bricklayer of No. 4211 Burdette street, says: "Always after a hard day's work or when I caught a cold which settled in my loins, backache became very severe. Dozn's Kidney Pills, procured at Kuhn & Co.'s drug store, corner 15th and Douglas streets, gave me such prompt relief and up to date have prevented attacks that I have no hesitation in recommending them to anyone suffering from either overexcited or weakened kidneys."

Doan's Kidney Pills for sale by all dealers-price 50c per box or mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's, and take no

the Oliver theater will remain under guard until the time for the play to commence The rivalry between the seniors and the ju niors grows more intense every year and it was rumored on the university campus this afternoon that an attempt would be made by the under classmen to kidnap the seniors and prevent them from giving their play tomorrow. This has been tried by several unior classes in former years, but seniors are usually prepared for such an emergency and for several days before the

play they are very careful not to expose themselves to the jealous juniors. The seniors have been rehearsing for the play for the last several weeks and it is rumored that a forecast of all of the class puns will be printed and distributed tomor-LINCOLN, June 5 .- (Special.) - As pre- row morning by the juniors, Last year dicted several days ago Governor Poynter member of the junior class was smuggled has decided to cancel the appointment of W. Into the Oliver theater the night before C. Caven of Crawford as a member of the the last dress rehearsal and his presence State Brand and Mark commission, and it was not discovered until the rehearsal was was announced at the governor's office this finished. The man had secured a position morning that another man would be selected in the upper portion of the stage and while immediately for that place. # FINE BEET SUGAR FACTORY

Foundation is Now in for the New Structure at Ames.

BEST OF ITS KIND IN UNITED STATES

Work is to Be Pushed at Once on the Building, Which is to Contain All the Modern Improvements.

FREMONT, Neb., June 5 .- (Special.) --The work of putting in the foundation of the Standard Beet Sugar factory at Ames was completed Monday and as the steel plates and beams for the building itself under roof. are already on the track at the grounds the building will soon begin to loom up, the largest sugar factory in Nebraska.

The new factory, which will have double the capacity of either the Grand Island or Norfolk factories, is situated two miles north and half a mile west of Ames, west of the place known as the Mills farm. The obbefore with enough provisions in his pockets | ject in locating it there instead of in town was to have it as centrally located for the farmers as possible, thus saving the time to outwit the seniors was to force an exit and expense of the company and farmers in hauling beets over a road sometimes got in the best condition. Ground was for awhile it looked as though the plan broken for the building as soon as the would fail. The junior finally unwound a weather would permit, which was the first week in April. The Union Pacific railroad built a sidetrack from the east end of the Ames yards, a mile and a half north, then northwesterly along the side of the cutoff ditch a mile and a half to the factory, and put in several switch tracks at the site. The Elkhorn extended its line from the Union Pacific crossing, a mile east of Ames, to Ames, connecting with the Union Pacific switch. All the material and machinery can thus be laid down directly at the site, thus saving considerable expense in

hauling. The main building is 300x100 feet. foundation consists of piles driven into the 2,000 piles were used for the foundation of was placed a pillar of steel, welded together with concrete eight feet in height. The buildings, except a few of the smaller being used in their construction, the floors being of concrete and the framework of steel and the walls of brick.

The plan of construction is the same as of steel plates and girders being first put up, then the walls, no weight whatever resting on the latter. The framework of this massive building will require 2,500,000 pounds of steel and it will take over 2.000,-000 brick to make the enclosing walls. The Standard company let the contract for the construction of the buildings and the furnishing and the placing of the machinery to the Oxnard Construction company of New York. When this work is done all connection of the Oxnards with the company ceases and the factory will be run independently of any trust or combination.

Fine Machinery. Superintendent King, who is in charge of the construction, last year had charge of the erection of a still larger factory in California. He is thoroughly informed on beet sugar machinery, having made a comby the adjutant general. The commanding plete study of all the details connected with the manufacture of the sugar contents of beets into sugar.

The work will then show. In a month from now there will be something to see."

Rapid Work Done. weeks ago the site of the plant was a cornfield out on the open prairie. Already there are enough people close by to make a goodsized village. South of the joyable affair which has taken place in site is a long frame dining hall, west of it couple of "bunk houses," substantial frame buildings, containing rows of single white enameled bedsteads and looking some like the interior of the army barracks. Still further west are several goodsized houses which will be occupied by the fore men and others. East of the site about 100 yards is a row of about thirty red-painted, three-room frame cottages occupied by the employes of the Standard Cattle company,

who are working in the beets. Within a radius of two miles of the fac tory are 4,000 acres of beets, nearly all belonging to the cattle company. A good stand was obtained this year. Most of the fields have been plowed once and thinned over a mile in length, of the light, greenleaved plants, standing out clearly against the dark, clean earth, are a sight worth see-The number of employes of the Stand-The Catholic church of Creighton is to be and Cattle company at work in the beetenough to weed beets are given the preference and live in the small red cottages, payover the company's property are about 175 against City of Hastings.

copie are of a migratory disposition. They work a few days or weeks, perhaps, then oad all their earthly belongings into the old white-covered wagon and pull out for

some new location. The sugar company was fortunate in obsining a supply of water for its plant. Near the main building are three wells with the water flowing nearly to the surface, which will furnish them all that is needed. The drainage of the factory will be carried off by the "Cut Off" ditch, a drainage 100 feet wide and from eight to twelve feet deep extending from the foot of the bluffs about a mile northwest of the factory about four and a half miles in a southeasterly direction to the Platte river. This ditch has sufficient fall to carry off all waste material of a liquid kind. The ground area of the four principal buildings is something enormous. There will be over 1,000,000 square feet

### Mortgage Record.

COLUMBUS, Neb., June 5.—(Special.)—Following is a copy of the mortgage indebtdness record for the month of May, 1899, for Platte county: Thirty-six farm mortgages filed, worth \$41,841; released, thirtynine, worth \$37,782.25. Twelve town and mortgages filed, worth \$5,069; released, city five, worth \$2.848. The chattel record is not so encouraging. There were sixty-eight chattel mortgages filed, amounting to \$83,229.58, and thirty-eight released, worth \$47,782.40. There were no deeds in foreclosure during

KEARNEY, Neb., June 5 .- (Special.)-Following is a statement of mortgages filed and released in Buffalo county during the month of May, 1899: Farm mortgages filed, twenty-eight, worth \$27,817.35; released, fifty-four, worth \$45,324. City mortgages filed, fourteen, worth \$8,820; released, four-teen, worth \$29,766.65. Chattel mortgages filed, 176, worth \$87,681.46; released, eightysix, worth \$56,181.16. Total mortgages filed, 218 worth \$124.318.81; total released, 164.

### Court at Plattsmouth.

PLATTSMOUTH, Neb., June 5 .- (Special.) The June term of district court convened in the city this afternoon with Judge B. S. ground twenty-five feet, then cut off eight Ramsey on the bench. After calling the feet below the surface, making a platform docket the celebrated case of the Seth about ten feet square. Between 1,800 and Thomas Clock company against Cass county was called, it being a mandamus case this and other buildings, the platforms of against the county commissioners to compel piles being about ten feet apart. On them them to pay the sum of \$1,200 for the large clock on the court house. The purchase price of the clock had previously been paid o an agent of the company, but he failing ones, will be entirely fireproof, no wood to turn the money over to the company is why this action is brought. If the plaintiff is successful in this suit Cass county will be compelled to pay for this clock the second time. Owing to the small number of that of the "skyscrapers," the framework cases on the docket the session will be a short one.

### Struck by Lightning.

HEBRON, Neb., June 5 .- (Special.)-Lightning struck the large barn back of the First National bank belonging to C. C. Fletcher last night a little after 12 o'clock. The building was erected years ago and was used for a skating rink, but for the last few years has been used as a training stable by F. C. Hensel. Besides the Messrs. Fletcher, Hensel, Stewart and Scho-

### Tough on the Tramps.

CENTRAL CITY, Neb., June 5 .- (Special Telegram.)—The council recently passed an ordinance against vagrancy. Yesterday there was a large number of tramps in the city and Mayor Glatfelter ordered the marshal to run them in. As a result ten men landed in the cooler. This morning Well, that is a chestnut. Our machinery \$\$ to \$25, to be worked out on the streets at and building will be vastly superior to it. \$1.50 per day and to be fed on bread and It is a small concern, its machinery is out water during the time. Every vagrant city will be treated with a like dose

Big Engines. SCHUYLER, Neb., June 5 .- (Special.)-Great interest was aroused here this mornclass that are to go, and while they seemed much larger than the usual large engines the framework of the building is being put passing through daily, no adequate conception of their size was had until they were seen in comparison with the engine of the fast mail going west, which seemed not to be half as large.

# Small Tornado.

AUBURN, Neb., June 5 .- (Special.) -On Friday, at about 1:30, a small, but powerful, tornado visited the farm of William Hollroyd, four miles north of Auburn, leaving the barn and wagon shed a complete wreck. The roof was very heavy, being constructed of two by six rafters and metallic cover, out the roof and one side of the barn were arried over thirty rods and the other walls laid waste. The course of the current was almost due north, but the wagon shed was cattered as though it had been struck from

Monument Unveiled FULLERTON, Neb., June 5 .- (Special.)-

The ceremony of unveiling the monument erected by the Woodmen of the World to barn of Farmer Berry near Manchester, the memory of Sovereign J. M. Mills, who was run down by a train on the main line 100x120 and lime house 80x150. Trains will of the Union Pacific at Clarks last Febrube switched directly into the beet house ary, took place at Fullerton cemetery yes erday afternoon and was conducted by Fulhandling beets as rapidly as possible. Large lerton camp, of which he was a member. One hundred and five members of the order

Women's Club Banquet. STROMSHURG, Neb., June 5 .- (Special.)-On Friday night occurred the annual banquet of the Stromsburg Women's club. Mrs. Makeever, Mrs. Green, Miss Coleman, Mrs. was totally wrecked and the horses have Graves, D. P. Little and Rev. Presson of his city entertained the company in a pleasing manner.

# Convention Closes.

SUTTON, Neb., June 5 - (Special.)-The exth district convention of the Young People's Society of Christian Endeavor closed a three days' ression yesterday. There were fifty-five delegates present. The baccalaureate sermon was delivered to the graduates of the Sutton High school last evening at the Methodist Episcopal church by Rev.

#### Loses Half a Leg. HARTINGTON, Neb., June 5 .- (Special.) --

esterday afternoon as August Drees, blacksmith at Bow Valley, was polishing a cultiof which struck his leg, breaking and amputate the limb above the knee. Boy Badly Scalded.

#### PLATTSMOUTH, Neb., June 5 .- (Special.) -The little son of ex-Sheriff Harvey Holloway, who was badly scalded by accidentally upsetting a kettle of boiling water on himself, is improving, although the burns he sustained will be some time in healing.

Thunderstorm at St. Paul. ST. PAUL, Neb., June 5 .- (Special.)-A severe thunderstorm, accompanied by heavy which blew down the Union Pacific windmill, passed over here last night about o'clock. The shower following amounted to 0.56 of an inch.

Court at Minden.

# SPRINT BY BIG FOUR ENGINE

Immense Freight Locomotive Hauls Heavy Train One Thousand Miles in Record Time.

CINCINNATI, O., June 5.-The Big Four's mammoth new freight engine, No. 703, reached the Chesapeake & Ohio terminal in Covington at 1 o'clock this afternoon and was soon afterward brought across to the Riverside yards of its own road so as to be in readiness to continue its record-breaking trip to Chicago in the evening, It started a run of 1,001 miles from New-

port News to Chicago, with seventy-seven vator shovel, the emery wheel burst, a piece loaded freight cars, with which it is to reach Chicago early Wednesday morning mangling it frightfully. It was necessary to It will have completed the longest run on record, either by a freight or passenger engine, with the heaviest train that any locomotive has ever pulled for any distance. The bare engine weighs 185,000 pounds and the water tank has a capacity of 6,000 gallons. It left tonight

### PASSENGER RATES IN SAD STATE Scalpers Are Doing Bulk of Busines

from Chicago West. CHICAGO, June 5.-Passenger rates the west are in an admittedly serious cor dition. Between Chicago and St. Paul the scalpers are doing the bulk of the business

at cut rates and the biennial convention of Modern Woodmen of America, which meets at Kansas City this week is enabling the MINDEN, Neb., June 5.—(Special.)—An brokers to manipulate the Chicago-Kansas adjourned term of the district court con- City traffic. Excessive commissions are be vened on last Wednesday for the purpose of ing paid all over the west and the general trying the celebrated case of Foxworthy situation is rapidly becoming worse. Small hopes are entertained that the meeting of

of these cottages. A good many of these DES MOINES AND ITS SALOONS general passenger agents called for tomorines are anticipating a good deal of trop-

ble before harmony is restored. During the last four months the west ern lines have held meeting after meeting for the purpose of adopting a revised agreement for the Western Passenger association. As many separate meetings have also been held to round up the affairs of the Western Immigrant bureau, which have been in an unsatisfactory condition for some time. No definite good has come out of all or any of these meetings, and they appear to be no nearer a settlement than when

the first meeting was called. Some of the officials, too, declare that certain lines show plainly that they do not really wish that any agreement should gram.)-Word was received in the city to- be reached, but would prefer that matters

Kodol Dyspepsia Cure completely digests food within the stomach and intestines and renders all classes of food capable of being assimilated and converted into strength giving and tissue building substances.

There is no policeman to enforce the laws of health and to call "stop!"

> when you are in danger from dis-ease. But Nature has her own danger signals. When pain shoots like a lightning flash along the nerves, when the heart beats feebly or irregularly, when there is unnatural fullness after eating, sour risings, headache, coated tongue or irritable temper, then Nature is plucking you by the sleeve and calling "stop!" To neglect these warnings is dangerous. Derangement of the stomach and its allied organs is but the beginning of trouble for the whole body. As a complete cure for disease of the stomach and the organs of

digestion and nu-

trition Doctor Pierce's Golden Medical Discovery stands without an equal. It purifies the blood, cleanses the system of poisonous accumulations, nourishes the starved nerves and builds up the entire body, blood and bone, muscle and nerve.

"It is with pleasure that I tell you what Dr. Pierce's Golden Medical Discovery and Pellets' have done for me," writes Mrs. T. M. Palmer, of Peede, Kaufman Co., Texas. "Two years ago I was taken with stomach and bowel trouble. Everything I ate would put me in distress. I lived two weeks on milk and even that gave me pain. I felt as though I would starve to death. Three doctors attended me—one said I had dyspepsia, two said catarrh of the stomach and bowels. They attended me (one at a time) for one year. I stopped taking their medicine and tried patent medicine; got no better, and I grew so weak and nervous my heart would flutter. I could not do any kind of work. Now I can do my house work very well, am gaining in flesh and strength, and can eat anything." nerves and builds up the entire body,

# Electric Belts

Why Dr. Bennett's Is So Far Superior to All Others-Showing How the Current Penetrates the System-All

Other Belts Burn.

Dr. Bennett's Electric Belt represents many years of study and toil. I know that my Belt cannot fall to cure the obstinate and mortifying diseases of men and women, and therefore I unhesitatingly guarantee the cure in every case where I recommend the treatment of my Belt. Electricity gets way down to the foundation of a disease and removes the cause—thereby curing the disease. then of a disease and removes the cause—thereby curing the disease,
I will tell you that the greater part of my life has been spent in perfecting an electrode through which a strong current of Electricity will penetrate the system without that frightful burning and blistering caused by the bare metal electrodes used on all other electric belts and electric appliances. Frominent electricians and I have invented and natented the used on all other electric belts and sleed tric appliances. Frominent electricians say I have invented and patented the most ingenious device of the century. Physicians say there can be only one result when electricity is applied to the human system through these electrodes—that result a cure. I have known for many years that electricity was the greatest remedial agent that would ever be known to man—but just how to apply the current so that it would penetrate puzzled all physicians and scientists as well as myself. I have solved the problem. Through

Dr. Bennett's Electric Belt The entire current will penetrate and the current has four times the volume of any other electric belt. All other electric belt have electrodes of metal electricoare metal electric-ity will not penetrate the system through bare metal-it is re-tained upon the sur-face-hence the se frightful burns. My Belt has soft, silken, chamols-covered. hamois-covered sponge electrodes that he bare metal elec-rode belts advertise "chamois-coverings"
and that their beits,
"won't burn," Don't
be deceived, Electricity will not penetrate
chamois over bare
metal and I will give
\$1,000 in gold for an
electric beit other
than mine that gives
enough current to be
curative that will not
burn you full of holes.
Write to me (or call)
for photos of men
who have worn these
bare metal affairs. I
have 4,000 letters, too, on the subject. Let
me mail some of them to you.

Beware of old-style Beits under news

me man some of them to you.

Beware of old-style Beits under newstrie names.
